MEMORANDUM

Date: March 14, 2018

To: Utah Wildlife Board / Regional Advisory Council Members

From: Covy Jones, Big Game Coordinator

SUBJECT: Overview of 2018 Big Game Permit Recommendations

The attached tables summarize the Utah Division of Wildlife Resources recommended general season, limited entry, and antlerless permit allocations for the 2018 big game hunts. These recommendations are based upon evaluation of information from the 2017 harvests and post-hunting season herd composition classifications. The number of permits proposed for 2018 should help achieve or maintain desired objectives for harvest size, quality, and hunting opportunity under Utah's big game management plans.

Highlights:

- 1) For general season deer hunting, we manage 18 units with a post season buck to doe ratio objective of 18–20 and 11 units with an objective of 15–17. We are recommending permit increases on 10 units, no changes on 13 units, and a decrease on the remaining 6 units. Statewide, we are recommending 91,050 general season permits, which is a 2,000 permit increase compared to last year.
- 2) Premium limited entry deer units are managed for $\geq 40\%$ of harvested bucks being 5 years or older. We recommend no changes in permits on the Henry Mtns (49 permits, 3-year avg of bucks 5 years or older is 71%) and Paunsaugunt (135 permits, 3-year avg of bucks 5 years or older is 51%).
- 3) Premium limited entry deer units are managed for 40-55 bucks per 100 does post season. We recommend a small decrease in the management buck permits on the Henry Mtns (26 permits, 3-year avg is 50.7 bucks per 100 does) and no change of management buck permits on the Paunsaugunt (31 permits, 3-year avg is 49 bucks per 100 does). On the Henry Mtns, we recommend 8 archery, 10 any weapon, and 8 muzzleloader management buck permits. On the Paunsaugunt we are recommending 14 permits for the cactus buck hunt.
- 4) We recommend a decrease of 43 limited entry deer permits from 1,024 to 981.
- 5) We recommend 15,000 spike elk permits and 15,000 any bull permits, as defined in the statewide elk plan.
- 6) We recommend no changes in youth any bull permits (500 permits).
- 7) We recommend an increase of 59 limited entry bull elk permits from 2,833 to 2,892.
- 8) We recommend a 172 permit increase in buck pronghorn permits from 849 to 1,021.
- 9) We recommend a 16 permit increase in bull moose permits from 68 to 84.
- 10) We recommend a 12 permit decrease for bison on the Book Cliffs from 67 to 55. On the Henry Mtns, we recommend a 26 permit increase from 84 to 110 (15 of which are archery permits).
- 11) We recommend an 8 permit increase in Rocky Mountain bighorn sheep permits from 32 to 40 and a 3 permit increase in desert bighorn sheep permits from 53 to 56. We are recommending 2 new bighorn permits on the Filmore, Oak Creek Rocky Mountain bighorn sheep unit.

- 12) We recommend a 13 permit increase in mountain goat permits from 108 to 121 (4 of which are archery permits). We are recommending 2 new mountain goat permits on the La Sal, La Sal Mtns mountain goat unit.
- 13) In 2017 deer populations decreased slightly in some management units, and the statewide deer population estimate is 363,650.
- 14) We recommend an increase of 485 antlerless deer permits from 1,470 to 1,955. Antlerless deer hunts are designed to reduce depredation on private lands and address declining range conditions. We are proposing 11 new hunts and 2 boundary changes this year.
- 15) Statewide, elk populations increased in 2017. Antlerless permits are needed to manage elk populations towards their management objectives. The statewide elk population objective is 78,215 and the current statewide estimate is 80,955. We are recommending 10,090 public antlerless elk permits in 2018, compared to 9,980 in 2017.
- 16) For public draw hunts, we are recommending 5 new antlerless elk hunts.
- 17) We recommend antlerless elk control permits on the following 10 units:
 - Henry Mtns
 - Ogden
 - Kamas
 - Chalk Creek
 - Morgan-South Rich
 - West Desert, Vernon
 - San Juan
 - South Slope, Yellowstone
 - East Canyon
 - Pine Valley
- 18) We are recommending 9,105 private lands only permits on 20 units throughout the state to increase harvest and hunting pressure on private lands. We recommend the season dates be from August 1 – January 31, and hunters may use any legal weapon during these hunts. These hunts minimized depredation challenges in many parts of the state. Hunt units include:
 - Ogden
 - East Canyon
 - North Slope, West Daggett
 - South Slope, Bonanza/Vernal
 - La Sal
 - Central Mtns, Manti
 - Wasatch Mtns, Currant Creek
 - Paunsaugunt
 - Mt Dutton
 - Zion
 - Morgan-South Rich
 - Chalk Creek
 - South Slope, Yellowstone
 - Nine Mile, Anthro
 - San Juan
 - Wasatch Mtns, West-Central
 - Wasatch Mtns, Avintaquin
 - Central Mtns, Nebo
 - Panguitch Lake
 - West Desert
- 19) We recommend an increase of 10 doe pronghorn permits from 750 to 760. We are recommending 2 new doe pronghorn hunts.
- 20) We recommend an increase of 12 antlerless moose permits from 22 to 34. We are recommending 1 new cow moose hunt on the North Slope, Summit unit.

MEMORANDUM

Date: March 14, 2018

To: Wildlife Board and Regional Advisory Council Members

From: Mike Wardle, Private Lands/Public Wildlife Coordinator

Subject: 2018 Antlerless permit recommendations for Cooperative Wildlife Management Units (CWMUs)

CWMUs operate within a three-year Certificate of Registration (COR). Once that COR has expired, a CWMU must submit a renewal application to continue in the program. This past December, 85 CWMUs submitted renewal applications and were approved by the Wildlife Board to operate in 2018. Permit numbers for bucks/bulls were also approved at that time.

- Of those CWMUs that submitted renewal applications, 48 included antlerless permits in their applications. Those applications require board approval.
- Two CWMUs that are currently operating within their three-year CORs have submitted change applications for their antlerless permits that require board approval.
- Below is a summary of the DWR's recommendation for CWMU antlerless permits.

| Species | Private | Public |
|--------------|------------|------------|
| Elk | 139 | 735 |
| Pronghorn | 43 | 69 |
| Deer | 0 | 15 |
| Total | 182 | 819 |

The attached table lists the Utah Division of Wildlife Resources' 2018 antlerless permit recommendations for CWMUs. Those recommendations require Wildlife Board approval. Also attached is a table showing all of the CWMU antlerless permits for 2018, including those that were approved by the Wildlife Board in previous years.

DEPARTMENT OF NATURAL RESOURCES

MICHAEL R. STYLER
Executive Director

Division of Wildlife Resources

Michal D. Fowlks
Division Director

MEMORANDUM

Date: March 15, 2018

To: Regional Advisory Council Member and Wildlife Board

From: Justin Shirley, Law Enforcement Captain

SUBJECT: R657-51 Poaching-Reported Reward Permits Rule; consolidate existing rules into one rule section, clarify and add to the rule.

Highlights:

- Provide an overview and history of the current program.
- Consolidate the current existing reward permit rules for big game, turkey, and cougar into one rule.
- Add black bear and general season deer and elk into the rule.
- Clarify and make consistent language on the process for the permits that are available and issued under this rule.
- Adoption of this rule would remove the reward permit sections from the current big game, turkey, and cougar rules.

R657. Natural Resources, Wildlife Resources.

R657-51. Poaching-Reported Reward Permits.

R657-51-1. Purpose and Authority.

(1) Under authority of Sections 23-14-18 and 23-14-19, the Wildlife Board has established this rule describing procedures the division may use in issuing permits to individuals who report unlawful taking of protected wildlife in Utah.

R657-51-2. Definitions.

(1) Terms used in this rule are defined in Section 23-13-2 and R657-62.

(2) In addition:

(a) "Successful Prosecution" means:

(i) the issuance of a Class B misdemeanor citation for a wildlife violation under Utah Code 23-20-4; or

(ii) the filing of criminal charges eligible for a Class A or Class B misdemeanor or any felony under Section 23-20-4.

(b) "Qualifying Individual" means:

(i) an individual who provides accurate and credible information concerning a wildlife violation in Utah;

(ii) the division uses that information in securing a successful prosecution; and

(iii) the individual fully cooperates and supports the division throughout the prosecution process.

R657-51-3. General Permit Availability and Eligibility Provisions.

(1)(a) A poaching-reported reward permit may only be issued on a unit having 10 or more public draw permits issued in the upcoming season.

(b) If a poaching-reported reward permit is unavailable on a given unit, an alternative permit may be issued using the process identified in each species-specific section of this rule.

(c) The division may determine that a permit is unavailable on a unit if:

(i) less than 10 public draw permits will be issued for a given unit in the upcoming season;

(ii) the illegally harvested animal was taken outside of established unit boundaries; or

(iii) issuing a poaching-reported reward permit would exceed 10% of the total number of permits issued on that unit.

(2) A Qualifying Individual remains eligible to receive a poaching-reported reward permit, regardless of any applicable waiting periods they may otherwise be subject to.

(3) A Qualifying Individual receiving a poaching-reported reward permit will not:

(a) forfeit bonus points or preference points accumulated; or

(b) incur a waiting period, except as described in Subsection (4).

(4) A Qualifying Individual receiving a poaching-reported reward permit for a once-in-a-lifetime species is ineligible to apply for or obtain another once-in-a-lifetime permit for the same species and sex through the division's big game drawing.

(5)(a) The division may only issue one poaching-reported reward permit for any one animal illegally taken.

(b) No more than one poaching-reported reward permit may be issued to any one person per successful prosecution.

(c) No more than one poaching-reported reward permit per species shall be issued to any one person in any single calendar year.

(d) Nothing in this rule authorizes an individual to use or possess more than one permit for an antlered or horned animal of the same species in a single hunt year.

(e) The Qualifying Individual may choose the weapon type for the permit, so long as a permit for that weapon type is available.

(f) The Qualifying Individual may choose the season for the permit if different seasons are offered, except that multi-season permits may not be issued through the poaching-reported reward permit program.

(6)(a) Poaching-reported reward permits may only be issued to the individual who provides the most pertinent information leading to a successful prosecution.

(b) If information is received from more than one individual, the director of the division shall make a determination based on the facts of the case as to which individual is eligible to receive the permit.

(7) Poaching-reported reward permits are non-transferrable.

(8) Any person who receives a poaching-reported reward permit must possess or obtain a Utah hunting or combination license and otherwise be eligible to hunt the species for which the permit is issued for.

(9) The division may determine whether to offer monetary rewards in lieu of issuing a poaching-reported reward permit for a Qualifying Individual.

R657-51-4. Big Game Poaching-Reported Reward Permits.

(1) Successful Prosecutions for the illegal take of bull moose, desert bighorn ram, rocky mountain bighorn ram, rocky mountain goat, bison, bull elk, buck deer, and buck pronghorn may be eligible to receive a poaching-reported reward permit.

(2)(a) Poaching-reported reward permits for desert bighorn ram, rocky mountain bighorn ram, bull moose, Rocky Mountain goat, and bison may be issued on units or hunts meeting the general permit availability requirements as follows:

(i) a permit may be issued for a male animal of the same species and on the same unit as the animal illegally taken;

(ii) if a permit described in Subsection (a) is unavailable, a permit may be issued for a male animal of the same species on an alternative unit that is closest in proximity to where the animal was illegally taken;

(iii) if a permit described in Subsections (a) and (b) is unavailable, a permit may be issued for a male animal of another once-in-a-lifetime species on a unit that is closest in proximity to the unit where the animal was illegally taken; or

(iv) if a permit described in Subsections (a), (b), and (c) is unavailable, a permit may be issued for a male animal of a limited entry species on an alternative unit selected by the division.

(b) The division may issue a hunter's choice permit in lieu of a permit for a male animal for bison and Rocky mountain goat poaching-reported reward permits.

(3) Poaching-reported reward permits for premium limited entry deer may be issued on units or hunts meeting the general permit availability requirements as follows:

(a) a permit may be issued for a buck deer on the same premium limited entry unit as the animal illegally taken;

(b) if a permit described in Subsection (a) is unavailable, a permit may be issued for a buck deer on an alternative premium limited entry unit that is closest in proximity to where the animal was illegally taken; or

(c) if a permit described in Subsections (a) and (b) is unavailable, a permit may be issued for a buck deer on an alternative limited entry unit closest in proximity to where the animal was illegally taken.

(4) Poaching-reported reward permits for limited entry buck deer, bull elk, and buck pronghorn may be issued on units or hunts meeting the general permit availability requirements as follows:

(a) a permit may be issued for a male animal of the same species and on the same unit as the animal illegally taken; or

(b) if a permit described in Subsection (a) is unavailable, a permit may be issued for a male animal of the same species as the animal taken on an alternative limited entry unit for that species that is closest in proximity to where the animal was illegally taken.

(5) Poaching-reported reward permits for general season buck deer and bull elk may be issued on units or hunts meeting the general permit availability requirements as follows:

(a) a permit may be issued for a male animal of the same species and on the same unit as the animal illegally taken; or

(b) if a permit described in Subsection (a) is unavailable, a permit may be issued for a male animal of the same species as the animal taken on an alternative general season unit for that species that is closest in proximity to where the animal was illegally taken.

(6) If a violation occurs at a location having both general season and limited entry opportunities for the species illegally taken, the division may issue a limited entry permit for that species using the parameters identified in Subsection (4).

R657-51-5. Cougar Poaching-Reported Reward Permits.

(1) Limited-entry and harvest objective cougar units are eligible for poaching-reported reward permits.

(2) Only one poaching-reported reward permit may be issued for each limited-entry cougar unit per year.

(3) Poaching-reported reward permits for cougar may be issued on units or hunts meeting the general permit availability requirements as follows:

(a) if the animal was illegally taken on a harvest objective unit, a permit may be issued for a limited entry unit closest in proximity to that harvest objective unit;

(b) if the animal was illegally taken on a limited entry unit, a permit may be issued on the same limited entry unit; or

(c) if a permit described in Subsections (a) and (b) is unavailable, a permit may be issued on the limited-entry unit that is closest in proximity to where the animal was illegally taken.

R657-51-6. Bear Poaching-Reported Reward Permits.

(1) Limited-entry and harvest objective bear units are eligible for poaching-reported reward permits.

(2) Only one poaching-reported reward permit may be issued for each limited-entry bear unit per year.

(3) Poaching-reported reward permits for bear may be issued on units or hunts meeting the general permit availability requirements as follows:

(a) if the animal was illegally taken on a harvest objective unit, a permit may be issued for a limited entry unit closest in proximity to that harvest objective unit;

(b) if the animal was illegally taken on a limited entry unit, a permit may be issued on the same limited entry unit; or

(c) if a permit described in Subsections (a) and (b) is unavailable, a permit may be issued on the limited-entry unit that is closest in proximity to where the animal was illegally taken.

R657-51-7. Turkey Poaching-Reported Reward Permits.

(1) General season and limited-entry turkey units are eligible for poaching-reported reward permits.

(2) Poaching-reported reward permits for turkey may be issued on units or hunts meeting the general permit availability requirements as follows:

(a) a permit may be issued on the same unit as the animal that was illegally taken; or

(b) if a permit described in Subsection (a) is unavailable on that unit, a permit may be issued on a limited-entry or general season unit selected by the division.
