Which best describes your position regarding the proposed statewide management plans?

Neither agree nor disagree

Do you have any comments about the proposed management plans?

Hello,

Please specify which plan(s).

Please redirect any resources you have going toward mountain goats (please do not introduce to my area, Bear River Range, though I know they likely wander in and out) to wild sheep, well-established native species. Also, please work with public lands agencies to lower allotment numbers for domestic sheep and voluntarily retire permits to make room (both geographically and politically) for the reintroduction and conservation of wild sheep. Thank you for reading my comments.
