Blind Spring CWMU Description

The Blind Spring CWMU is cut by Interstate Highway I-84 from east to west (**4600 to 5000 feet**). Hills rise up on both sides of the highway. On the north the Spring Hill reach a maximum of 5700 feet and on the south, **6500 feet**.

Inter-Mountain Basins **Big Sagebrush Shrubland** (48) is the land cover that dominates the Blind Springs Cooperative Wildlife Management Unit (CWMU). There are six large patches of **Agriculture** (114) on the Unit. Similarly, there are patches of Inter-Mountain Basins **Semi-Desert Grassland** scattered across the Unit. Patches of Great Basin **Pinyon-Juniper Woodland** are scattered throughout the Unit. There are also some areas of **Invasive Annual Grassland** (121). There is a **Developed, Medium - High Intensity** (112) patch, probably a highway, that divides this Unit almost in half.
