

Which best describes your position regarding the proposed changes to the falconry rules?

Strongly disagree

Do you have any comments about the proposed changes to the falconry rules?

I am opposed to all forms of falconry and the DWR Falconry program altogether. I think it's appalling that these magnificent birds are being captured out of their natural environment (or bred) for "falconry". The State of Utah has no respect nor regard for its wildlife or these magnificent birds. Given the choice, a bird would NEVER opt for capture over freedom. This program is a disgraceful statement about Americans and its treatment towards these magnificent birds. 12/10/2024.

Which best describes your position regarding the black bear proposals?

Strongly disagree

Do you have any comments about the black bear proposals?

I am 100 percent opposed to any black bear, cougar or other mammal "hunting" AND "trapping" [e.g. Bobcat, beaver ("beaver trapping"), mink, marten, badger, gray fox, kit fox, ringtail, spotted skunk and weasel]. It shows an appalling lack of respect for these magnificent animals to be able to live out their natural God-given lives without fear of being stalked, "hunted", trapped, slaughtered, and killed as if they are a meaningless "nothing" who are only here to serve the pleasure of so-called "hunters" who only want to murder them. The so-called "hunters" (I place "hunters" in quotes because I do not acknowledge that shameful word or activity) are not properly monitored in Utah to begin with based on all the illegal "hunting" that goes on - with absolutely no repercussions - and the needless slaughter of literally thousands of innocent wild animals each year. The "idea" this is part of the heritage of the West, or that "hunting" is for survival, or just a "way of life" does not hold water. It's been out-of-date for a long, long time. At this point, these are just sad sorry excuses for the wholesale slaughter of this beautiful wildlife God has created. You can buy meat and food in the grocery store. There is no need to "hunt". The concept of "herd management" is a fallacy. Do you think the beautiful buck deer with his magnificent head of antlers (his crowning glory) does not know it is being perpetually "hunted" by so called "men". Are you not going to stop until you slaughter every last buck deer in Utah? A real man (or woman for that matter) does not need to kill animals for pleasure. A real "man" would stop this needless, endless, annual slaughter. The State of Utah should be ashamed of itself for its relentless torture and murder of these beautiful animals, the black bear. How does someone actually pull a trigger and kill a black bear, a beautiful animal such as this without any feeling of remorse whatsoever? As evidenced by the shameful history of "hunting" in the United States going back hundreds of years, are you not going to stop this shameful practice of "hunting" until you have killed every single wild animal in Utah and made extinct every single species? You are well on your way. And now, that cougar "hunting" is limitless, you are well on track towards this goal of the wholesale slaughter of cougars. The Utah Division of Wildlife Resources and all Utah "hunters" by its / their nature are both wholly reprehensible in conduct and attitude towards wildlife. 12/10/2024.

You are well on your way - just has already been done on every continent on earth with hundreds if not thousands of species over the years. And now, that cougar "hunting" is limitless, you are well on track towards this goal of the wholesale slaughter of cougars. In particular, the use of "traps" to capture these magnificent animals (Pumas) is beyond disgraceful. It's simply evil. Again, will the DWR and the so called "hunters" not stop until they have tortured and murdered every single last cougar in Utah? Truly, how do you live with yourselves? The Utah Division of Wildlife Resources and all Utah "hunters" by its / their nature are both wholly reprehensible in conduct and attitude towards wildlife. 12/10/2024.

Which best describes your position regarding the recommended changes to Administrative Rule R657-64?

Strongly disagree

Do you have any comments about the recommended changes to Administrative Rule R657-64?

I am 100 percent opposed to all coyote "hunting", the so-called "Predator Control Program", and the wholesale slaughter of these animals. Leave these animals alone to live out their natural, God-given lives. The only predator in this scenario is the so-called "hunter" or "mankind". People who kill animals for pleasure, which is what so-called "hunters" do, are simply unworthy as human beings. 12/10/2024.

Which best describes your position regarding the Shed Antler Gathering Committee's recommendations?

Strongly disagree

Do you have any comments about the committee's recommendations?

I am 100 percent against all shed antler collection. It involves the same shameful, inhumane, cold, and callous mentality as "hunting" and it also involves the same individuals --- the so called "hunters". Therefore, this comment is self-explanatory. 12/10/2024.

Which best describes your position regarding the proposed West Desert Complex deer and elk unit plans?

Strongly disagree

Do you have any comments about the proposed unit plans? (Please specify each plan you are commenting on.)

I am 100 percent opposed to all deer and elk hunting. Leave these magnificent animals alone to live out their natural, God-given lives. So-called "hunting" is an outdated, callous mentality. These animals were created to live out their natural lives; they were not created by God to be slaughtered as indispensable, worthless "nothings". 12/10/2024.
