

GRAZING BID APPLICATION AND PERMIT

The undersigned applicant hereby applies to the Utah State Division of Wildlife Resources for a grazing permit, and hereby submits a bid in the amount of ____/AUM/Year (\$3.50/AUM minimum) for grazing on the [Steele Ranch Wildlife Management Area, located east of Mona in Juab County](#). The bid is for 65 AUMs to be utilized during the grazing period beginning [May 15](#) and ending [June 30](#), and expiring in the year [2014](#). The successful bidder will pay the DWR for 65 AUM's at the bid price.

In addition to the bid price, the Division will consider the relevant factors of range management in determining which, if any, bid should be accepted. The Division may reject any or all bids.

If this bid is accepted by the Division, then in consideration of the payment by the applicant of the bid price in full, the Division will execute and issue to the applicant this permit authorizing the applicant to graze livestock in the numbers, kinds and dates as specified above, and subject to the following stipulations:

- A. The permittee will be required to haul water and provide troughs for livestock. Water sites may need to be moved periodically to insure proper grazing distribution.
- B. The permittee will be required to perform routine fence maintenance on the unit boundary fence and cross fences.
- C. This permit is non-assignable and non-transferable.
- D. No permittee will be allowed to put livestock on Division land unless payment has been received. Payment is due on May 1st, each year.
- E. Grazing payments are not refundable for operators that choose not to utilize their grazing permit. (Refunds will be made if the Division adjusts the stocking rate during the grazing period.)
- F. Livestock found on Division lands outside the permitted grazing period, shall be declared in trespass and action shall be taken.
- G. The permittee has the right to use the property only for the purpose of livestock grazing. The Division reserves the right to determine the number and kinds of livestock, and season of use.
- H. The Division may terminate the permit in whole or part, after 60 days written notice, for any reason.
- I. Failure to comply with provisions of the grazing permit or abuse of Division properties will cause the permit to be canceled immediately after written notice to the holder and shall cause the Division to recover any damages caused by the conduct of the operator.
- J. The permittee is responsible for proper grazing and good conservation practices to safeguard and improve water and surface resources and to comply with the Division's

requests respecting conservation practices:

- a. The Division may require the permittee to provide for herding, if the Division believes it is necessary to effect proper livestock distribution.
 - b. Salting/mineral block placement shall be at least 100 yards away from wetlands and sensitive areas.
 - c. No supplemental forage feeds such as hay or silage may be fed or distributed on permitted property. Operators will use only weed free feed for horses being fed while on the management area.
 - d. Any other requests which may be considered advisable, is the sole discretion of the Division, from a range management standpoint.
- K. The permittee may not initiate or establish any water right on the permitted property except in the name of the Division.
- L. The permittee shall not obstruct the right of the public to access to the permitted property for the purpose of hunting, trapping and fishing (23-12-4 UCA).

I, the undersigned applicant, submit this bid subject to all of the terms and conditions set forth herein, and I agree that if my bid is accepted I will pay the bid price in full prior to the Divisions execution of my bid and issuance to me of this permit.

Dated this _____ day of _____ 2014_____.
