## TABLE OF CONTENTS

Definitions .....	1
Introduction .....	2
Methods .....	3
Results .....	3
American crow .....	8
Band-tailed pigeon .....	13
California quail .....	19
Chukar partridge .....	25
Cottontail rabbit .....	34
Dove (mourning and white-winged) .....	43
Forest grouse (dusky and ruffed) .....	50
Gambel's quail .....	58
Gray (Hungarian) partridge.....	66
Ring-necked pheasant .....	72
Sage-grouse (greater and Gunnison) .....	78
Sandhill crane .....	100
Sharp-tailed grouse .....	105
Snowshoe hare .....	114
White-tailed ptarmigan .....	120
Wild turkey .....	126
Appendix A: Weather conditions .....	142
Appendix B: Hunter survey response summary .....	147
Appendix C: License sales .....	150
Appendix D: Permit numbers, season dates, bag and possession limits and areas open.....	152

## DEFINITIONS

**General upland game:** Upland game species that can be hunted with a basic hunting or combination license and do not require any additional, species-specific permit. Upland game species in this category include American crow, chukar partridge, cottontail rabbit (desert and mountain), doves (mourning and white-winged), forest grouse (dusky and ruffed), gray (Hungarian) partridge, quail (Gambel's and California), ring-necked pheasant, and snowshoe hare.

**Special permit upland game:** Upland game species for which an additional, species-specific hunting permit is required, in addition to a basic hunting or combination license. Species in this category include band-tailed pigeon, greater sage-grouse, sandhill crane, sharp-tailed grouse, white-tailed ptarmigan, and wild turkey.

**Year:** This annual report covers the state fiscal year period July 1, 2020 through June 30, 2021 (hereafter referred to as 2020–21). All upland game surveys, inventories, and hunting seasons within this time frame are presented here. This report presents all data from the hunting seasons that were outlined in the 2020–21 Upland Game and Turkey Guidebook. Year designations in specific tables refer to the actual time frame of that survey/hunting season. For example, hunting seasons that occurred in the fall or the spring will have single year designations (e.g., 2020 or 2021, respectively), while fall/winter seasons will have an overlapping year designation (e.g., 2020–21).

## SAGE-GROUSE AND SHARP-TAILED GROUSE DEFINITIONS

**Lek:** Sage-grouse or sharp-tailed grouse strutting ground.

**Strutting grounds visited:** Total number of known sage-grouse or sharp-tailed grouse strutting grounds (leks) that were visited during spring counts, regardless of whether or not birds were actually present.

**Strutting grounds occupied:** Number of sage-grouse or sharp-tailed grouse strutting grounds (leks) that were active, i.e., grounds where male birds were present during spring counts.

**Average males / occupied ground:** Average number of male sage-grouse or sharp-tailed grouse that were counted at occupied or “active” grounds.

## INTRODUCTION

The objective of Utah's upland game management program is to provide recreational hunting opportunity for sportsmen within the limits of the annual harvestable surplus for each species. It is based on the knowledge that populations of upland game experience relatively high rates of annual turnover. High reproductive rates are naturally compensated for by high rates of mortality, whether hunting is allowed or not. Annual surveys are conducted to measure the production, trend, and harvest of each upland game population.

This is the 47<sup>th</sup> Annual Upland Game Report. It is an annual performance report of information compiled during inventory and harvest surveys conducted under Federal Aid Project W-65-M, segments 68 & 69. Information contained herein was collected and compiled by biologists, conservation officers, wildlife managers, and upland game management staff of the Utah Division of Wildlife Resources. This report covers the 2020–21 upland game hunting seasons, 2020 fall turkey season, 2021 spring turkey seasons, as well as inventory and trend surveys that took place from July 2020 through June 2021.

This report serves as a handbook of inventory and harvest data. It is designed primarily for the use of those concerned with the management of upland game. A separate section is devoted to each species of upland game in Utah. Data are presented primarily in tabular form with limited figures.

The upland game harvest survey is designed to monitor statewide harvest trends from year to year. The more extensively a species is hunted, the more accurately the survey measures the trend data. To improve the accuracy of the indices for species that receive very little hunting pressure, have low densities, and/or a limited distribution, a unique survey is used. Each species of that type must be hunted using a special permit so that hunter information can be obtained for survey purposes. Species falling into this category include band-tailed pigeon, greater sage-grouse, sandhill crane, sharp-tailed grouse, white-tailed ptarmigan, and wild turkey.

The annual harvest report is sometimes criticized for being inaccurate and without value. However, report users must recognize that the accuracy of the survey is based on 4 basic assumptions: (1) the survey sample is completely random; (2) respondents clearly understood the question; (3) respondents recorded or remembered data accurately, and did not guess or lie; and (4) respondents correctly identified the species hunted. If those assumptions are not met, projections or harvest by county may be over-estimated due to non-response or memory biases. Extreme caution should be used in the interpretation of estimated harvest and hunters for specific species in specific counties. Rather, the long-term trend in these indices should be used in managing the populations. Presently, the Upland Game Annual Report contains the best data available and therefore constitutes the basic facts of upland game management. Although this report has its limitations, the trend data is valuable in making professional judgments regarding upland game populations and harvest.

The annual report is used in wildlife planning. It can be used to establish relative importance among species and for developing new resources through transplants or habitat developments. It points out areas of needed research by indicating problems and possible causes. It documents

population trends and it combines all this inventory information into one easily accessible publication. Thus it is used extensively by federal land management agencies in environmental impact statements and management plans. It will become increasingly more important in developing management plans and assessing impacts on wildlife habitat.

## **METHODS**

General upland game harvest statistics were obtained from a random sample of licensed hunters using an Internet-based survey, followed by a telephone survey to adjust for non-response bias. The sample was stratified by license type and then the data were projected by the total number of license holders within each stratum. Hunters with permits for band-tailed pigeon, greater sage-grouse, sandhill crane, sharp-tailed grouse, white-tailed ptarmigan, and wild turkey were surveyed through a separate mixed-mode web/telephone survey.

In Utah, hunters were required to purchase either a combination license or a basic hunting license before purchasing a species-specific hunting permit or before applying in any drawings. Therefore, only a fraction of hunters who purchased a license actually hunted upland game, and a much larger sample of license holders was required for the upland game harvest survey.

## **RESULTS**

The percent of Utah residents who had any type of resident license valid for the 2020–21 upland game hunting season was 7% (U.S. Census Bureau’s 2020 Utah population estimate: 3,271,616). 276,106 resident and nonresident hunting and combination licenses were valid for the 2020–21 Utah upland game hunting seasons. 79,309 people were randomly selected for participation in the general upland game harvest survey, representing a 28.7% sample. These hunters were sent an email inviting them to participate in the Internet-based harvest survey. Of those hunters contacted, 14,896 (19%) submitted an online harvest survey. A random sample of 4,999 hunters who did not respond to the Internet-based survey were contacted by telephone for the non-response bias correction survey. Survey information for turkey and other upland game species are presented in the table on the following page.

A total of 37,825 hunters went afield in 2020–21 in pursuit of various general upland game species. 11,862 hunters hunted wild turkey in spring 2021 and 5,904 hunters hunted wild turkey in fall 2020. Detailed information describing the upland game harvest can be found in the following tables. Regulations for the 2020–21 upland game and 2021 wild turkey hunting seasons were published in the 2020–21 Utah Upland Game and Turkey Guidebook.

Upland game survey methods and response rates, 2020–21.

Species	Survey method	Licenses / permits sold	Sample size
Band-tailed pigeon	Web/phone	164	90
General upland game	Web/phone	276106	19895
Greater sage-grouse	Web/phone	557	307

\*No data from 1983 to 1987.

Statewide band-tailed pigeon harvest statistics, Utah 1970–2020 (continued).

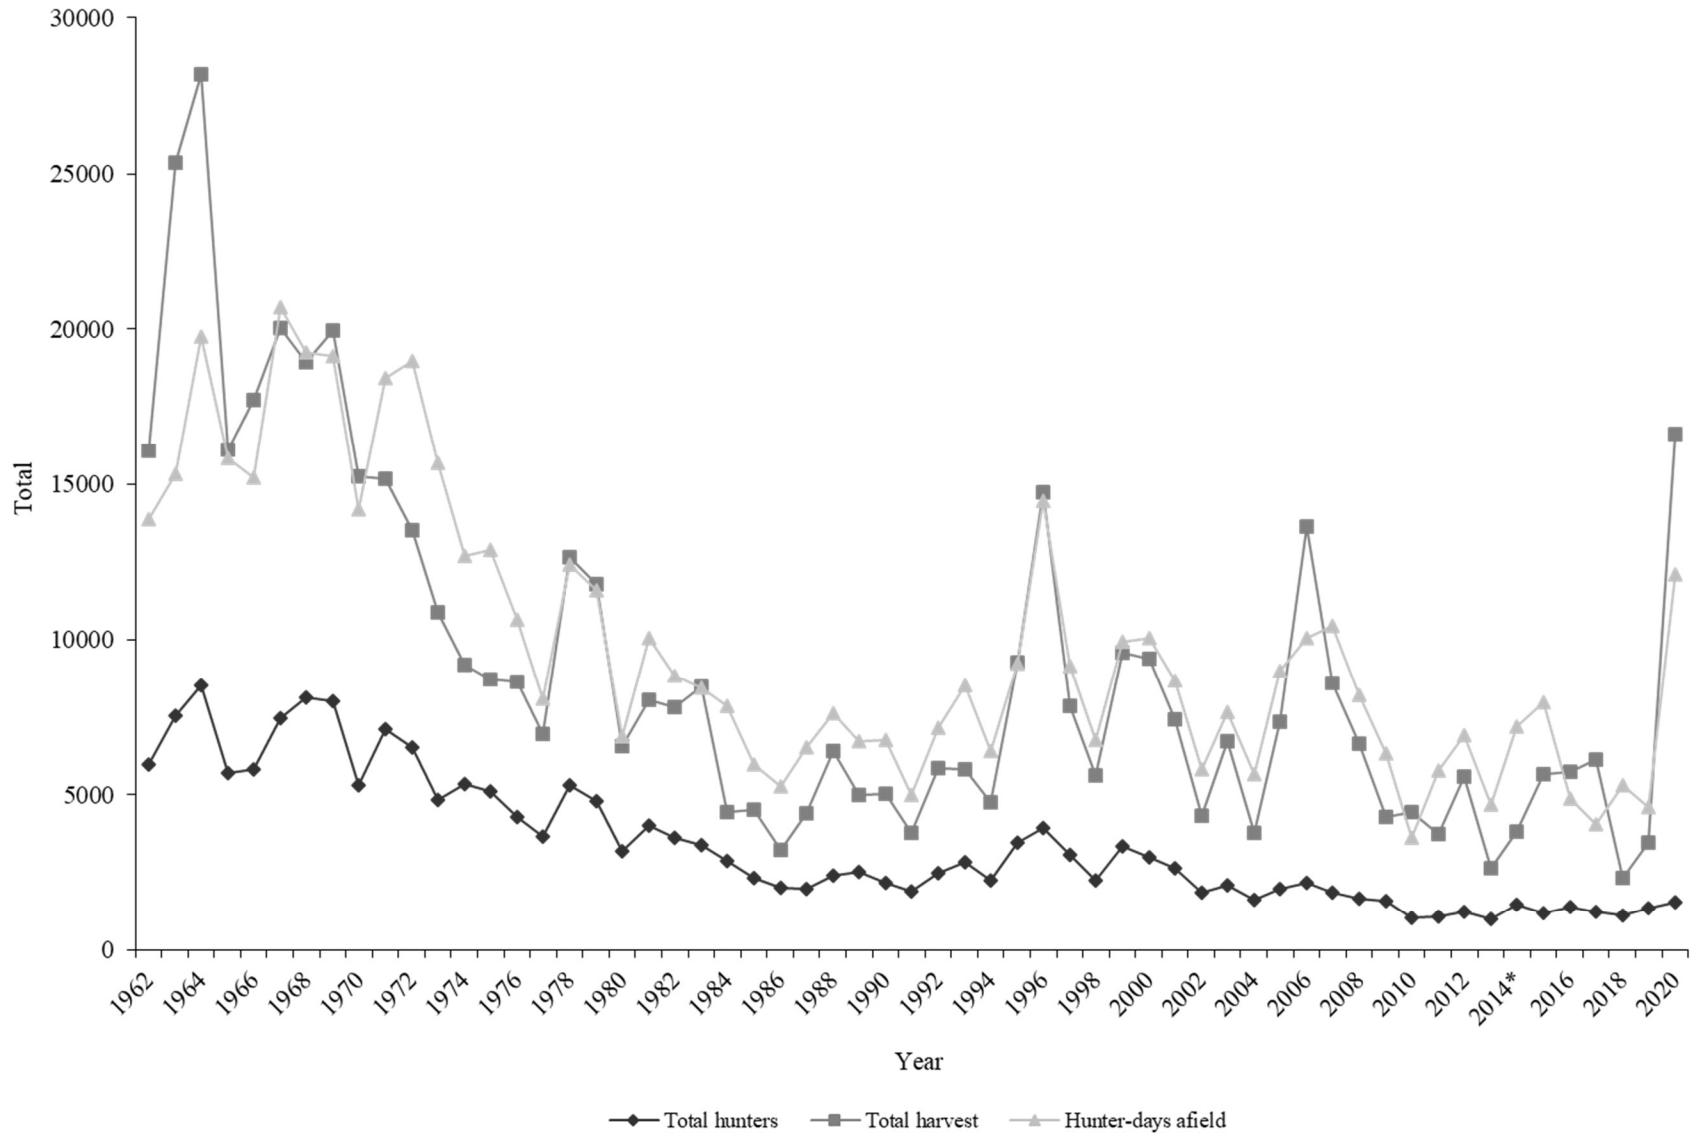

Year	Total hunters	Total harvest*	Hunter-days afield	Pigeons / hunter-day	Pigeons / hunter
2014	44	24	89	0.3	0.5
2015	44	0	173	0.0	0.0
2016	16	0	24	0.0	0.0
2017	31	0	80	0.0	0.0
2018	80	0	261	0.0	0.0
2019	40	4	79	0.1	0.1
2020	38	2	87	0.0	0.1
Average (1970–2019)	52	78	142	0.6	1.7
% change from previous year	-5	-50	10	-55	-47
% change from average	-26	-97	-39	-96	-97

\*Decrease in harvest beginning in 2015 was likely due to changes in survey methodology to help hunters better identify rare upland game species. Harvest in previous years was likely biased high due to misidentification.

# CALIFORNIA QUAIL

Statewide trends of California quail harvest statistics, Utah 1962–2020.

\*Includes Gambel's quail hunters and days-afield.

Statewide trends of California quail hunter success, Utah 1962–2020.

\*Includes Gambel's quail hunters and days-afield.

2020	75136	71.7	1696	1.6	26215	25.0	1730	1.7	104777
Average (2006–2019)	80969	69.8	2885	2.5	31965	24.8	3434	2.8	119254
% change from previous year	-3	4	-30	-25	-13	-6	-36	-31	-7
% change from average	-8	3	-70	-58	-22	1	-99	-73	-14

\*Decrease in harvest was likely due to changes in survey methodology to help hunters better identify rare upland game species. Harvest in previous years was likely biased high due to misidentification.

# FOREST GROUSE (Dusky and Ruffed)

# RING-NECKED PHEASANT

Statewide trends of ring-necked pheasant harvest statistics, Utah 1948–2020.

\*No data available for hunter-days afield in 1948.

\*\*Starting in 2001, harvest data are likely biased high due to hunters reporting harvest from commercial hunting areas.

Statewide trends of ring-necked pheasant hunter success, Utah 1948–2020.

\*No data available for hunter-days afield in 1948.

\*\*Starting in 2001, harvest data are likely biased high due to hunters reporting harvest from commercial hunting areas.

Ring-necked pheasant harvest statistics by region and county, Utah 2020.

## **APPENDIX D**

**PERMIT NUMBERS, SEASON DATES,  
BAG AND POSSESSION LIMITS, AND AREAS OPEN**

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2020–21 (2020–21 Utah Upland Game & Turkey Guidebook).

American crow

- Season dates: September 1–30, 2020 and December 1, 2020–February 28, 2021
- Areas open: Statewide.
- Bag limit: 10
- Possession limit: 30

Band-tailed pigeon

- Season dates: September 1–14, 2020
- Falconry season dates: September 1–December 16, 2020
- Areas open: Statewide.
- Bag limit: 2
- Possession limit: 6
- Permit requirement: A free permit is required to participate in this hunt.

California and Gambel's quail

- Season dates: November 7–December 31, 2020
- Youth hunt: October 31–November 2, 2020
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15
- Notes: Limits singly or in combination.

Chukar partridge

- Season dates: September 26, 2020–February 15, 2021
- Youth hunt: September 19–21, 2020
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15
- Notes: Antelope Island is closed to all upland game hunting.

Collared-dove (Eurasian and African)

- Season dates: Year round
- Areas open: Statewide.
- Bag limit: No limit
- Possession limit: No limit
- Notes: Collared-doves may be hunted without a license, year round, using any weapon you lawfully possess. Collared-doves should remain fully feathered so they can be distinguished from mourning and white-winged doves. Any collared-doves taken during the dove season will not count as part of the combined dove bag and possession limits if they remain unplucked during transport.

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2020–21 (continued).

Cottontail rabbit (desert and mountain)

- Season dates: September 1, 2020–February 28, 2021
- Areas open: Statewide.
- Bag limit: 10
- Possession limit: 30

Dusky and ruffed grouse

- Season dates: September 1–December 31, 2020
- Areas open: Statewide.
- Bag limit: 4
- Possession limit: 12
- Notes: Limits singly or in combination.

Gray (Hungarian) partridge

- Season dates: September 26, 2020–February 15, 2021
- Youth hunt: September 19–21, 2020
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15

Greater sage-grouse

- Season dates: September 26–October 18, 2020
- Areas open: Diamond, Blue Mountain (SG1000); Parker Mountain (SG1001); Rich County (SG1002) and West Box Elder County (SG1003)
- Permit requirement: A greater sage-grouse permit is required to participate in this hunt. Only 2 birds of either sex may be taken during the entire season.
- Notes: This hunt is comprised of all or largely private property. Hunters should acquire written permission from the landowner before obtaining a permit for this hunt.

Jackrabbit (black-tailed and white-tailed)

- Season dates: Year round
- Areas open: Statewide.
- Bag limit: No limit
- Possession limit: No limit
- Notes: May be hunted without a license, using any weapon that you lawfully possess.

Mourning dove and white-winged dove

- Season dates: September 1–October 30, 2020
- Falconry season dates: September 1–December 16, 2020
- Areas open: Statewide.
- Bag limit: 15

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2020–21 (continued).

- Possession limit: 45
- Falconry bag limit: 3
- Falconry possession limit: 9
- Notes: Limits singly or in combination. Collared-doves should remain fully feathered so they can be distinguished from mourning and white-winged doves.

#### Ring-necked pheasant (General season)

- Season dates: November 7–December 6, 2020
- Youth hunt: October 31–November 5, 2020
- Areas open: Statewide.
- Bag limit: 2 male birds
- Possession limit: 6 male birds
- Notes: Only males may be harvested. The Goshen Warm Springs WMA in Utah County is closed to all hunting. The Annabella and Pahvant WMAs—and part of the Ogden Bay WMA—are closed to the general public on Nov. 14, 2020 for sponsored, organized youth and beginner pheasant hunts.

#### Sandhill crane (Cache and Rich counties)

- Season dates: September 5–13, 2020
- Areas open: Cache County (SC1001) and Rich County (SC1002)
- Permit requirement: A sandhill crane permit is required to participate in this hunt. During the season, you may take only 1 bird of either sex.
- Notes: Falconry season dates, possession limits and permit requirements are the same as those for other hunters.

#### Sandhill crane (East Box Elder County)

- Season dates: September 5–November 3, 2020
- Areas open: East Box Elder (SC1000)
- Permit requirement: A sandhill crane permit is required to participate in this hunt. During the season, you may take only 1 bird of either sex.
- Notes: Harold Crane, Public Shooting Grounds and Salt Creek Waterfowl Management Areas are closed to sandhill crane hunting. Bear River National Wildlife Refuge is closed to sandhill crane hunting, except during open waterfowl hunting seasons. Falconry season dates, possession limits and permit requirements are the same as those for other hunters.

#### Sandhill crane (Uintah County)

- Season dates: October 3–22, 2020 (early), October 23–November 11, 2020 (middle), and November 12–December 1, 2020 (late)
- Areas open: Uintah County. There are three hunts: early (SC1003), middle (SC1004), and late (SC1005).

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2020–21 (continued).

- Permit requirement: A sandhill crane permit is required to participate in this hunt. During the season, you may take only 1 bird of either sex.
- Notes: Falconry season dates, possession limits and permit requirements are the same as those for other hunters.

Scaled quail

- Season dates and bag limit: Closed statewide

Sharp-tailed grouse

- Season dates: September 26–October 18, 2020
- Areas open: Northeast Box Elder County (ST1000) and Cache County (ST1001)
- Permit requirement: A sharp-tailed grouse permit is required to participate in this hunt. Only 2 birds of either sex may be taken during the entire season.
- Notes: This hunt is comprised of all or largely private property. Hunters should acquire written permission from the landowner before obtaining a permit for this hunt.

Snowshoe hare

- Season dates: September 1, 2020–March 15, 2021
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15

White-tailed ptarmigan

- Season dates: September 1–October 31, 2020
- Areas open: Statewide.
- Bag limit: 4
- Possession limit: 12
- Permit requirement: A free permit is required to participate in this hunt.

Wild turkey (Fall general-season hunts)

- Season dates: October 1, 2020–February 28, 2021 (Northern, Central, Southeastern), November 1, 2020–February 16, 2021 (Southern)
- Areas open: Select areas within the Central, Northern, Southern, and Southeastern regions. These hunt areas are comprised of all or largely private property.
- Permit requirement: A wild turkey permit is required to participate in this hunt. During the season, you may take up to 3 turkeys of either sex, and you must have a separate permit for each bird you harvest.
- Notes: Permits for the fall 2020 general-season hunts will be available starting September 3, 2020 at [wildlife.utah.gov](http://wildlife.utah.gov) and from license agents and Division offices.

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2020–21 (continued).

#### Wild turkey (Limited-entry hunts)

- Season dates: April 10–April 29, 2021
- Areas open: Central (TK1003), Northeastern (TK1004), Northern (TK1005), Southeastern (TK1006), and Southern (TK1007) regions.
- Permit requirement: The limited-entry hunt requires a wild turkey permit distributed through Utah’s turkey drawing. You may take only 1 bearded turkey within the season and boundary listed on your permit.
- Notes: If you are a youth with a limited-entry permit and you don’t harvest during the limited-entry season, you may continue to hunt during the youth hunt and the spring general-season hunt.

#### Wild turkey (Spring general-season hunt)

- Season dates: May 3–31, 2021
- Youth hunt: April 30–May 2, 2021
- Areas open: Statewide.
- Permit requirement: The spring general-season hunt requires a wild turkey permit that you can purchase over the counter. You may take only 1 bearded turkey within the season on your permit.

#### Wild turkey (CWMU hunts)

- Season dates: The CWMU operator establishes the number of hunting days within the timeframe established by the Utah Wildlife Board for turkey hunting on CWMUs, April 10–May 31, 2021.
- Areas open: Pahvant Ensign (TK1018).
- Permit requirement: The CWMU hunt requires a wild turkey permit distributed through Utah’s turkey drawing. During the hunting period established by the CWMU operator, you may take only 1 bearded turkey.
