September 2020 RAC Feedback  
August 25, 2020 9:15 pm

**After viewing the 2021–22 fishing recommendations and contest rule amendments:**

I am neutral on the recommendations and amendments.

---

**Do you have any additional comments about these recommendations or amendments?**

The crayfish regulation on not transporting live crawfish home should be demolished. It's a senseless regulation and crawfish are not supposed to be cooked dead.

---

**After viewing the proposed amendments to Administrative Rule R657-62 for deployed military:**

---

I support the amendments.

**After viewing the 2021–22 fishing  
recommendations and contest rule  
amendments:**

I support the recommendations and amendments.

---

**After viewing the proposed  
amendments to Administrative Rule  
R657-62 for deployed military:**

I support the amendments.

---

**After viewing the 2021–22 fishing recommendations and contest rule amendments:**

I oppose the recommendations, the amendments or both.

---

**Do you have any additional comments about these recommendations or amendments?**

I am concerned that by reducing the bass limit the change will encourage anglers to only keep larger bass and reduce the bass numbers in the northern end of Flaming Gorge Res. Currently me and my grandson keep limits of smaller bass from The dam end since it takes a limit of 10 to make a meal. The change will force us to concentrate on fishing for one or two larger bass on the north end to make a meal. Thanks

---

**Do you have any comments about the angler opportunity assessment update?**

No

---

**Do you have any comments about the Middle Provo River update?**

No

---

**After viewing the proposed amendments to Administrative Rule R657-62 for deployed military:**

I am neutral on the amendments.

---

**Do you have any additional comments about these amendments?**

No

---

**Do you have any comments about the Conservation Permit Program Annual Report for Fiscal Year 2020?** Thanks Justin!

---

**After viewing Darren DeBloois' presentation about cougar conservation and the expo permit requests:** I support the proposals

---

**Do you have any comments about cougar conservation and the expo permit requests?** I believe the Division needs to focus on big game winter range loss to home construction more and predators less. The offering of over the counter cougar permits will cause big game numbers to increase which will lead to additional damage of winter range.

---

**After viewing Mike Canning's presentation about the repeal of the Wildlife Sensitive Species Rule:** I oppose the repeal

---

**Do you have any comments about the repeal of the rule?** I believe that having a list of species of concern allows the employees, partners and special interest groups to focus their energy on those none game and game species and aid in strengthening the species within the state. Without such a list the focus will be on game species which provide the financial backing for the Division and state.
