TROPIC RESERVOIR (Garfield County)

These regulation changes are prompted by on-going drought conditions. The waters identified by these changes are expected to experience low water levels this year and fish loss is expected due to adverse conditions. The intention of these regulation changes are to liberalize harvest and provide anglers the opportunity to harvest additional fish prior to fish loss, if loss occurs.

These changes are effective immediately and will remain in effect until October 31, 2021. All other rules, established in the 2021 Utah Fishing Guidebook remain in effect.
