RE: 2013 Convention Permit Internal Audit – Rule R657-55

Dear Director Sheehan and Wildlife Board Members,

In accordance with Rule R657-55, an audit of the Convention Permit series program has been conducted. This audit is attached for your review and the results will be presented at the Utah Wildlife Board Meeting on August 22, 2013.

If you have any questions please contact me at 801-538-7437.

Sincerely,

Kenny Johnson
Administrative Services Chief
Utah Division of Wildlife Resources

Internal Audit of the 2013 Convention Permit Program

Dated August 5, 2013

Background

In accordance with R657-55, an annual audit of the convention permit program has been conducted in 2013. This audit was not performed using generally accepted auditing standards, but is an internal audit designed by the Utah Division of Wildlife Resources Administrative Services Section. Our report focuses on verifying that the drawing processes used were proper and fair for the permits that were issued. Additionally, we reviewed data regarding number of applicants, success rates and other efforts related to the drawing procedures issuance of the permits. New this year is the amendment accounting for the use of application funds on division approved projects, this is the first year of this requirement and is included in this audit.

Overview

The contract for the wildlife convention permits was awarded to the Mule Deer Foundation in 2010. The award was for a five year contract period that runs from 2012 through 2016. This report covers 2013, but does have some comparative data from the initial convention contract period of 2007 through 2012.

This report refers to the contract and event as the "Convention", but the Mule Deer Foundation and the co-sponsor, Sportsman for Fish and Wildlife, refer to this event as the "Hunt Expo."

Findings and Recommendations

This audit was performed by the Division of Wildlife Resources to provide information to the Utah Wildlife Board in order to help make an assessment of program compliance and other general information about the 2013 convention. The Division has closely monitored the processes of data collection and input, securing of personal and confidential data received, and performance of the actual computer drawing. Additionally, the Division has performed eligibility checks of successful applicants, and alternates that may have been assigned a permit. Applicants that do not have a valid hunting permit at the conclusion of the convention application period are removed from consideration for permits. This audit verified the amended use of application revenue, and that the Division did receive the related permit funds in full from each successful applicant before issuance of the permit.

Information gathered herein is intended to assist the Division and the Wildlife Board as they ensure contract compliance and allocate permits for the 2014 convention.

Review of handling of personal and sensitive data

The division considers the handling of personal data and information a top priority. Because the contractor conducting the draw is allowed to access DWR data for populating the hunt applications we have required adherence to protocols that will safeguard that data.

The contractor has two process components regarding sensitive and confidential data from the applicants. For these purposes sensitive and confidential data is defined as social security number, drivers license information, height, weight, gender, hair/eye color.

First, is the handling of sensitive information given by applicants at the convention to apply for the drawing. This is done on a paper form completed by the applicant. Once completed and submitted these forms are cross-shredded on site. No paper applications are retained by the contractor.

Second, is the handling of electronic data that is used in the electronic application process. Sensitive data is used by the application for customer lookups into the Division database. This data transmission is through a secure socket layer using 128 bit encryption. Once the customer information is retrieved no sensitive information is stored on the contractor database.

No compliance issues were identified by the Division.

Review of the drawing process

Division of Wildlife personnel go through an extensive review of the draw processes used by GraySky Technologies, the drawing contractor selected to conduct the convention permit drawing. The Division is represented by Greg Evans and Kirk Poulsen of the Utah Department of Technology Services, who reviewed the following:

- 1) The process of the draw is reviewed for its soundness.
- 2) The database structure is reviewed to make sure that a customer can't flood a certain hunt by making multiple entries for that hunt.
- 3) A review of the code is conducted to make sure that there is no chance that a seeded record could exist in the database prior to the assignment of random numbers. This is done to ensure that the result table is empty and no records can be inserted independently of the drawing code. This ensures that a record with an abnormally low random number isn't placed in the table thereby guaranteeing a permit to that record.
- 4) The code is reviewed to ensure that all records are treated equally in the process that assigns random numbers to the entries. Care is given to make sure that when the random numbers are being assigned no records are identified to get a number other than a random number which is generated by the system. In 2012 the Division requested a change in the handling of duplicate random numbers. Although the likelihood of two people being assigned the same random number is extremely remote it was felt that if a duplication occurred it was best to add one to the second duplicate number rather than reassign a new random number, thereby

maintaining as closely as possible that parties position in the draw. This process occurred again in 2013.

- 5) The code is then reviewed for inserts that may occur after the drawing to make sure that a winning record is not placed in the result table after the assignment of random numbers takes place.

This was an exhaustive and thorough review, no compliance issues were identified by the Division.

Conducting the Draw

The actual drawing is conducted at Division Offices in Salt Lake City. Attendees that are present at the drawing are required to sign a login sheet as shown on Attachment 2. The public are invited to attend the drawing and at least one individual that was unrelated to the Division or contractors did attend. The draw is then conducted by GraySky Technologies whereupon the following occurs:

- 1) An impromptu passphrase “Greg loves Hillside” was given to the GraySky representative and was witnessed written into the code prior to beginning the draw process. Later this same passphrase was verified to display on the result page to ensure the code reviewed by the Division was the actual code used during the draw.
- 2) The draw was then run assigning random numbers to applicants hunt choice entries and then sorted in descending order.
- 3) The results of the draw were printed and immediately given to a Division representative to ensure that there were no edits to the results table.
- 4) This list was then given to the Division Law Enforcement and Licensing sections to validate eligibility before any results were posted.
- 5) Any applicants selected through the draw that receive multiple permits for the same species are contacted by the Division and asked to select their preferred hunt choice. The unclaimed permits are issued to alternates.

The passphrase was witnessed being added to the code, and the same passphrase verified at the conclusion of the draw. Results were instantly printed and the process to validate began immediately.

No compliance issues were identified by the Division.

Note about Random Drawings

In any truly random drawing there always seems to be a few “lucky” individuals. Statistically when randomness is discussed it is always possible to view the final result and pick out certain trends, especially with few historical data sets to observe. The key to these trends is that they cannot be predicted prior to the event or drawing. This is the very essence of randomness. Random is not an assurance that an event will be spread evenly across a population, or distributed equally among participants. There were not any abnormalities observed in the 2013 drawing, whether random or otherwise.

Draw Related Information

The Division reviewed data from the convention regarding application numbers and success rates of the convention. Applicant numbers verified that at least 10,000 individual were attending the convention each year as was established as a basis for applying for the permit series. The reported number of attendees at the 2013 convention was approximately 30,000 with more than 10,000 being formally registered for activities.

No compliance issues were identified by the Division.

Applicant data for years 2007-2013 is as follows:

Year	Applicants	Applications	Gross Revenue @ \$5 per App	Average Applications Per Applicant
2007	10,527	205,462	\$ 1,027,310	19.52
2008	8,745	138,988	\$ 694,940	16.89
2009	9,927	169,123	\$ 845,970	17.04
2010	9,700	165,866	\$ 847,285	17.10
2011	12,154	196,360	\$ 981,800	16.16
2012	13,388	207,870	\$ 1,039,350	15.53
2013	14,043	197,312	\$986,560	14.05

Informational Applicant Demographics by State

State	Applicants	State	Applicants
Alabama	1	New Jersey	1
Arkansas	1	New Mexico	7
Arizona	39	New York	2
Arkansas	18	North Dakota	3
California	110	Ohio	1
Colorado	126	Oklahoma	3
Connecticut	1	Oregon	23
Florida	1	Pennsylvania	2
Georgia	5	South Carolina	3
Idaho	204	South Dakota	9
Illinois	3	Texas	13
Massachusetts	1	Utah	13,040
Maryland	1	Washington	32
Michigan	2	Washington, D.C.	2
Minnesota	4	Wisconsin	2
Missouri	3	Wyoming	205
Montana	70	Non-USA	8
Nevada	91	VA	1
Nebraska	5	Total	14303

Resident versus Nonresident Success

Data was reviewed comparing the number of resident applicants versus the nonresident applicants. The detailed data is shown on Attachment 6, but to summarize, in the 2013 application period 87.7% of the applications for the 200 permit series were residents and 88% of the permits drawn were awarded to residents, and 12% to nonresidents. The numbers are similar for the cumulative six years of the convention with 83.3% residents applying and 84.8% of successful applicants being residents.

Other data related to draw success by hunt number and numbers of permits issued by species are attached to this report. These findings are consistent and in line with previous comparisons.

Historical Comparison of Convention Permit Applications and Success Rates

	Average 2007-2012	2013
Total Resident Applications	152,571	173,192
Total Nonresident Applications	29,131	24,120
	181,702	197,312
Percent of Resident Applications	83.97%	87.78%
Percent of Nonresident Applications	16.03%	12.22%
	100%	100%
Permits Issued to Residents	171	176
Permits Issued to Nonresidents	29	24
	200	200
Percent of Permits Resident	85.64%	88.00%
Percent of Permits Nonresident	14.36%	12.00%
	100%	100%

License Sales

The Division requires that anyone applying for a permit at the Hunt Expo must have a valid hunting or combination license at the time of application. To ensure this compliance the programming will not allow applicants to apply without a valid license in the system. For the Hunt Expo in 2013 there were 1,036 combination and hunting licenses sold on site. The resulting license revenue generated was \$40,120.00. The entirety of these funds are owed to the division with the same reporting stipulations as other third party license vendors; the invoice was paid in full promptly.

There were no compliance issues with license sales, reporting, or payment.

Application Revenue Amendment

In October of 2012 the Division of Wildlife, Mule Deer Foundation and their partner Sportsmen for Fish and Wildlife, amended the contract to more clearly account for application revenue. It was agreed that the party awarded the Convention contract retain the same draw administration fee that is provided to the division's current big game draw contractor. The approved application fee based on the 2012 big game drawing was \$3.12 per application. The amendment provides for this portion to be used for administrative costs incurred by the Convention contractor. The remaining \$1.88 shall be used for division approved projects within 2 years of receipt.

In 2013 the Convention draw processed 197,312 applications, generating \$986,560 in gross application revenue. The retained portion allowable under the amendment for administrative expenses was \$615,613.44; the remaining \$1.88 per application dedicated to division approved projects totaled \$370,946.56. These fund balances were clearly identifiable, verified, and held separate from other funds in federally insured bank accounts per the amendment. No compliance issues were identified by the Division.

Of note, this being the first of 2 years to expend project revenue, the progress on beneficial projects has begun in earnest. The division has approved 3 projects, one of which was complete awaiting invoices, and 3 additional projects are in the planning stages. More detail can be found in attachment 5.

Draw Probability Statistics

The Convention offers a limited number of permits annually and attracts exponentially more applicants who compete for them through the draw process. It should be noted that this dynamic implies a statistically low probability of obtaining a permit. While the draw odds are not a controllable variable or concern of the division, we want to acknowledge the expediency with which this information is made available to the public. The convention contractor publishes these statistics annually on their website prior to the next year application period; more detail can be found in this review in attachment 6.

Conclusions

This audit was expanded slightly from last year. It retains findings related to processes involved in the handling of applications and data. We believe that with the procedures set in place by MDF, SFW, and GraySky, that the data was properly secured at the convention, and the drawing was conducted in a fair, transparent, and consistent manner.

New for 2013 is the amendment authorizing the convention contractor to retain a portion of application revenue for administrative purposes, and to expend a portion on specific division approved projects. These funds were verified and accounted for in the prescribed manner, kept separate from other account funds in federally insured bank accounts, and utilized to plan for and complete division approved projects.

The Division will perform another audit of the 2014 convention and will provide a report including any findings to the Utah Wildlife Board.

We would like to thank the Mule Deer Foundation and Sportsmen for Fish and Wildlife for their time, prompt response and their willingness to provide the information requested for the preparation of the audit. Their information was clearly presented and very much appreciated. If there are questions regarding this report, please contact me at 801-538-7437.

R657-55-1. Purpose and Authority.

(1) Under the authority of Sections 23-14-18 and 23-14-19 of the Utah Code, this rule provides the standards and requirements for issuing wildlife convention permits.

(2) Wildlife convention permits are authorized by the Wildlife Board and issued by the division to a qualified conservation organization for purposes of generating revenue to fund wildlife conservation activities and attracting a regional or national wildlife convention to Utah.

(3) The selected conservation organization will conduct a random drawing at a convention held in Utah to distribute the opportunity to receive wildlife convention permits.

(4) This rule is intended as authorization to issue one series of wildlife convention permits per year beginning in 2012 through 2016 to one qualified conservation organization.

R657-55-2. Definitions.

(1) Terms used in this rule are defined in Section 23-13-2.

(2) In addition:

(a) "Conservation organization" means a nonprofit chartered institution, corporation, foundation, or association founded for the purpose of promoting wildlife conservation.

(b) "Special nonresident convention permit" means one wildlife convention permit for each once-in-a-lifetime species that is only available to a nonresident hunter legally eligible to hunt in Utah.

(c) "Wildlife Convention" means a multi-day event held within the state of Utah that is sponsored by multiple wildlife conservation organizations as their national or regional convention or event that is open to the general public and designed to draw nationwide attendance of more than 10,000 individuals. The wildlife

convention may include wildlife conservation fund raising activities, outdoor exhibits, retail marketing of outdoor products and services, public awareness programs, and other similar activities.

(d) "Wildlife Convention Audit" means an annual review by the division of the conservation organization's processes used to handle applications for convention permits and conduct the drawing, and the protocols associated with collecting and using client data.

(e) "Wildlife Convention Permit" means a permit which:

(i) is authorized by the Wildlife Board to be issued to successful applicants through a drawing or random selection process conducted at a Utah wildlife convention; and

(ii) allows the permittee to hunt for the designated species on the designated unit during the respective season for each species as authorized by the Wildlife Board.

(f) "Wildlife Convention Permit series" means a single package of permits to be determined by the Wildlife Board for:

(i) deer;

(ii) elk;

(iii) pronghorn;

(iv) moose;

(v) bison;

(vi) rocky mountain goat;

(vii) desert bighorn sheep;

(viii) rocky mountain bighorn sheep;

(ix) wild turkey;

(x) cougar; or

(xi) black bear.

(g) "Secured Opportunity" means the opportunity to participate in a specified hunt that is secured by an eligible applicant through the drawing process.

(h) "Successful Applicant" means an individual selected to receive a wildlife convention permit through the drawing process.

R657-55-3. Wildlife Convention Permit Allocation.

(1) The Wildlife Board may allocate wildlife convention permits by May 1 of the year preceding the wildlife convention.

(2) Wildlife convention permits shall be issued as a single series to one conservation organization.

(3) The number of wildlife convention permits authorized by the Wildlife Board shall be based on:

(a) the species population trend, size, and distribution to protect the long-term health of the population;

(b) the hunting and viewing opportunity for the general public, both short and long term; and

(c) a percentage of the permits available to nonresidents in the annual big game drawings matched by a proportionate number of resident permits.

(4) Wildlife convention permits, including special nonresident convention permits, shall not exceed 200 total permits.

(5) Wildlife convention permits designated for the convention each year shall be deducted from the number of public drawing permits.

R657-55-4. Obtaining Authority to Distribute Wildlife Convention Permit Series.

(1) The wildlife convention permit series is issued for a period of five years as provided in Section R657-55-1(4).

(2) The wildlife convention permit series is available to eligible conservation organizations for distribution through a drawing or other random selection process held at a wildlife convention in Utah open to the public.

(3) Conservation organizations may apply for the wildlife convention permit series by sending an application to the division between August 1 and September 1, 2010.

(4) Each application must include:

(a) the name, address and telephone number of the conservation organization;

(b) a description of the conservation organization's mission statement;

(c) the name of the president or other individual responsible for the administrative operations of the conservation organization; and

(d) a detailed business plan describing how the wildlife convention will take place and how the wildlife

convention permit drawing procedures will be carried out.

(5) An incomplete or incorrect application may be rejected.

(6) The division shall recommend to the Wildlife Board which conservation organization may receive the wildlife convention permit series based on:

(a) the business plan for the convention and drawing procedures contained in the application; and

(b) the conservation organization's, including its constituent entities, ability, including past performance in marketing conservation permits under Rule R657-41, to effectively plan and complete the wildlife convention.

(7) The Wildlife Board shall make the final assignment of the wildlife convention permit series based on the:

(a) division's recommendation;

(b) applicant conservation organization's commitment to use convention permit handling fee revenue to benefit protected wildlife in Utah;

(c) historical contribution of the applicant conservation organization, including its constituent entities, to the conservation of wildlife in Utah; and

(d) previous performance of the applicant conservation organization, including its constituent entities.

(8) The conservation organization receiving the wildlife convention permit series must:

(a) require each wildlife convention permit applicant to verify they possess a current Utah hunting or combination license before allowing them to apply for a convention permit;

(b) select successful applicants for the wildlife convention permits by drawing or other random selection process in accordance with law, provisions of this rule, proclamation, and order of the Wildlife Board;

(c) allow applicants to apply for the wildlife convention permits without purchasing admission to the wildlife convention;

(d) notify the division of the successful applicant of each wildlife convention permit within 10 days of the applicant's selection;

(e) maintain records demonstrating that the drawing was conducted fairly; and

(f) submit to an annual wildlife convention audit by a division-appointed auditor.

(9) The division shall issue the appropriate wildlife convention permit to the designated successful applicant after:

(a) completion of the random selection process;

(b) verification of the recipient being found eligible for the permit; and

(c) payment of the appropriate permit fee is received by the division.

(10) The division and the conservation organization receiving the wildlife convention permit series shall enter into a contract, including the provisions outlined in this rule.

(11) If the conservation organization awarded the wildlife convention permit series withdraws before the end of the 5 year period, any remaining co-participants with the conservation organization may be given an opportunity to assume the contract and to distribute the convention permit series consistent with the contract and this rule for the remaining years left in the 5 year period, provided:

(a) The original contracted conservation organization submits a certified letter to the division identifying that it will no longer be participating in the convention.

(b) The partner or successor conservation organization files an application with the division as provided in subsection 4 for the remaining period.

(c) The successor conservation organization submits its application request at least 60 days prior to the next scheduled convention so that the wildlife board can evaluate the request under the criteria in this section.

(d) The Wildlife Board authorizes the successor conservation organization to assume the contract and complete the balance of the 5 year convention permit period.

(12) The division may suspend or terminate the conservation organization's authority to distribute wildlife convention permits at any time during the five year award term for:

(a) violating any of the requirements set forth in this rule or the contract; or

(b) failing to bring or organize a wildlife convention in Utah, as described in the business plan under R657-55-4(4)(d), in any given year.

R657-55-5. Hunter Application Procedures.

(1) Any hunter legally eligible to hunt in Utah may apply for a wildlife convention permit except that only a nonresident of Utah may apply for a special nonresident convention permit.

(2) Any handling fee assessed by the conservation organization to process applications shall not exceed \$5 per application submitted at the convention.

(3)(a) Except as provided in Subsection (3)(b), applicants must validate their application in person at the

wildlife convention to be eligible to participate in the random drawing process, for wildlife convention permits, and no person may submit an application in behalf of another.

(b) An applicant that is a member of the United States Armed Forces and unable to attend the wildlife convention as a result of being deployed or mobilized in the interest of national defense or a national emergency is not required to validate their application in person; provided convention administrators are furnished a copy of the written deployment or mobilization orders and the orders identify:

- (i) the branch of the United States Armed forces from which the applicant is deployed or mobilized;
- (ii) the location where the applicant is deployed or mobilized;
- (iii) the date the applicant is required to report to duty; and
- (iv) the nature and length of the applicant's deployment or mobilization.

(c) The conservation organization shall maintain a record, including copies of military orders, of all applicants that are not required to validate their applications in person pursuant to Subsection (3)(b), and submit to a Division audit of these records as part of its annual audit under R657-55-4(8)(f).

(4) Applicants may apply for each individual hunt for which they are eligible.

(5) Applicants may apply only once for each hunt, regardless of the number of permits for that hunt.

(6) Applicants must submit an application for each desired hunt.

(7) Applicants must possess a current Utah hunting or combination license in order to apply for a permit.

(8) The conservation organization shall advertise, accept, and process applications for wildlife convention permits and conduct the drawing in compliance with this rule and all other applicable laws.

R657-55-6. Drawing Procedures.

(1) A random drawing or selection process must be conducted for each wildlife convention permit.

(2) No preference or bonus points shall be awarded in the drawings.

(3) Waiting periods do not apply, except any person who obtains a wildlife convention permit for a once-in-a-lifetime species is subject to the once-in-a-lifetime restrictions applicable to obtaining a subsequent permit for the same species through a division application and drawing process, as provided in Rule R657-5 and the proclamation of the Wildlife Board for taking big game.

(4) No predetermined quotas or restrictions shall be imposed in the application or selection process for wildlife convention permits between resident and nonresident applicants, except that special nonresident convention permits may only be awarded to a nonresident of Utah.

(5) Drawings will be conducted within five days of the close of the convention.

(6) Applicants do not have to be present at the drawing to be awarded a wildlife convention permit.

(7) The conservation organization shall identify all eligible alternates for each wildlife convention permit and provide the division with a finalized list. This list will be maintained by the conservation organization until all permits are issued.

(8) The division shall contact successful applicants by phone or mail, and the conservation organization shall post the name of all successful applicants on a designated website.

R657-55-7. Issuance of Permits.

(1) The division shall provide a wildlife convention permit to the successful applicant as designated by the conservation organization.

(2) The division must provide a wildlife convention permit to each successful applicant, except as otherwise provided in this rule.

(3) The division shall provide each successful applicant a letter indicating the permit secured in the drawing, the appropriate fee owed the division, and the date the fee is due.

(4) Successful applicants must provide the permit fee payment in full to the division and will be issued the designated wildlife convention permit upon receipt of the appropriate permit fee and providing proof they possess a current Utah hunting or combination license.

(5) Residents will pay resident permit fees and nonresidents will pay nonresident permit fees.

(6) Applicants are eligible to obtain only one permit per species, except as provided in Rule R657-5, but no restrictions apply on obtaining permits for multiple species.

(7) In an applicant is selected for more than one convention permit for the same species, the Division will contact the applicant to determine which permit the applicant selects.

(a) The applicant must select the permit of choice within five days of receiving notification.

(b) If the Division is unable to contact the applicant within 5 days, the Division will issue to the applicant the permit with the most difficult drawings odds based on drawing results from the Division's Big Game drawing for the preceding year.

(c) Permits not issued to the applicant will go to the next person on the alternate drawing list for that permit.

(8) Any successful applicant who fails to satisfy the following requirements will be ineligible to receive the wildlife convention permit and the next drawing alternate for that permit will be selected.

(a) The applicant fails to return the appropriate permit fee in full by the date provided in Subsection (3) or

(b) The applicant did not possess a valid Utah hunting or combination license at the time the convention permit application was submitted and the permit received.

R657-55-8. Surrender or Transfer of Wildlife Convention Permits.

(1)(a) If a person selected to receive a wildlife convention permit is also successful in obtaining a Utah limited entry permit for the same species in the same year or obtaining a general permit for a male animal of the same species in the same year, that person cannot possess both permits and must select the permit of choice.

(b) In the event the secured opportunity is willingly surrendered before the permit is issued, the next eligible applicant on the alternate drawing list will be selected to receive the secured opportunity.

(c) In the event the wildlife convention permit is surrendered, the next eligible applicant on the alternate drawing list for that permit will be selected to receive the permit, and the permit fee may be refunded, as provided in Sections 23-19-38, 23-19-38.2, and R657-42-5.

(2) A person selected by a conservation organization to receive a wildlife convention permit, may not sell or transfer the permit, or any rights thereunder to another person in accordance with Section 23-19-1.

(3) If a person is successful in obtaining a wildlife convention permit but is legally ineligible to hunt in Utah the next eligible applicant on the alternate drawing list for that permit will be selected to receive the permit.

R657-55-9. Using a Wildlife Convention Permit.

(1) A wildlife convention permit allows the recipient to:

(a) take only the species for which the permit is issued;

(b) take only the species and sex printed on the permit; and

(c) take the species only in the area and during the season specified on the permit.

(2) The recipient of a wildlife convention permit is subject to all of the provisions of Title 23, Wildlife Resources Code, and the rules and proclamations of the Wildlife Board for taking and pursuing wildlife.

Attachment 2

On Tuesday February 26th 2013 the electronic random drawing for the 200 convention permits will take place at the Utah Division of Wildlife Resources located at 1594 West North Temple, Salt Lake City, Utah. These permits were awarded to the Western Hunting & Conservation Expo by the Utah Wildlife Board.

The following are witnesses of the drawing and were present during the entire process. Once the winners have been drawn all names will be given Law Enforcement for the DWR. The names will be checked for any compact violations and will be deemed eligible by the DWR and notified by mail.

Start Time 10:24 am

End Time 10:34 am.
