

# Let's draw a **PIKA!**

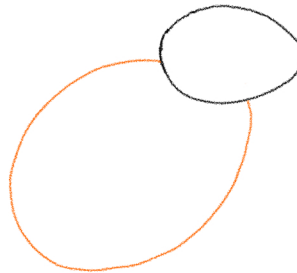

## STEP 1.

Starting with simple shapes, lightly draw an oval for the head.

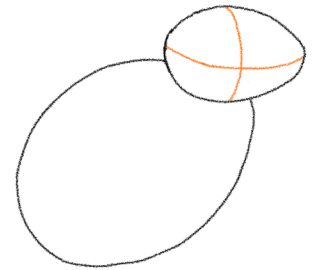

## STEP 2.

We'll erase the basic shapes later, so keep drawing lightly. Draw a larger oval for the body.

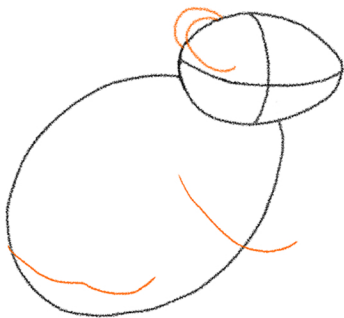

## STEP 3.

For perspective, lightly draw two curved lines on the head's shape.

## STEP 4.

Lightly draw for the ears and legs.

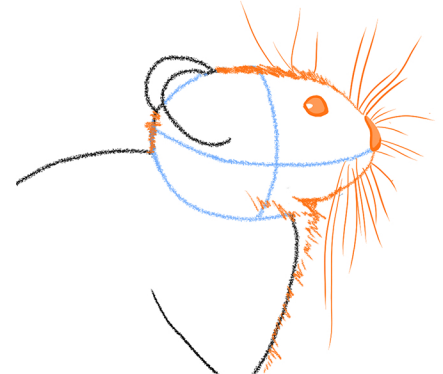

## STEP 5.

We won't be erasing anything from now on. Draw the shapes with outlines for the eye and nose.

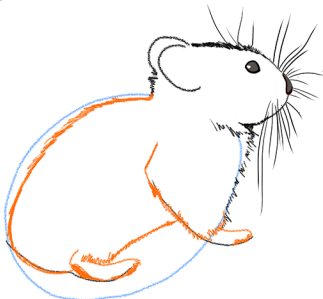

## STEP 6.

Draw the whiskers and start forming the shape of the pika's head. Erase where the lines are blue.

## STEP 7.

Using small strokes, sketch the shape of the body and legs. Erase where the line is blue.

## STEP 8.

Draw a floor and shade in small lines for fur.

Add some color and you're done!
