Director

“Finding out how many there are left is the least of the purposes of game census.

Measuring the response of game populations to changes – deliberate or accidental – in their environment is the big purpose.

Continuous census is the yardstick of success or failure in conservation.”

Aldo Leopold, 1932

TABLE OF CONTENTS

Definitions	1
Introduction	2
Methods	3
Results	3
American crow	8
Band-tailed pigeon	11
California quail	17
Chukar partridge	23
Cottontail rabbit	31
Dove (mourning and white-winged)	40
Forest grouse (dusky and ruffed)	47
Gambel's quail.....	55
Gray (Hungarian) partridge.....	63
Ring-necked pheasant	69
Sage-grouse (greater and Gunnison)	75
Sandhill crane	94
Sharp-tailed grouse	99
Snowshoe hare	108
White-tailed ptarmigan	114
Wild turkey	119
Appendix A: Weather conditions	134
Appendix B: Hunter-harvest survey response summary	139
Appendix C: License sales	142
Appendix D: Permit numbers, season dates, bag and possession limits, and areas open	144

DEFINITIONS

General upland game: Upland game species that can be hunted with a basic hunting or combination license and do not require any additional, species-specific permit. Upland game species in this category include American crow, chukar partridge, cottontail rabbit (desert and mountain), doves (mourning and white-winged), forest grouse (dusky and ruffed), gray (Hungarian) partridge, quail (Gambel's and California), ring-necked pheasant, and snowshoe hare.

Special permit upland game: Upland game species for which an additional, species-specific hunting permit is required, in addition to a basic hunting or combination license. Species in this category include band-tailed pigeon, greater sage-grouse, sandhill crane, sharp-tailed grouse, white-tailed ptarmigan, and wild turkey.

Year: This annual report covers the state fiscal year period July 1, 2017 through June 30, 2018 (hereafter referred to as 2017–18). All upland game surveys, inventories, and hunting seasons within this time frame are presented here. This report presents all data from the hunting seasons that were outlined in the 2017–18 Upland Game and Turkey Guidebook. Year designations in specific tables refer to the actual time frame of that survey/hunting season. For example, hunting seasons that occurred in the fall or the spring will have single year designations (e.g., 2017 or 2018, respectively), while fall/winter seasons will have an overlapping year designation (e.g., 2017–18).

SAGE-GROUSE AND SHARP-TAILED GROUSE DEFINITIONS

Lek: Sage-grouse or sharp-tailed grouse strutting ground.

Strutting grounds visited: Total number of known sage-grouse or sharp-tailed grouse strutting grounds (leks) that were visited during spring counts, regardless of whether or not birds were actually present.

Strutting grounds occupied: Number of sage-grouse or sharp-tailed grouse strutting grounds (leks) that were active, i.e., grounds where male birds were present during spring counts.

Average males / occupied ground: Average number of male sage-grouse or sharp-tailed grouse that were counted at occupied or “active” grounds.

INTRODUCTION

The objective of Utah's upland game management program is to provide recreational hunting opportunity for sportsmen within the limits of the annual harvestable surplus for each species. It is based on the knowledge that populations of upland game experience relatively high rates of annual turnover. High reproductive rates are naturally compensated for by high rates of mortality, whether hunting is allowed or not. Annual surveys are conducted to measure the production, trend, and harvest of each upland game population.

This is the 44th Annual Upland Game Report. It is an annual performance report of information compiled during inventory and harvest surveys conducted under Federal Aid Project W-65-M, segments 65 & 66. Information contained herein was collected and compiled by biologists, conservation officers, wildlife managers, and upland game management staff of the Utah Division of Wildlife Resources. This report covers the 2017–18 upland game hunting seasons, 2017 fall turkey season, 2018 spring turkey seasons, as well as inventory and trend surveys that took place from July 2017 through June 2018.

This report serves as a handbook of inventory and harvest data. It is designed primarily for the use of those concerned with the management of upland game. A separate section is devoted to each species of upland game in Utah. Data are presented primarily in tabular form with limited figures.

The upland game harvest survey is designed to monitor statewide harvest trends from year to year. The more extensively a species is hunted, the more accurately the survey measures the trend data. To improve the accuracy of the indices for species that receive very little hunting pressure, have low densities, and/or a limited distribution, a unique survey is used. Each species of that type must be hunted using a special permit so that hunter information can be obtained for survey purposes. Species falling into this category include band-tailed pigeon, greater sage-grouse, sandhill crane, sharp-tailed grouse, white-tailed ptarmigan, and wild turkey.

The annual harvest report is sometimes criticized for being inaccurate and without value. However, report users must recognize that the accuracy of the survey is based on 4 basic assumptions: (1) the survey sample is completely random; (2) respondents clearly understood the question; (3) respondents recorded or remembered data accurately, and did not guess or lie; and (4) respondents correctly identified the species hunted. If those assumptions are not met, projections or harvest by county may be over-estimated due to non-response or memory biases. Extreme caution should be used in the interpretation of estimated harvest and hunters for specific species in specific counties. Rather, the long-term trend in these indices should be used in managing the populations. Presently, the Upland Game Annual Report contains the best data available and therefore constitutes the basic facts of upland game management. Although this report has its limitations, the trend data is valuable in making professional judgments regarding upland game populations and harvest.

The annual report is used in wildlife planning. It can be used to establish relative importance among species and for developing new resources through transplants or habitat developments. It points out areas of needed research by indicating problems and possible causes. It documents

population trends and it combines all this inventory information into one easily accessible publication. Thus it is used extensively by federal land management agencies in environmental impact statements and management plans. It will become increasingly more important in developing management plans and assessing impacts on wildlife habitat.

METHODS

General upland game harvest statistics were obtained from a random sample of licensed hunters using an Internet-based survey, followed by a telephone survey to adjust for non-response bias. The sample was stratified by license type and then the data were projected by the total number of license holders within each stratum. Hunters with permits for band-tailed pigeon, greater sage-grouse, sandhill crane, sharp-tailed grouse, white-tailed ptarmigan, and wild turkey were surveyed through a separate mixed-mode web/telephone survey.

In Utah, hunters were required to purchase either a combination license or a basic hunting license before purchasing a species-specific hunting permit or before applying in any drawings. Therefore, only a fraction of hunters who purchased a license actually hunted upland game, and a much larger sample of license holders was required for the upland game harvest survey.

Changes and Corrections

In 2016, modifications were made to the online harvest survey to help improve hunter's identification of rare species such as band-tailed pigeon and white-winged dove. Images with identifying characteristics were added to the survey, and additional follow-up was made with hunters who indicated that they harvested band-tailed pigeons. Decrease in harvest for these species in 2015 was most likely due to these changes and not an indication of a true decline.

RESULTS

The percent of Utah residents who had any type of resident license valid for the 2017–18 upland game hunting season was 8.3% (U.S. Census Bureau's 2017 Utah population estimate: 3,101,833). 256,736 resident and nonresident hunting and combination licenses were valid for the 2017–18 Utah upland game hunting seasons. 85,983 people were randomly selected for participation in the general upland game harvest survey, representing a 33.5% sample. These hunters were sent an email inviting them to participate in the Internet-based harvest survey. Of those hunters contacted, 12,855 (15.0%) submitted an online harvest survey. A random sample of 6,429 hunters who did not respond to the Internet-based survey were contacted by telephone for the non-response bias correction survey. Survey information for turkey and other upland game species are presented in the table on the following page.

A total of 39,371 hunters went afield in 2017–18 in pursuit of various general upland game species. 11,262 hunters hunted wild turkey in spring 2018 and 713 hunters hunted wild turkey in fall 2017. Detailed information describing the upland game harvest can be found in the following tables. 2017–18 license and permit fees and number of licenses and permits sold by type are shown in Appendix C. Regulations for the 2017–18 upland game and 2018 wild turkey hunting seasons are shown in Appendix D.

Upland game survey methods and response rates, 2017–18.

*No data from 1983 to 1987.

Statewide band-tailed pigeon harvest statistics, Utah 1970–2017 (continued).

Year	Total hunters	Total harvest*	Hunter-days afield	Pigeons / hunter-day	Pigeons / hunter
2014	44	24	89	0.3	0.5
2015	44	0	173	0.0	0.0
2016	16	0	24	0.0	0.0
2017	31	0	80	0.0	0.0
Average (1970–2016)	52	85	143	0.7	1.9
% change from previous year	94	0	233	0	0
% change from average	-40	-100	-44	-100	-100

*Decrease in harvest beginning in 2015 was likely due to changes in survey methodology to help hunters better identify rare upland game species. Harvest in previous years was likely biased high due to misidentification.

CALIFORNIA QUAIL

Statewide trends of California quail harvest statistics, Utah 1962–2017.

*Includes Gambel's quail hunters and days-afield.

Statewide trends of California quail hunter success, Utah 1962–2017.

*Includes Gambel's quail hunters and days-afield.

2017	62933	65.5	1075	1.1	28757	29.9	3325	3.5	96090
Average (2006–2016)	83593	70.6	3154	2.8	32491	23.9	3436	2.7	122674
% change from previous year	-47	5	-59	-18	-50	0	-73	-46	-50
% change from average	-33	-8	-193	-147	-13	20	-3	21	-28

*Decrease in harvest was likely due to changes in survey methodology to help hunters better identify rare upland game species. Harvest in previous years was likely biased high due to misidentification.

FOREST GROUSE (Dusky and Ruffed)

RING-NECKED PHEASANT

Statewide trends of ring-necked pheasant harvest statistics, Utah 1948–2017.

*No data available for hunter-days afield in 1948.

**Starting in 2001, harvest data are likely biased high due to hunters reporting harvest from commercial hunting areas.

Statewide trends of ring-necked pheasant hunter success, Utah 1948–2017.

*No data available for hunter-days afield in 1948.

**Starting in 2001, harvest data are likely biased high due to hunters reporting harvest from commercial hunting areas.

*No longer available for purchase.

APPENDIX D

**PERMIT NUMBERS, SEASON DATES,
BAG AND POSSESSION LIMITS, AND AREAS OPEN**

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2017–18 (2017–18 Utah Upland Game & Turkey Guidebook).

American crow

- Season dates: September 1–September 30, 2017 and December 1, 2017–February 28, 2018
- Areas open: Statewide.
- Bag limit: 10
- Possession limit: 30

Band-tailed pigeon

- Season dates: September 1–September 14, 2017
- Falconry season dates: September 1–December 16, 2017
- Areas open: Statewide.
- Bag limit: 2
- Possession limit: 6
- Notes: Requires a free permit in addition to your hunting license.

California and Gambel's quail

- Season dates: November 4–December 31, 2017
- Youth hunt: October 14–October 16, 2017
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15
- Notes: Limits singly or in combination.

Chukar partridge

- Season dates: September 30, 2017–February 15, 2018
- Youth hunt: September 23–September 25, 2017
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15
- Notes: Antelope Island is closed to all upland game hunting.

Collared-dove (Eurasian and African)

- Season dates: Year round
- Areas open: Statewide.
- Bag limit: No limit
- Possession limit: No limit
- Notes: Collared-doves may be hunted without a license, year round. Collared-doves taken during the dove season will not count as part of the combined dove bag and possession limits if they remain unplucked during transport.

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2017–18 (continued).

Cottontail rabbit (desert and mountain)

- Season dates: September 1, 2017–February 28, 2018
- Areas open: Statewide.
- Bag limit: 10
- Possession limit: 30

Dusky and ruffed grouse

- Season dates: September 1–December 31, 2017
- Areas open: Statewide.
- Bag limit: 4
- Possession limit: 12
- Notes: Limits singly or in combination.

Gray (Hungarian) partridge

- Season dates: September 30, 2017–February 15, 2018
- Youth hunt: September 23–September 25, 2017
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15

Greater sage-grouse

- Season dates: September 30–October 22, 2017
- Areas open: Diamond, Blue Mountain (SG1000); Parker Mountain (SG1001); Rich County (SG1002) and West Box Elder County (SG1003)
- Possession limit: Only 2 birds of either sex may be taken during the entire season.
- Notes: Greater sage-grouse permit required.
-

Jackrabbit (black-tailed and white-tailed)

- Season dates: Year round
- Areas open: Statewide.
- Bag limit: No limit
- Possession limit: No limit
- Notes: May be hunted without a license.

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2017–18 (continued).

Mourning dove and white-winged dove

- Season dates: September 1–October 30, 2017
- Falconry season dates: September 1–December 16, 2017
- Areas open: Statewide.
- Bag limit: 15
- Possession limit: 45
- Falconry bag limit: 3
- Falconry possession limit: 9
- Notes: Limits singly or in combination. Collared-doves should remain fully feathered so they can be distinguished from mourning and white-winged doves.

Ring-necked pheasant (General season)

- Season dates: November 4–December 3, 2017
- Youth hunt: October 14–October 16, 2017
- Areas open: Statewide.
- Bag limit: 2 male birds
- Possession limit: 6 male birds
- Notes: Only males may be harvested. The Goshen Warm Springs WMA in Utah County is closed to all hunting.

Scaled quail

- Season dates and bag limit: Closed statewide

Sandhill crane (multiple counties)

- Season dates: September 2–10, 2017
- Areas open: East Box Elder County (SC1000), Cache County (SC1001) and Rich County (SC1002)
- Possession limit: Only 1 bird of either sex may be taken during the entire season.
- Notes: Sandhill crane permit required. Harold Crane, Public Shooting Grounds and Salt Creek Waterfowl Management Areas are closed to sandhill crane hunting. Bear River National Wildlife Refuge is closed to sandhill crane hunting.

Sandhill crane (Uintah County)

- Season dates: September 30–October 9, 2017 (early), October 10–19, 2017 (middle), and October 20–29, 2017 (late)
- Areas open: Uintah County. There are three hunts: early (SC1003), middle (SC1004), and late (SC1005).
- Possession limit: Only 1 bird of either sex may be taken during the entire season.
- Notes: Sandhill crane permit required.

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2017–18 (continued).

Sharp-tailed grouse

- Season dates: September 30–October 22, 2017
- Areas open: Northeast Box Elder County (ST1000) and Cache County (ST1001)
- Possession limit: Only 2 birds of either sex may be taken during the entire season.
- Notes: Sharp-tailed grouse permit required. This hunt is comprised of all or largely private property. Hunters should acquire written permission from the landowner before obtaining a permit for this hunt.

Snowshoe hare

- Season dates: September 1, 2017–March 15, 2018
- Areas open: Statewide.
- Bag limit: 5
- Possession limit: 15

White-tailed ptarmigan

- Season dates: August 26–October 31, 2017
- Areas open: Statewide.
- Bag limit: 4
- Possession limit: 12
- Notes: Requires a free permit in addition to a hunting license.

Wild turkey (Fall general-season hunts)

- Season dates: November 1, 2017–January 15, 2018 (Northern), November 1, 2017–January 31, 2018 (Southern) and November 1, 2017–January 14, 2018 (Southeastern)
- Areas open: Select areas within the Northern Region and within the Southern Region. Some of these hunts are comprised of all or largely private property.
- Bag limit: 1 turkey of either sex
- Possession limit: 1 turkey of either sex
- Notes: Permits for the fall 2017 general-season hunts will be sold at *wildlife.utah.gov* and from license agents and Division offices.

Upland game and turkey season dates, bag and possession limits, and areas open, Utah 2017–18 (continued).

Wild turkey (Limited-entry hunts)

- Season dates: April 14–April 26, 2018
- Areas open: Central (TK1003), Northeastern (TK1004), Northern (TK1005), Southeastern (TK1006), and Southern (TK1007) regions.
- Bag limit: 1 bearded turkey
- Possession limit: 1 bearded turkey
- Notes: The limited-entry hunt requires a permit distributed through Utah's turkey drawing. If you are a youth with a limited-entry permit and you don't harvest during the limited-entry season, you may continue to hunt during the youth hunt and the spring general-season hunt.

Wild turkey (Spring general-season hunt)

- Season dates: April 30–May 31, 2018
- Youth hunt: April 27–April 29, 2018
- Areas open: Statewide.
- Bag limit: 1 bearded turkey
- Possession limit: 1 bearded turkey
- Notes: Spring general-season permits may be purchase over the counter.

Wild turkey (CWMU hunts)

- Season dates: The CWMU operator establishes the number of hunting days within the timeframe established by the Utah Wildlife Board for turkey hunting on CWMUs, April 14–May 31, 2018.
- Areas open: Folley Ridge (TK1009) and Pahvant Ensign (TK1018).
- Bag limit: 1 bearded turkey
- Possession limit: 1 bearded turkey
- Notes: The CWMU hunt requires a permit distributed through Utah's turkey drawing.
