

**NOTICE OF EMERGENCY CHANGE
TO THE 2024 AND 2025 UTAH FISHING GUIDEBOOKS
OF THE WILDLIFE BOARD FOR THE TAKING
OF FISH AND CRAYFISH**

I, Justin Shirley, by authority granted in Section 23A-1-201 of the Wildlife Resources Code of Utah declare an emergency amendment to the 2024 and 2025 Utah Fishing Guidebooks. The following has been amended:

Fall Creek and its tributaries, including Phinney and Anderson lakes (Duchesne County):

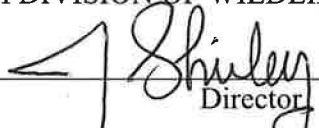

- 16 trout, any species

This change is effective May 13, 2024 and will remain in effect until August 31, 2025.

The Division will be treating Fall Creek and its tributaries, including Phinney and Anderson lakes, with rotenone in summer 2025. This will be done to remove non-native fish to assist with cutthroat trout restoration efforts. This emergency change will allow the public to harvest more fish from the drainage in advance of the treatment.

All other rules established in the 2024 and 2025 Utah Fishing Guidebooks remain in effect.
