Which best describes your position regarding the black bear proposals?

Neither agree nor disagree

Do you have any additional comments about the black bear proposals?

Allow group applications for bear permits. It is allowed for big game permits, upland permits, migratory birds. Bears hunting applications should be eligible also.

Which best describes your position regarding the black bear proposals? Somewhat disagree

Do you have any additional comments about the black bear proposals? I do not agree in paying landowners for livestock loss. If they're loosing livestock, that's part of the cost of doing business and we as the public should not have to pay for it.

Which best describes your position regarding the elk unit plan updates? Somewhat disagree

Do you have any additional comments about the elk unit plan updates? When counting numbers in mostly private areas, those should not be counted as publicly available. Same as Tribal Lands.

Which best describes your position regarding the proposed changes to Poaching-Reported Reward Permits? Strongly agree

Do you have any additional comments about Poaching-Reported Reward Permits? It's an incredible risk for most people to report poachers. I'd also say that the reporting party should get half of the fine the state receives, as well as all the other tag rewards.

Which best describes your position regarding the proposed woundfin research study? Neither agree nor disagree

Do you have any additional comments about the woundfin research study? Any time we can protect any land, do it.

Which best describes your position regarding the proposed changes to Poaching-Reported Reward Permits?

Somewhat agree

Do you have any additional comments about Poaching-Reported Reward Permits?

I am still waiting on information about a poacher on my own property who left the bull elk to waste. The fish and game officer retrieved his back pack and rifle casing as well as the dead elk that same day. License plate number was obtained and the poacher was confronted about the whole thing. The kid got an attorney and A year and half later nothing has come of it and the poacher expresses he got away with it and nothing is happening.

I want to know how you guys plan to keep this program running and how you can offer such a thing when I personally feel like these cases are not taken as serious as you make them out to be. I think its a great idea to try to reward those who protect our wildlife but not if you guys can't properly do your job on the back end.

I had a dead bull elk, a backpack, rifle cartridges, license plate number all on private property that was properly marked and UDWR can't seem to prosecute this guy?

Which best describes your position regarding the proposed changes to Poaching-Reported Reward Permits?

Somewhat agree

Do you have any additional comments about Poaching-Reported Reward Permits?

Agree with all except offering or giving a lifetime tag to those whom report a game violation. Those lifetime permits and to hard to come by to give out like candy to those whom request for reporting a crime.

**Which best describes your position
regarding the black bear proposals?**

Neither agree nor disagree

**Do you have any additional comments
about the black bear proposals?**

They need to revisit using a barrel for baiting bears. It makes your bait site cleaner with bait being confined and less materials being moved across the landscape. Clean up of the bait sight is also easier
