

Form Name: August/September 2025 RAC Proposals Feedback
Submission Time: August 7, 2025 9:06 pm

Which best describes your position regarding the proposed statewide management plans?

Strongly agree

Do you have any comments about the proposed management plans? Please specify which plan(s).

Management plan changes are logical however, not a lot of detail on how the Division will involve hunters in the rare bighorn depredation events- two methods discussed in the presentation and in the plan (other than an order), of the two discussed it was update application or use the alternate list-----choose one (alternate list). Secondly and this is not tied to management plan directly, but eliminate archery only tags-put them in the general pool then if someone wants to use a bow let them purchase a \$50 archery supplement and let them hunt three weeks prior to the "any legal weapon" hunt
