**Which best describes your position regarding the buck deer permit recommendations for 2024?**

Strongly disagree

---

**Do you have any additional comments about the buck deer permit recommendations?**

I still think we should keep the permit numbers the same as last year. If the goal is 400k deer, we should keep the permits low to reach this goal. Because keeping the permit numbers high hasn't helped.

**Which best describes your position regarding the bull elk permit recommendations for 2024?** Strongly disagree

---

**Do you have any additional comments about the bull elk permit recommendations?**

Please limit non-resident general archery tags. Last season I seen at least eight to ten out of state license plates for every two resident hunters vehicles. I think resident hunters deserve to have a chance at harvesting an elk. Thank you.

---

**Which best describes your position regarding the buck deer permit recommendations for 2024?** Strongly disagree

---

**Do you have any additional comments about the buck deer permit recommendations?** I don't understand how we can increase this many general deer tags one year after the worst winter we have ever had. Northern Utah had one of the worst die offs ever. Southern Utah sure increase some tags. But look at Wasatch East deer unit. All 3 hunts archery, muzzy and rifle all the lowest success rates out of the last 4 years cause there are less deer on the landscape and less mature bucks on the landscape. Don't add 750 tags honestly cut tags or at bare minimum keep them the same. Give the deer a chance. It takes a few years after such a devastating winter. Look at the success rates. The proof is in the pudding

---

**Which best describes your position regarding the bull elk permit recommendations for 2024?**

Strongly disagree

**Do you have any additional comments about the bull elk permit recommendations?**

The Uintah basin is being used being belief, we are all tired of the division using our land for everyone to just kill everything. There are hardly any elk left. We aren't stupid, we see what's going on here. The Wasatch unit, the book cliffs, used to be known for giant bulls. I've hunted them for years for myself and helping friends. And this year was an absolute joke!! The big bulls are gone. I have hunted the Wasatch for the last 3 years once for me and for my dad and brother. The size of the bulls in three years is on a steady decline, we didn't even see a 6 point on a tag we have waited our entire life to draw. It's a joke.

We want to see less hunts and less people. We want our animals back. Stop using the basin for the city folks.

Up the price of tags so we don't lose the poor money and cut the tags in half.

We do not agree with the way Utah is going. And it starts from the top!

And on top of that get rid of general bull tags. There are none left. Some of us depend on killing a bull every year to support our families and that isn't possible now with how many people are doing this. Everyone does not need to hunt every year! Up the price and drop the number of tags. There has to be a point that enough is enough. And it is beyond that point

**Which best describes your position regarding the antlerless permit recommendations for 2024?**

Strongly disagree

**Do you have any additional comments about the antlerless permit recommendations?**

Get rid of cow hunts for a couple years. We don't have the elk herd to support it no matter what they say. Why are we still killing cows and not trying to grow the herds? There is no reason to kill the cows right now. Strongly disagree on these hunts at all!

Do not let them kill all the cows by rabbit gulch in Duchesne. This is a no-brainer don't let it happen. If they are down that low it will be a slaughter just like it was in 2019.

**Which best describes your position regarding the recommended changes to shed antler gathering rules and the big game rule?**

Strongly disagree

**Do you have any additional comments about these recommended rule changes? Please specify which rule.**

Utah has to have a season for resident shed hunters! At this point in popularity we have to have a season.

April first or April 15th gives all the animals to shed antlers and leave the area.

I have seen more people than ever pushing elk and deer around everywhere I go. It is too popular and it is too competitive.

Something has to be done this year, it is affecting all the animals in a bad way.

Is this restitution value going to affect the antler market? Because never in my life have I seen an antler worth 30\$ a pound.

How is that fair if they aren't even worth that much to begin with.

---

**Which best describes your position regarding the buck deer permit recommendations for 2024?** Strongly disagree

---

**Do you have any additional comments about the buck deer permit recommendations?** 22-23 was a record winter. With high levels of big game winter kill. Especially in the north. Why then would we, one year later increase tags? Doing this by saying population in good. Yet Wyoming and Colorado both decreased tags because of the loss of 22-23. Something is not adding up.

---

**Which best describes your position regarding the bull elk permit recommendations for 2024?** Neither agree nor disagree

---

**Do you have any additional comments about the bull elk permit recommendations?** Wish there would be a hard look at season date changes. No reason archery should start so early. And rifle in middle of the rut. With climate change moving the rut later in the year, it's time to change dates later too.

---

**Which best describes your position regarding the recommended changes to shed antler gathering rules and the big game rule?** Somewhat agree

---

**Do you have any additional comments about these recommended rule changes? Please specify which rule.** Still think it's wrong that so many residents still go out and harass wildlife so they can get there social media post of there big game shedding on camera. That's still harassment. Start the gather like April 1st. And commercial guys should pay for there registration. And don't make it cheap, but make it worth it.

**Which best describes your position regarding the bull elk permit recommendations for 2024?** Neither agree nor disagree

---

**Do you have any additional comments about the bull elk permit recommendations?** So I'm proposing to bring back the GS Elk Multi season permit as a restricted weapons hunt only. Compound bow/rifle with no scopes and we already have Muzzleloaders restricted. I know this was a popular hunt and I feel like we could do this as a restricted hunt.

I strongly disagree on adding any more tags to the LE early rifle Elk. I feel like every 1 tag you add to that hunt you could add 4 to early archery or 2 to mid season.

The late season archery elk. We should double the tags on every unit in my opinion look how many units had 0 % success.
