MEMORANDUM

TO: Utah Wildlife Board and Regional Advisory Councils

FROM: Mike Wardle, Big Game Coordinator

DATE: March 26, 2026

SUBJECT: 2026 Buck Deer Permit Recommendations (Informational)

Overview

The Utah Division of Wildlife Resources has finalized its 2026 buck deer permit recommendations based on 2025 harvest data, herd composition and winter survival rates. These adjustments align with the **2024 Utah Mule Deer Statewide Management Plan**.

The **20% rule** affects whether changes are automatic or action items:

- **Automatic changes:** Permit adjustments within 20% of last year's levels are implemented automatically (see informational presentation).
- **Action items:** Recommended changes that exceed 20% require Regional Advisory Council input and Utah Wildlife Board approval (see action item presentation).

General-season permits

The 2026 buck deer recommendation totals **86,200 permits**, an increase of 6,425 from 2025.

- **Automatic implementation:** 28 of Utah's 31 units fell within the 20% threshold. These units will see a combined increase from 71,950 to 76,975 permits.
- **Action items:** Three units exceeded the 20% threshold. These are highlighted yellow in the RAC packet and will be presented separately for board action.

Limited-entry permits

Most limited-entry adjustments are automatic. Specific unit-by-unit breakdowns are available in the attached hunt tables.

Category	2026 status	Notes
Premium limited-entry	Mixed	Henry Mtns: +2 permits (automatic). Paunsaugunt: Premium permits unchanged; Management/cactus buck permits exceed 20% (action item).
Limited-entry	Mixed	7 of 8 units will adjust automatically to maintain 25–30 bucks per 100 does.
HAMSS	No change	24 total permits across four units.
Chronic wasting disease management	No change	25 total permits for the La Sal unit.
Little Rockies	No change	5 total permits for this low-density opportunity hunt.
Late-season muzzleloader	Mixed	29 of 31 units will adjust automatically (capped at 0.5% of the unit's total general permits). Two units exceed 20% (action item).

Please see the buck deer hunt recommendations in the hunt tables for a detailed breakdown of permit numbers, along with the allocations for various weapon types and residents/nonresidents.

MEMORANDUM

TO: Utah Wildlife Board and Regional Advisory Councils

FROM: Mike Wardle, Big Game Coordinator

DATE: March 26, 2026

SUBJECT: 2026 Buck Deer Permit Recommendations (Action Required)

Overview

Per the 2024 Utah Mule Deer Statewide Management Plan, permit adjustments that will change **more than 20%** from the previous year require input from the Regional Advisory Councils (RACs) and approval from the Utah Wildlife Board. These recommendations are being made to meet objectives set by the board in the statewide management plan.

General-season units (action required)

Of the 31 general-season units, there are three units that require board action due to recommendations exceeding the 20% threshold: Beaver, West; Kamas; and Wasatch Mtns, West. The Utah Division of Wildlife Resources recommends an overall increase of **1,300 permits** across these three units to move toward the buck-to-doe ratio objectives for each unit. Please see the buck deer hunt recommendations in the hunt tables. Recommendations that require RAC input and Wildlife Board action are highlighted in yellow.

Premium limited-entry hunts (action required)

Two hunt recommendations on the Paunsaugunt unit exceed the 20% threshold and require RAC input and Wildlife Board action. For 2026, we recommend an increase of 10 management buck permits and a decrease of 10 cactus buck permits.

Limited-entry units and late-season muzzleloader hunts (action required)

Two limited-entry units and two late-season muzzleloader hunts require RAC input and Wildlife Board action for 2026:

- **Limited-entry units:** Recommendations exceed the 20% threshold for the Book Cliffs and Dolores Triangle units. The recommendations include an increase of 60 permits overall.

- **Late-season muzzleloader hunts:** Recommendations exceed the 20% threshold for the Cache and Wasatch Mtns, West units. These recommendations combine for a total increase of 9 permits overall.

Please see the buck deer hunt recommendations in the hunt tables for a detailed breakdown of permit numbers, along with the allocations for various weapon types and residents/nonresidents.

MEMORANDUM

TO: Wildlife Board and Regional Advisory Council Members
FROM: Rusty Robinson, Once-in-a-lifetime Species Coordinator
DATE: March 27, 2026
SUBJECT: **2026 Once-in-a-lifetime Permit Recommendations**

Big game permit recommendations are reviewed annually. Recommendations are traditionally presented during the April RAC and Board cycle. The attached tables summarize the Utah Division of Wildlife Resources' recommended permit allocations for the 2026 bighorn, bison, mountain goat, and moose hunts. We've made these recommendations after evaluating 2025 harvest information, census data, and harvest age data.

The 2026 permit recommendations will help us achieve or maintain the objectives detailed in Utah's species specific statewide management plans. For specific information about how different species are managed, please refer to visit <https://wildlife.utah.gov/biggame>, scroll down the page (to "Statewide big game management plans") to find the Utah Statewide Management Plans for each species.

Permit Recommendation Overview:

1) Bighorn Sheep

We recommend permits based on the number of rams counted on the most recent aerial census; 12-25% of total counted rams or 30-60% of rams 6 years of age or older. We are recommending a statewide total of 85 desert bighorn sheep permits (3 permit decrease). We are recommending a statewide total of 51 Rocky Mountain bighorn sheep permits (1 permit decrease).

2) Bison

We recommend permit numbers based on the herd population objective and bull: cow ratio. We are recommending a statewide total of 135 total bison permits (2 permit increase).

3) Mountain Goat

We recommend permit numbers based on 5-25% of the counted adult population on the most recent aerial census. We are recommending a statewide total of 112 mountain goat permits (9 permit increase).

4) Moose

We recommend permit numbers based on an average age of bulls harvested between 3.75 and 4.25 years old. We are recommending a statewide total of 113 moose permits (7 permit increase).

MEMORANDUM

TO: Utah Wildlife Board and Regional Advisory Councils

FROM: Mike Wardle, Big Game Coordinator

DATE: March 26, 2026

SUBJECT: Overview of 2026 bull elk permit recommendations

The Utah Division of Wildlife Resources makes the following 2026 bull elk permit recommendations after evaluating 2025 harvest information and conducting post-hunt assessments of herd composition.

The proposed 2026 bull elk permits will help us achieve or maintain the objectives detailed in the Utah Statewide Elk Management Plan. Utah manages to three different age objectives for harvested bulls on traditional limited-entry units. Those age objectives are 5.5-6.0 years, 6.0-6.5 years and 6.5-7.0 years. Utah also has several limited-entry units managed for a month-long September archery season and a later handgun, archery, muzzleloader, shotgun, straight-walled rifle (HAMSS) season. The HAMSS season runs from late October to mid-November.

Below is a summary of the **2026 bull elk permit recommendations**:

1. General-season elk permits (already approved in the statewide plan)
 - a. 15,000 spike bull elk permits, up to 4,500 of which can be issued as multiseason permits
 - b. 15,000 any bull elk permits (early season, any weapon and muzzleloader)
 - c. Unlimited any bull elk permits (late season, any weapon)
 - d. Unlimited general-season youth elk permits
 - e. Unlimited archery elk permits
2. We recommend no change to the draw-only youth any bull/hunter's choice elk permits (750 permits).
3. We recommend increasing the Uinta Basin private-lands-only any bull hunt from 500 to 750 permits. These permits help address conflicts and crop damage from low-elevation, resident elk in agricultural areas in the Uinta Basin.

4. We recommend 3,142 traditional limited-entry permits for 2026. This is a decrease of 73 permits from the 3,215 permits issued in 2025. The most notable change in this category is the proposed reduction of 100 permits on the Wasatch Mtns unit, from 726 permits to 580 permits. We're proposing this reduction in an effort to increase the average age of bulls harvested, so it falls within the age objective for the unit.
5. We recommend 193 December archery limited-entry bull elk permits. This is 35 more permits than the 158 permits issued last year.
6. We recommend 144 September archery and HAMSS permits (72 September archery and 72 HAMSS), an increase of 4 permits from the 140 permits issued last year.
7. We have two opportunities for limited-entry hunts on general-season units to capture unique opportunities and to help reduce bull numbers on two units that are exceeding their population objectives and have high bull-to-cow ratios. These are late December hunts — a HAMSS hunt on the East Canyon unit and an any-legal-weapon hunt on the Morgan-South Rich unit. We recommend maintaining 10 permits on the Morgan-South Rich hunt and decreasing from 10 to 8 permits on East Canyon.
8. The grand total of recommended limited-entry bull elk permits is 3,497 permits. This is 36 permits fewer than the 3,533 permits issued last year, a proposed decrease of ~1%

Please see the bull elk hunt recommendations listed in the hunt tables in this packet for a detailed breakdown of recommended permits for each individual unit. The hunt tables also show how permits are allocated among weapon types and split between residents and nonresidents.

2026 GENERAL SEASON BULL ELK PERMITS

Hunt Type	2025 Permits	2026 Permits
Spike Bull	15000	15000
Any Bull Elk (includes muzzleloader)	15000	15000
Any Bull Late	Unlimited	Unlimited
Youth General Season	Unlimited	Unlimited
Uinta Basin Private Lands Only Any Bull	500	750
Draw Only Youth Any Bull/Hunter's Choice (any weapon)	750	750

Governor

DEIDRE M. HENDERSON
Lieutenant Governor

Department of Natural Resources

JOEL FERRY
Executive Director

Division of Wildlife Resources

RILEY PECK
Division Director

MEMORANDUM

TO: Utah Wildlife Board and Regional Advisory Councils

FROM: Mike Wardle, Big Game Coordinator

DATE: March 26, 2026

SUBJECT: Overview of 2026 buck pronghorn permit recommendations

Utah Division of Wildlife Resources biologists and staff have evaluated aerial counts and ground-classification information to examine population status, sex ratios and reproductive rates in the state's pronghorn populations. The count and classification data — along with harvest data that includes the tooth ages of pronghorn bucks — have informed the DWR's recommendations for 2026 buck pronghorn permits.

The Utah Pronghorn Statewide Management Plan directs the DWR to manage for an average age of 2-3 years old for harvested bucks. After evaluating the collected data in the context of the age objective in the statewide plan, the DWR recommends increasing limited-entry buck pronghorn permits from 1,739 permits to 1,827 permits. This is a proposed increase of 88 permits, or about 5%.

Utah has 28 buck pronghorn units, and all units are meeting or exceeding the 3-year average age objective of 2-3 years for harvested bucks. We are recommending a reduction on three units — the North Slope, Three Corners/West Dagget; San Juan, Hatch Point; and Vernal units — due to a declining trend in average age. We are recommending no change on 13 units and permit increases on 12 units. These recommendations are designed to maintain or move toward compliance with the objectives in the statewide management plan.

Please see the buck pronghorn hunt recommendations listed in the hunt tables in this packet for a detailed breakdown of recommended permits for each unit. The hunt tables also show how permits are allocated among weapon types and split between residents and nonresidents.

2026 BUCK PRONGHORN AVERAGE AGES AND OBJECTIVES

MEMORANDUM

TO: Utah Wildlife Board and Regional Advisory Councils

FROM: Mike Wardle, Big Game Coordinator

DATE: March 26, 2026

SUBJECT: Overview of 2026 antlerless big game permit recommendations

The attached tables summarize the Utah Division of Wildlife Resources' recommended permit allocations for the 2026 antlerless hunts. We've made these recommendations after evaluating 2025 harvest information and conducting post-hunt assessments of herd composition.

The number of permits we are proposing will help us achieve or maintain the objectives detailed in Utah's big game management plans for population size, conflict reduction and hunting opportunity. For specific information about how individual big game species are managed in Utah, visit wildlife.utah.gov and use the search field (at the top right of the page) to find the statewide management plan for the species of interest.

Below is a summary of the **2026 antlerless hunt recommendations**:

1. We recommend 5 more antlerless deer permits, increasing from 340 permits to 345 permits. The antlerless deer hunts we are recommending are designed to reduce depredation on private lands and to address urban deer issues and public safety.
2. Statewide, elk populations increased slightly last year. Antlerless permits are needed to keep elk populations within their management objectives. The statewide elk-population objective is 80,600 elk, and our current population estimate is 83,020. We recommend 11,795 antlerless elk permits for the public drawing and propose 9,855 antlerless elk permits for private-lands-only hunts — please see the hunt tables for details.
3. We recommend antlerless elk-control permits on the following units:
 - a. Box Elder, Grouse Creek
 - b. Chalk Creek
 - c. East Canyon
 - d. Henry Mtns
 - e. Kamas

- f. Morgan-South Rich
- g. Ogden
- h. Pine Valley
- i. Zion

4. We recommend 475 doe pronghorn permits, decreasing from 505 permits in 2025.
5. We recommend a total of 15 antlerless moose permits, 10 on the Morgan-South Rich unit and 5 on the Wasatch Mtns, Salt Lake-Timpanogos unit.
6. We recommend continuing the Rocky Mountain ewe bighorn sheep hunt on the Box Elder, Newfoundland Mtns unit, with a total of 5 permits.

Please see the antlerless hunt recommendations in the hunt tables for a detailed breakdown of recommended hunts, season dates and permit numbers.

BOUNDARY RECOMMENDATION

UNIT Beaver city

SPECIES Deer

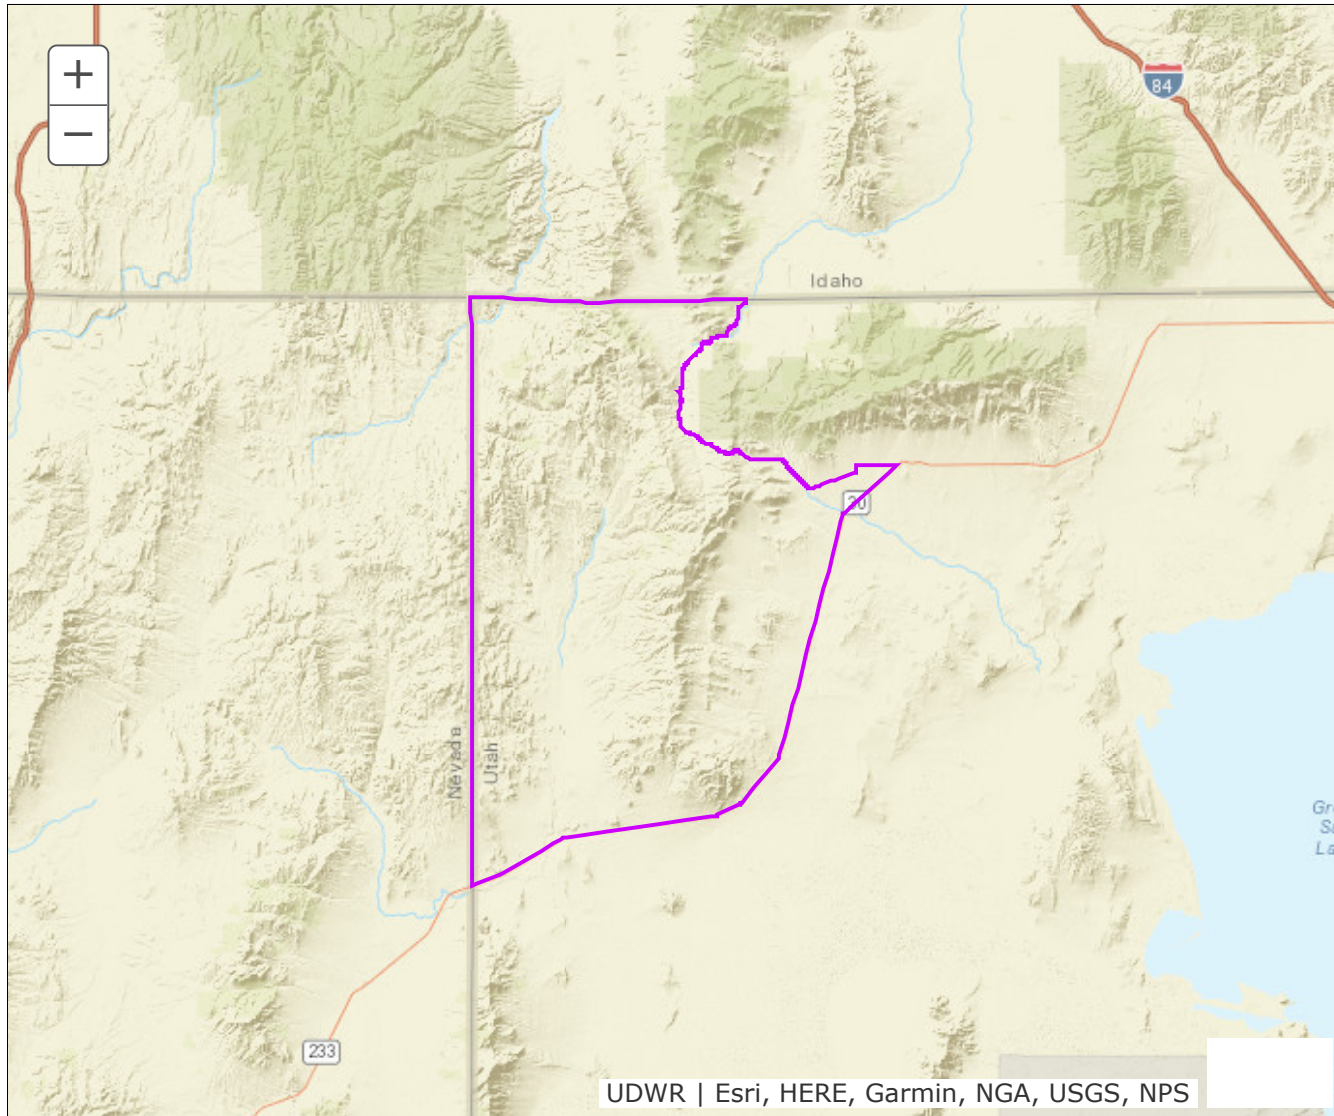

Updated Boundary: Beaver County—Boundary begins at the junction of Interstate 15 and the Beaver river, West along the river to Holdaway Lane, North to 200 north, West to North Creek Road, North to 1400 North, West to 650 East, North to 1800 North, West to Interstate 15, South along Interstate 15 to the Beaver river. EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY. Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Provo. Boundary questions? Call the Cedar City Office, 435-865-6100. A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Box Elder, Grouse Creek

SPECIES Elk

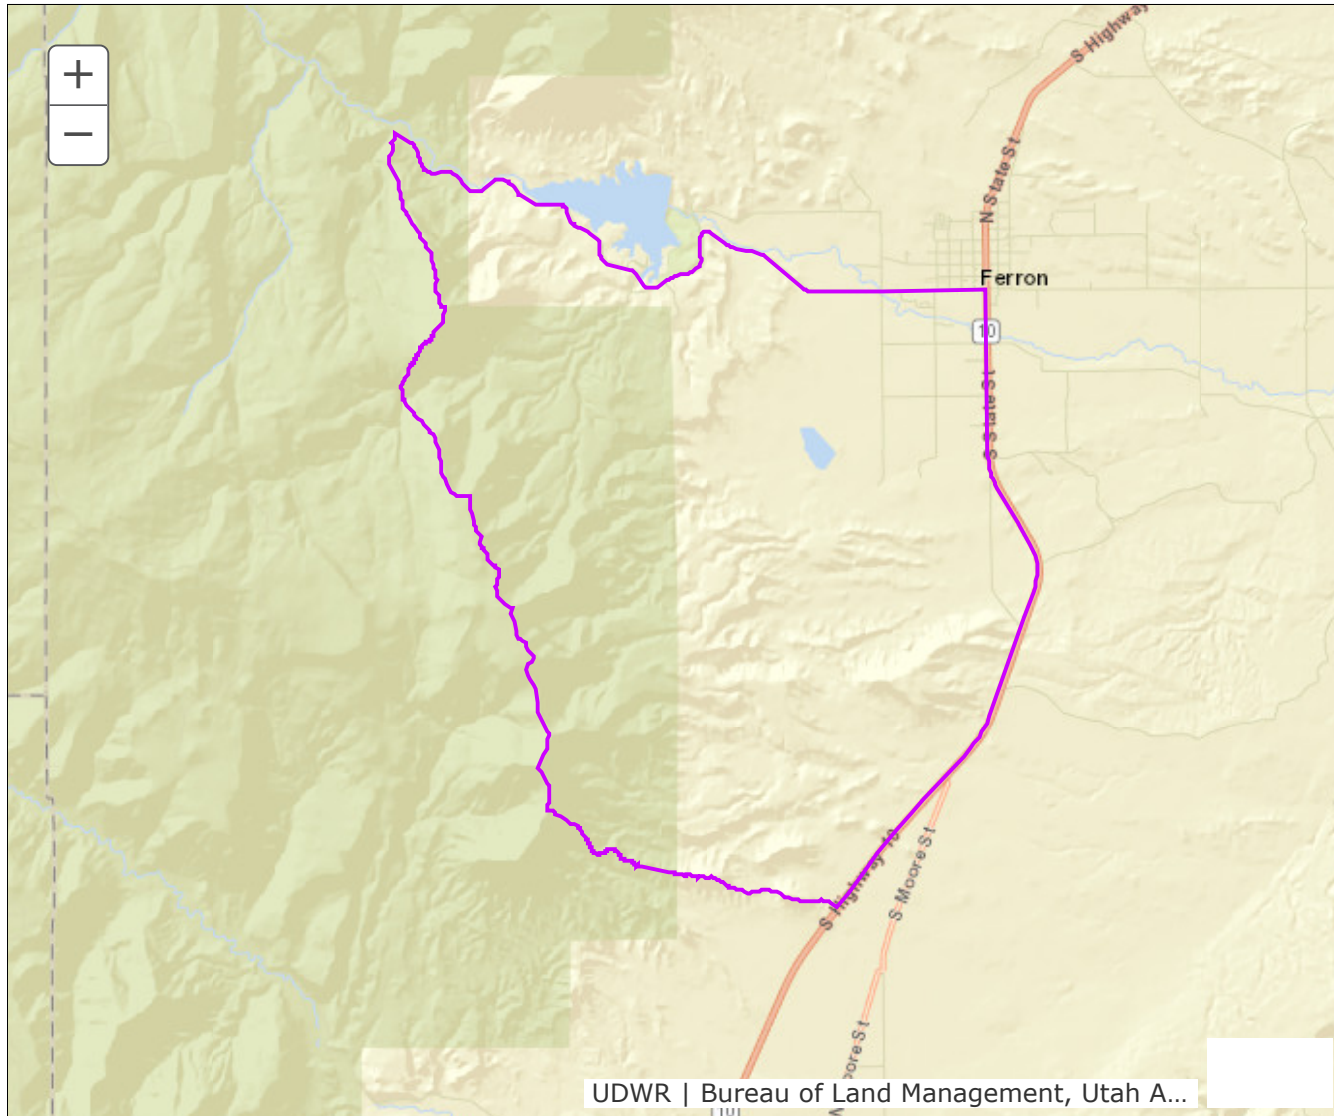

Updated Boundary: Box Elder County—Boundary begins on the Utah-Idaho state line at the Lynn/Almo, Idaho road and the Utah-Idaho state line; southwest on this road through the Raft River Narrows to Lynn and the Lynn Valley road; south on this road to the Dove Creek road; southeast on this road over Dove Creek Pass to SR-30 near Rosette; south and west on SR-30 to the Utah-Nevada state line; north on this state line to the Utah-Idaho state line; east on this state line to the Lynn/Almo, Idaho road. This hunt is comprised of all or largely private property. Hunters should acquire written permission from the landowner before applying for this hunt. Excludes all CWMUs. USGS 1:100,000 Maps: Grouse Creek, Jackpot, Newfoundland Mountains, Wells. Boundary Questions? Call Ogden office, 801-476-2740. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and

Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Manti, Ferron Lower Escarpment

SPECIES Elk

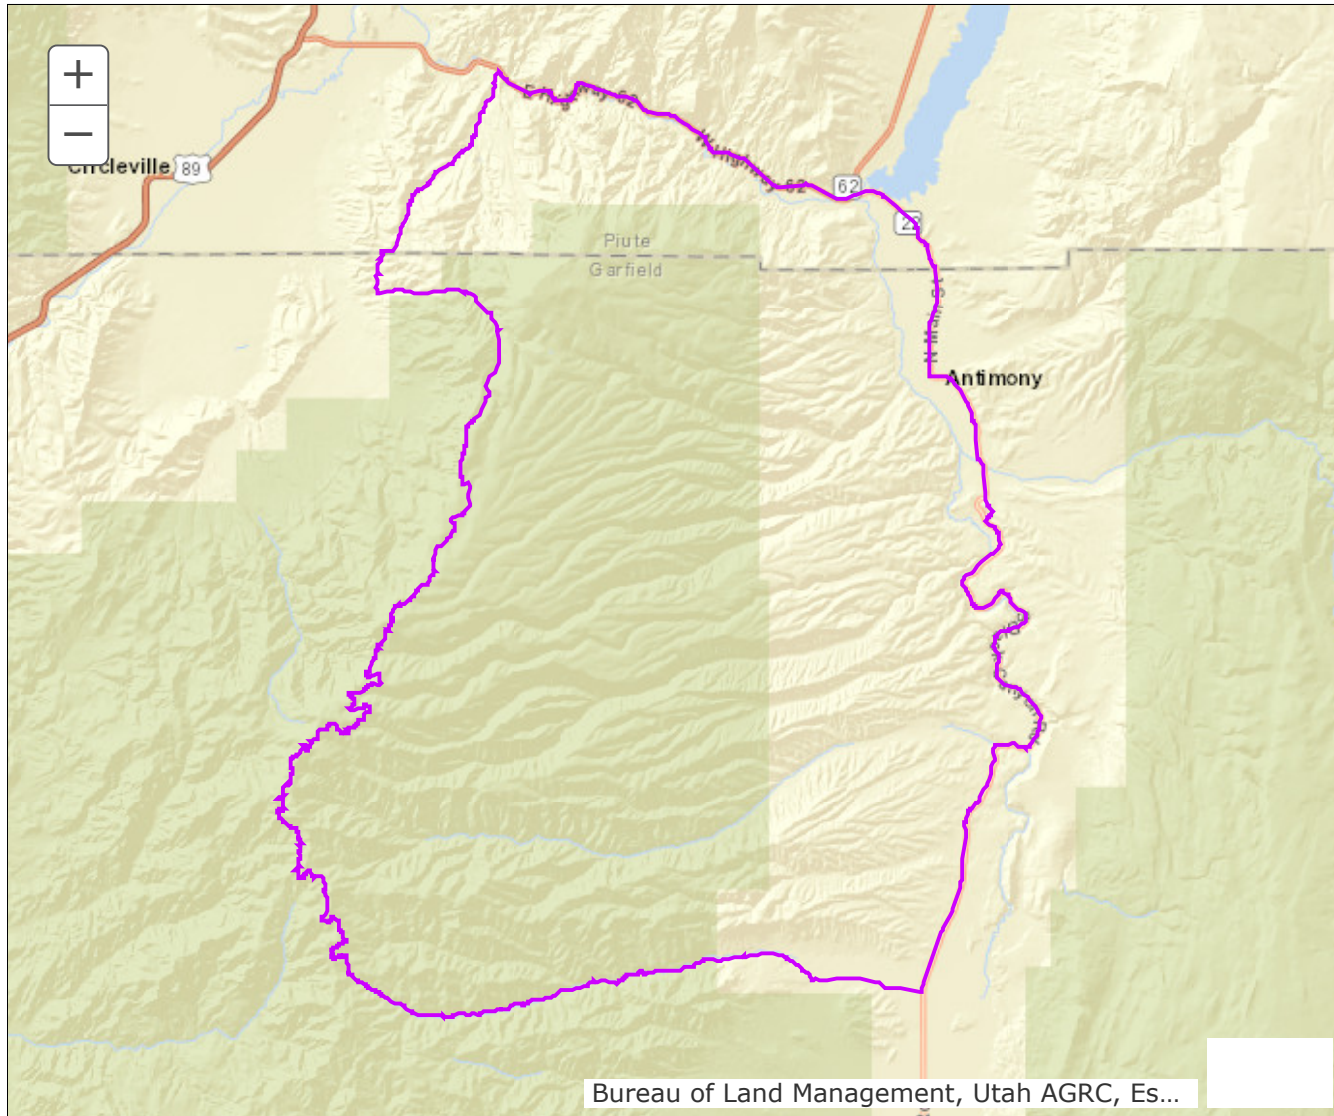

Updated Boundary: Emery county—Boundary begins at the junction of SR10 and Canyon Road (100 South) in Ferron; south along SR10 to mile post 20 201; west along the prominent ridgeline to the escarpments upper rim of Nelson Mountain; north along the Nelson Mountain rim past Youngs Peak and along the east face rim of the Nelson Mountain escarpment; northwest and north down the ridgeline to Dry Wash; across Dry Wash along the ridgeline of Little Nelson Mountain and down the ridgeline to Canyon Road; east along Canyon Road to SR10 in Ferron. EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY. Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Provo. Boundary questions? Call Price office, 435-613-3700. A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military

installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Mt Dutton, North

SPECIES Elk

Bureau of Land Management, Utah AGRC, Es...

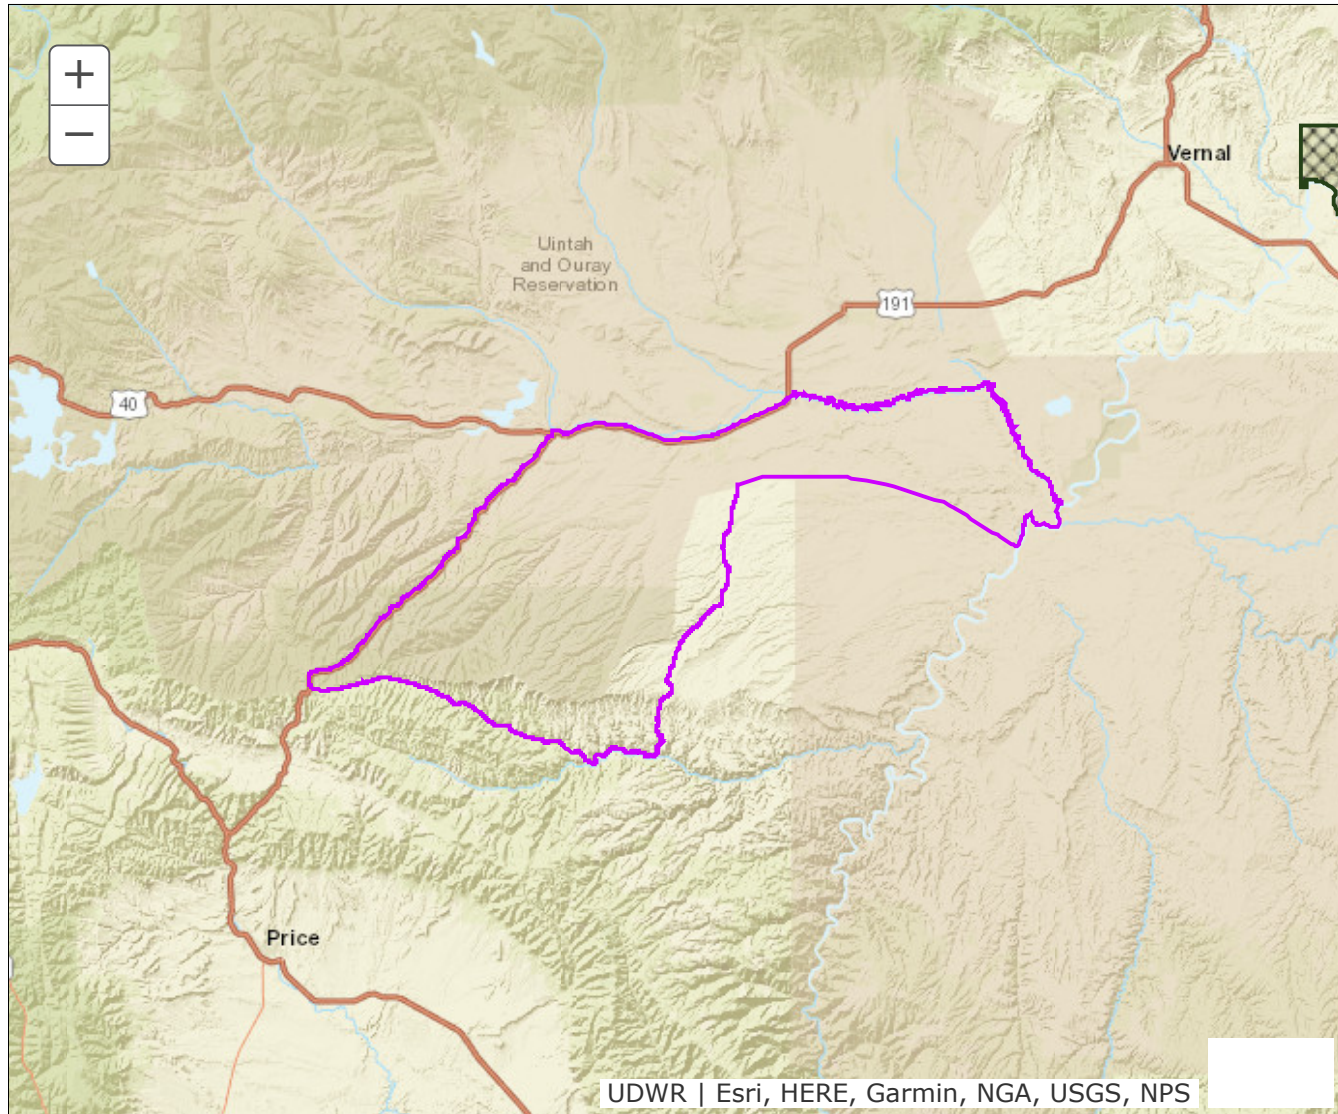

Updated Boundary: Garfield County—Boundary begins at SR22 Johns Valley and USFS road 125 Cottonwood Creek road; west on this road looping north on Mt Dutton continuing north to Jones Corral trail 33078; north on Jones Corral trail 33078 to USFS road 31234; north on USFS Road 31234 to Jones Corral trail 33078; north on Jones Corral trail 33078 to USFS road 431; north on USFS road 431 to USFS road 126; north on USFS road 126 to USFS road 1062; north on USFS road 1062 to Jones Corral draw; north in Jones Corral draw to USFS road 33802 Rocky Ford trail; west on USFS road 33802 Rocky Ford trail to BLM road 2655 Rocky Ford trail; north on BLM road 2655 Rocky Ford trail to highway 62 Kingston Canyon; East on highway 62 Kingston Canyon to SR22 Johns Valley; south on SR22 Johns Valley to USFS road 125 Cottonwood Creek road. EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY. Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Provo. Boundary questions? Call Cedar City office, 435-865-6100. A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a

permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Nine Mile, West Anthro

SPECIES Elk

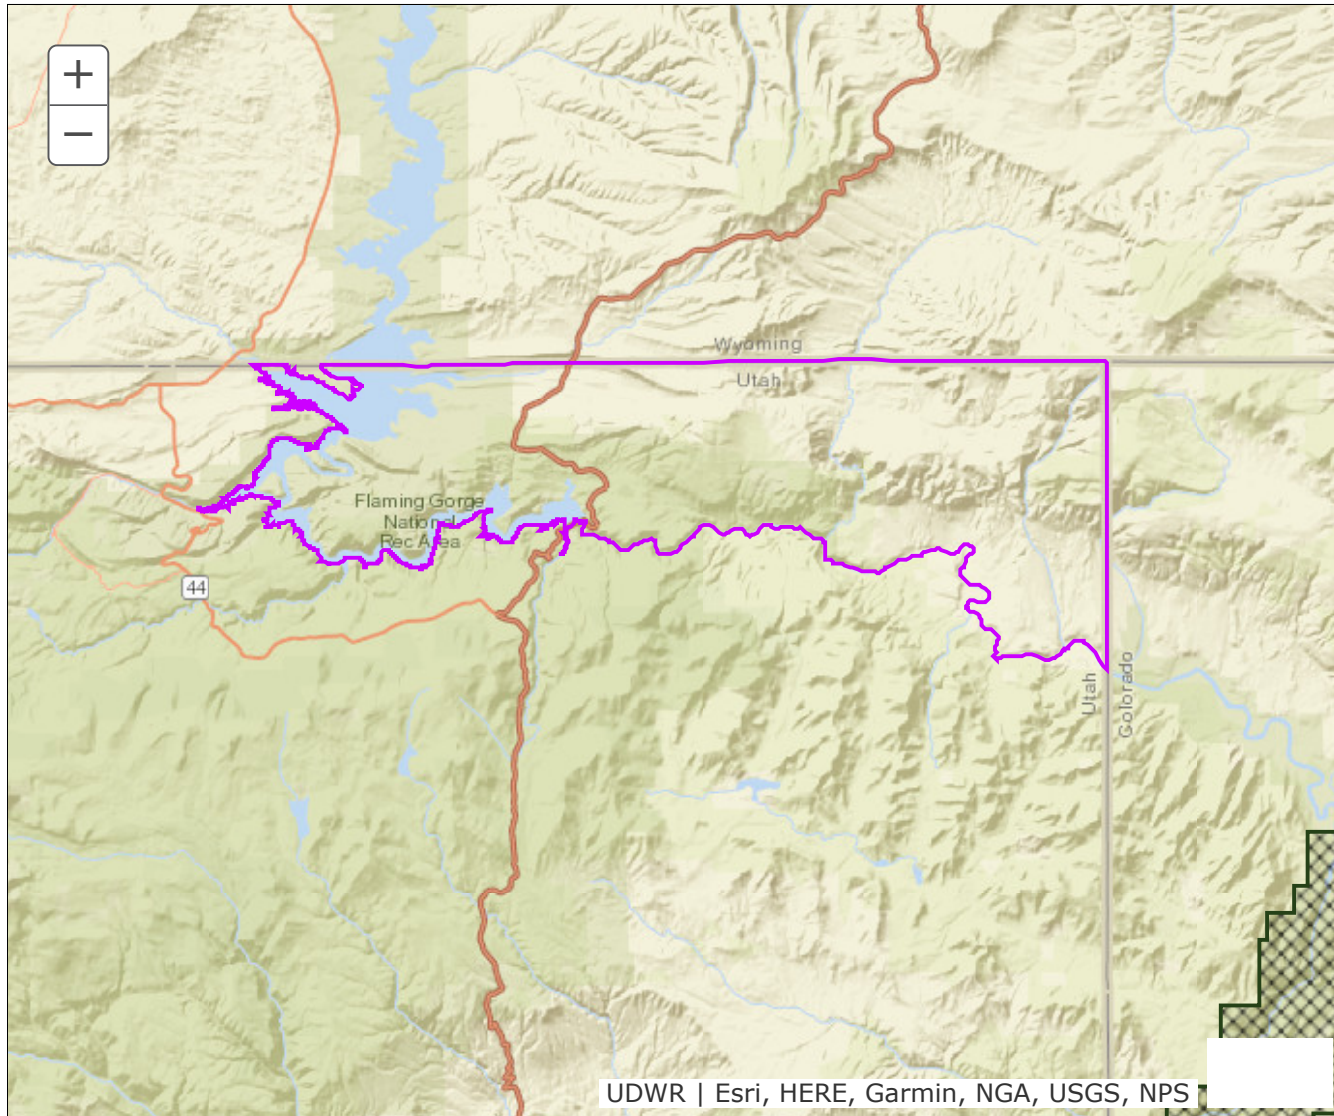

Updated Boundary: Duchesne and Uintah counties—Boundary begins at US-40 and US-191 at Duchesne; south on US-191 to Argyle Canyon Road; southeast on this road to Nine Mile Canyon Road; east on this road to Gate Canyon and the Nine Mile Canyon Backcountry Byway; north on this byway to the BLM boundary near Pleasant Valley; east on this boundary to the Green River near Pariette Draw; northeast along this river to the Duchesne River; northwest along this river to US-40 at Myton; west on US-40 to US-191. EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY. Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Price, Vernal. Boundary Questions? Call Vernal Office, 435-781-9453. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the

boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT North Slope, Three Corners

SPECIES Elk

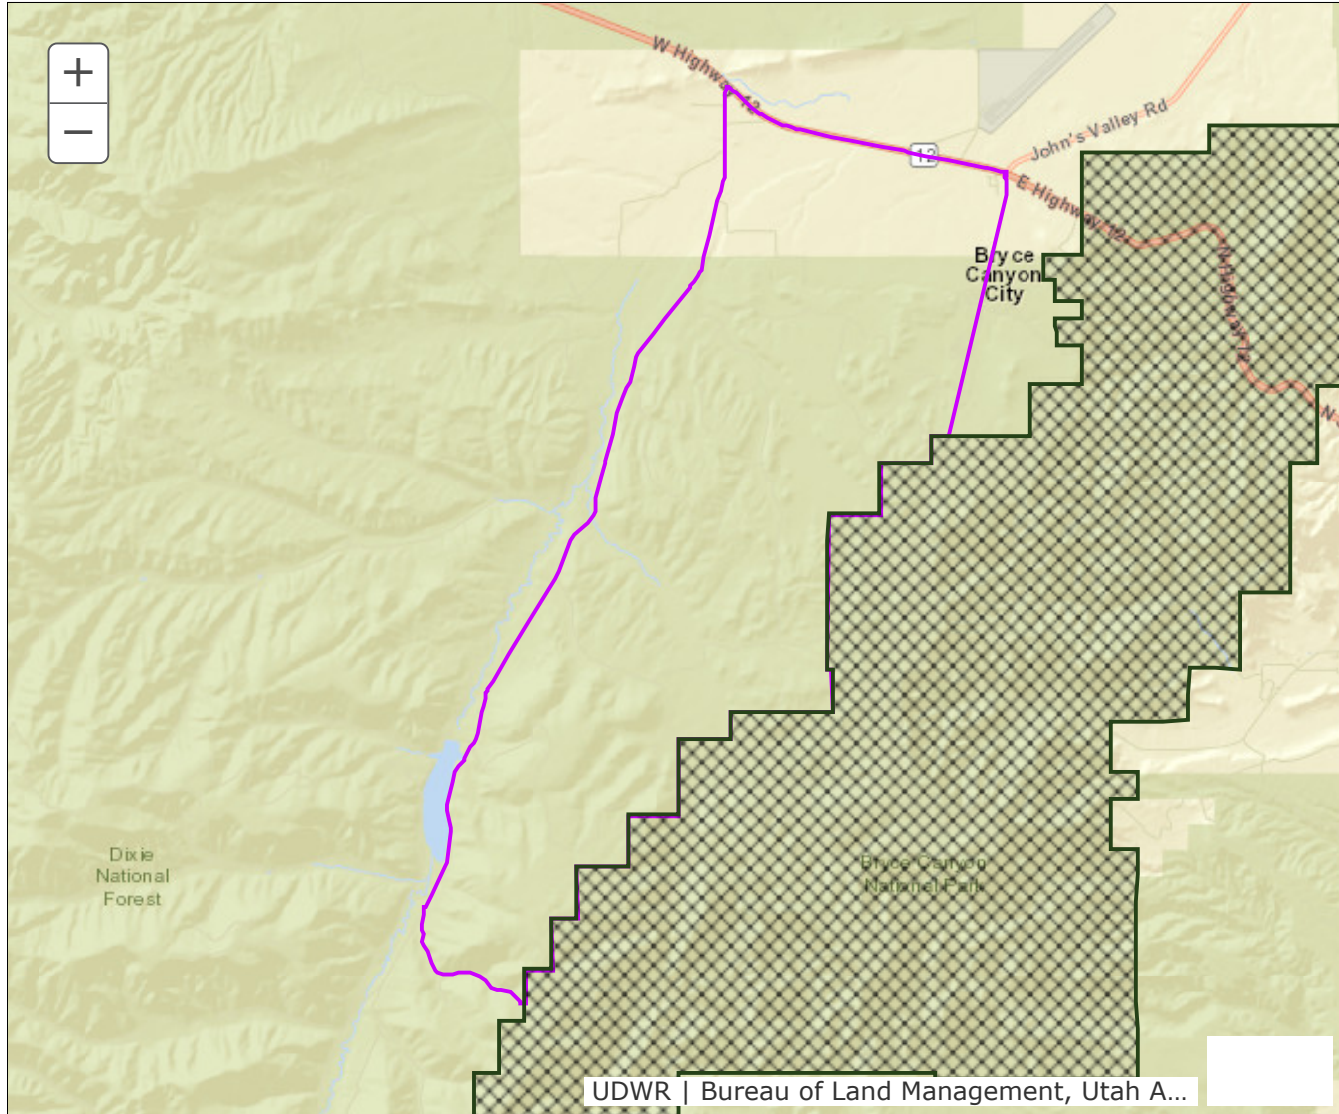

Updated Boundary: Daggett County—Boundary begins at the Flaming Gorge Reservoir main channel western shoreline on the east side of Lucerne Point at the Utah-Wyoming state line; east on this state line to the Utah-Colorado state line; south on this state line to the Green River; west along this river to the Flaming Gorge Reservoir west shoreline; west along this shoreline to the Utah-Wyoming state line; east along the state line to Lucerne Point; east around Lucerne Point to the Utah-Wyoming State line. Excludes all CWMUs. USGS 1:100,000 Maps: Dutch John. Boundary questions? Call Vernal office, 435-781-9453. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Paunsaugunt, East Creek

SPECIES Elk

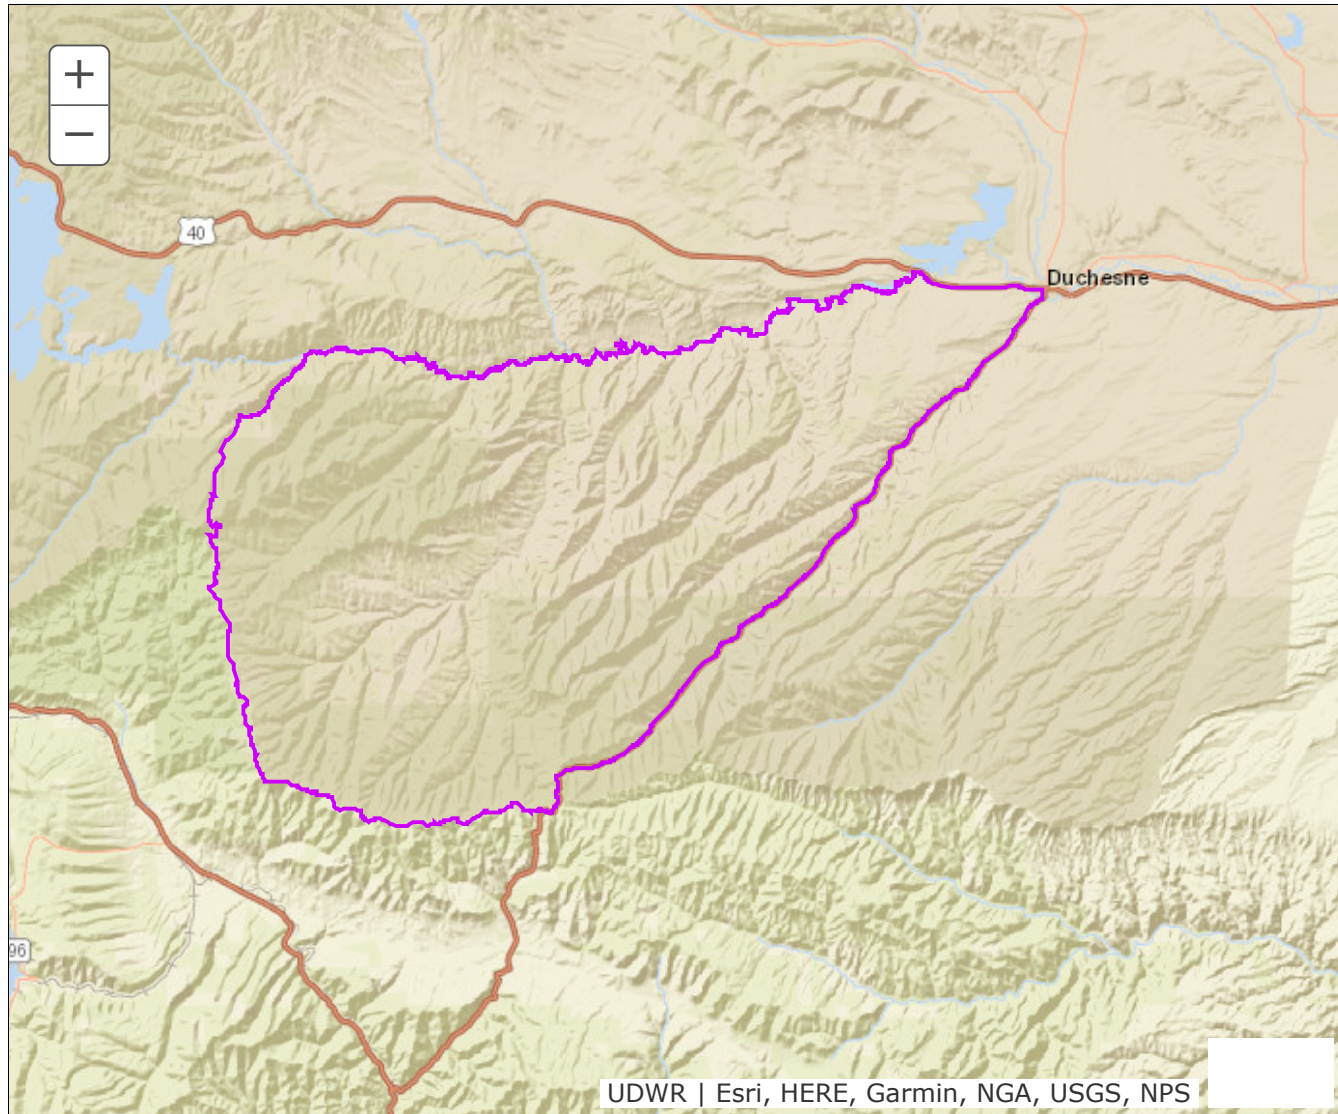

Updated Boundary: New Boundary - Description Pending

BOUNDARY RECOMMENDATION

UNIT Wasatch Mtns, Avintaquin

SPECIES Elk

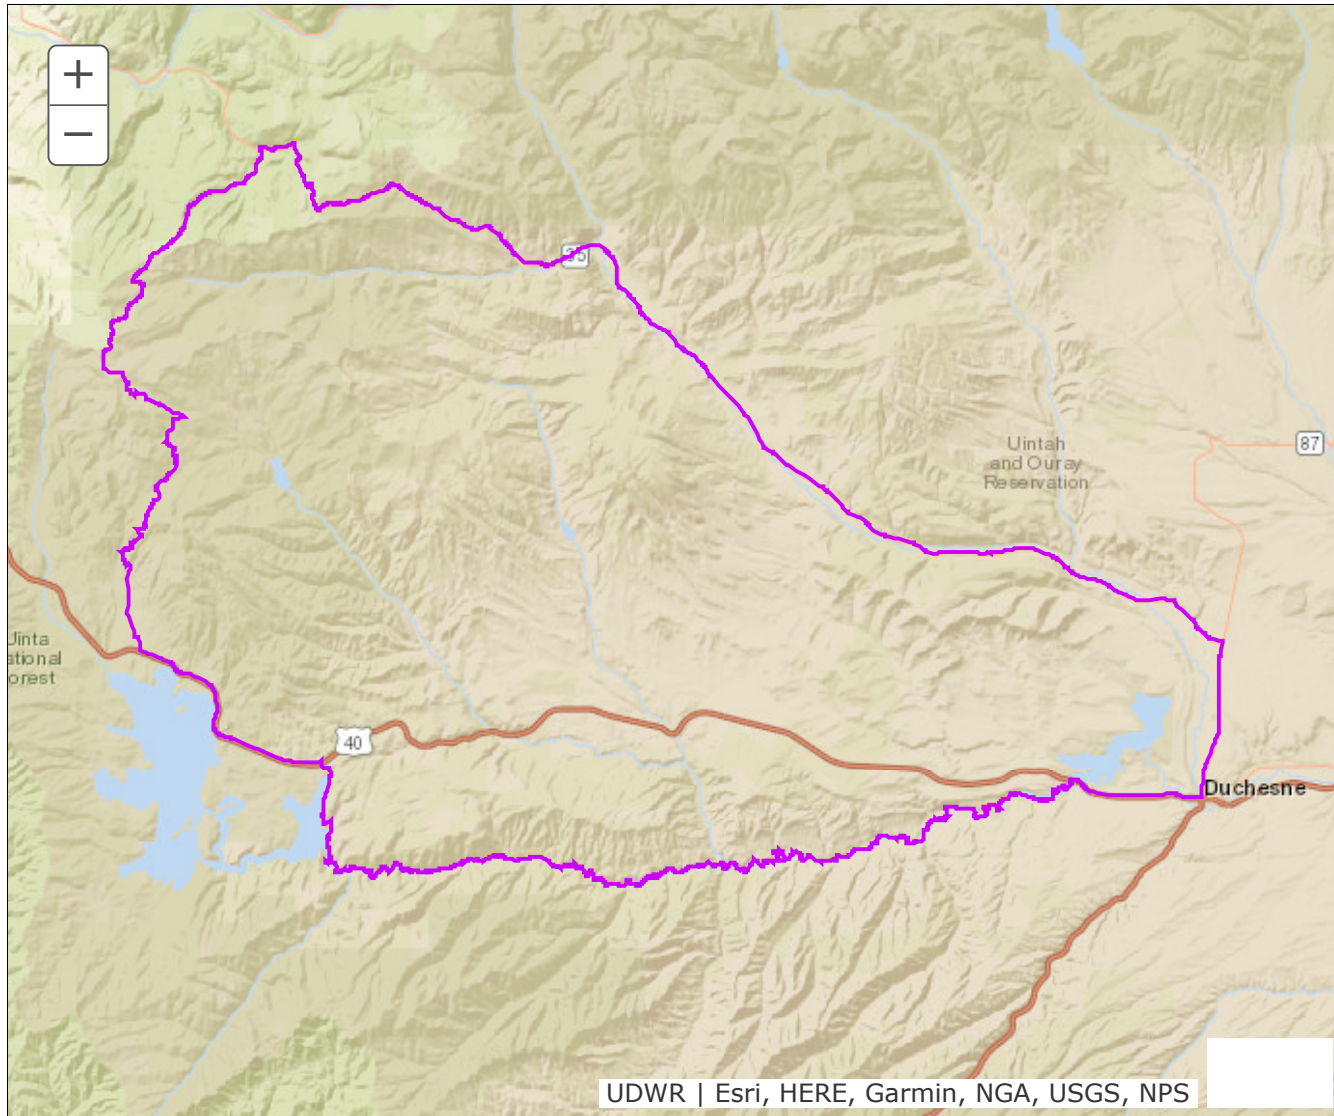

Updated Boundary: Carbon, Duchesne, Utah and Wasatch counties—Boundary begins at the Strawberry River and Beaver Creek; southwest along Beaver Creek to Big Beaver Spring and USFS Road 081 (Reservation Ridge Road); east on this road to US-191; north on US-191 to Duchesne and the Strawberry River; west along this river to Beaver Creek. **EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY.** Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Nephi, Provo. Boundary questions? Call Vernal office, 435-781-9453. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Wasatch Mtns, Currant Creek

SPECIES Elk

Updated Boundary: Duchesne and Wasatch counties—Boundary begins at US-40 and SR-87 at Duchesne; north on SR-87 to SR-35; northwest on SR-35 to USFS Road 054 (Mill Hollow Road); southwest on this road to USFS Road 083 (Lake Creek Road); southeast on this road across Roundy Basin to the new Co-op Creek road; south on this road to US-40; east on US-40 to the Soldier Creek Dam road; south on this road to the Strawberry River; east along this river to US-40; east on US-40 to SR-87. EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY. Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Provo, Salt Lake City. Boundary questions? Call Vernal office, 435-781-9453. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and

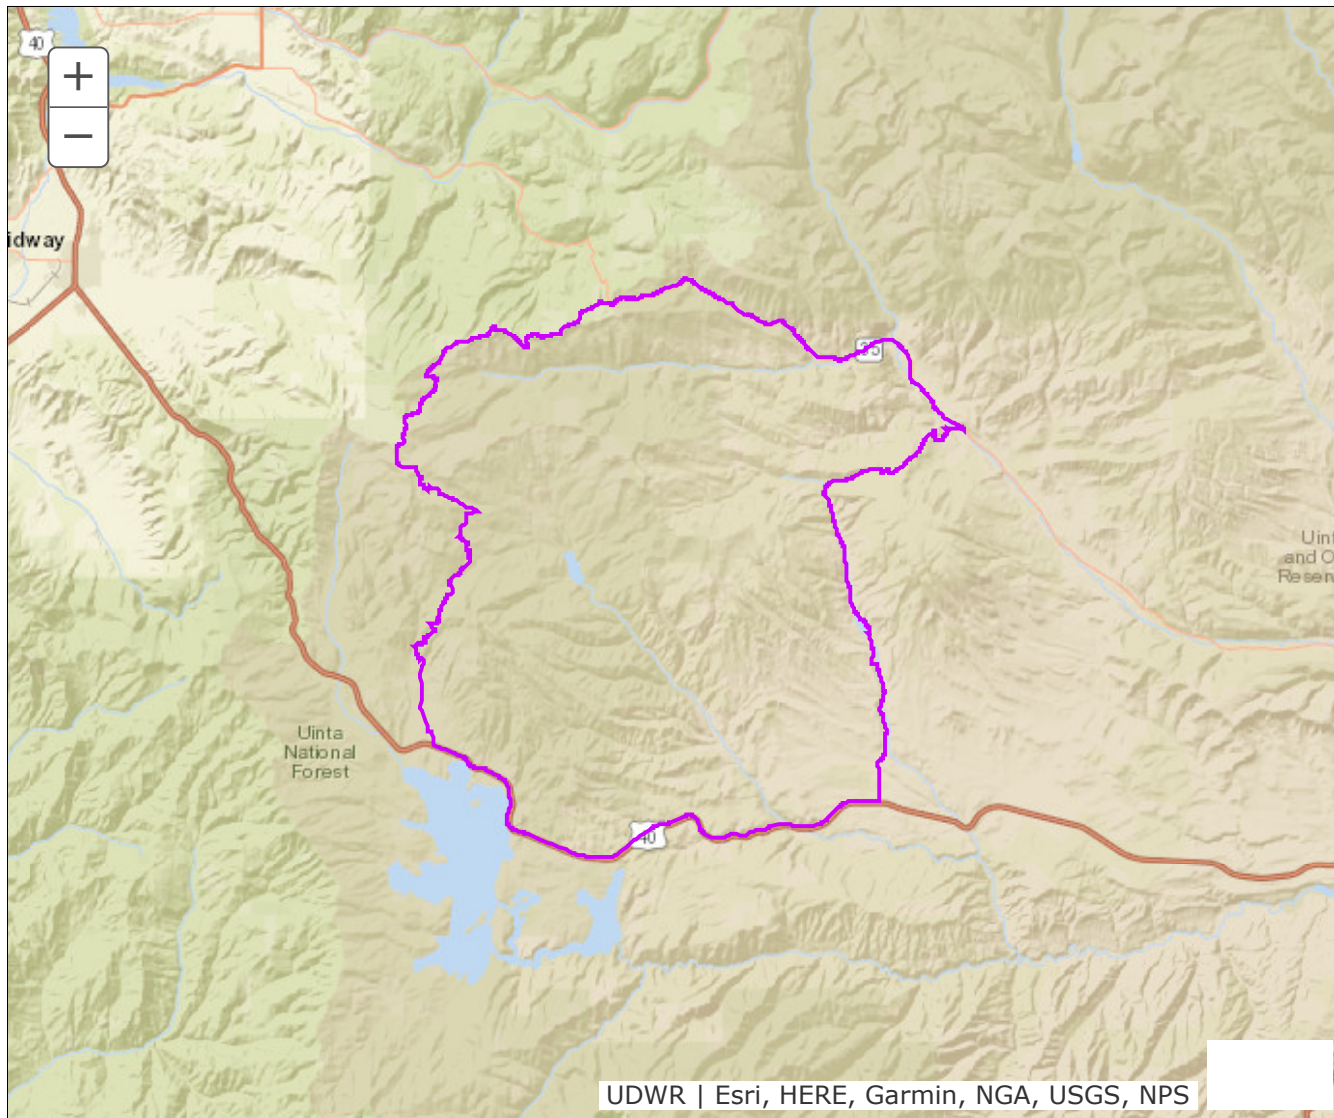

Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Wasatch Mtns, Red Creek West

SPECIES Elk

UDWR | Esri, HERE, Garmin, NGA, USGS, NPS

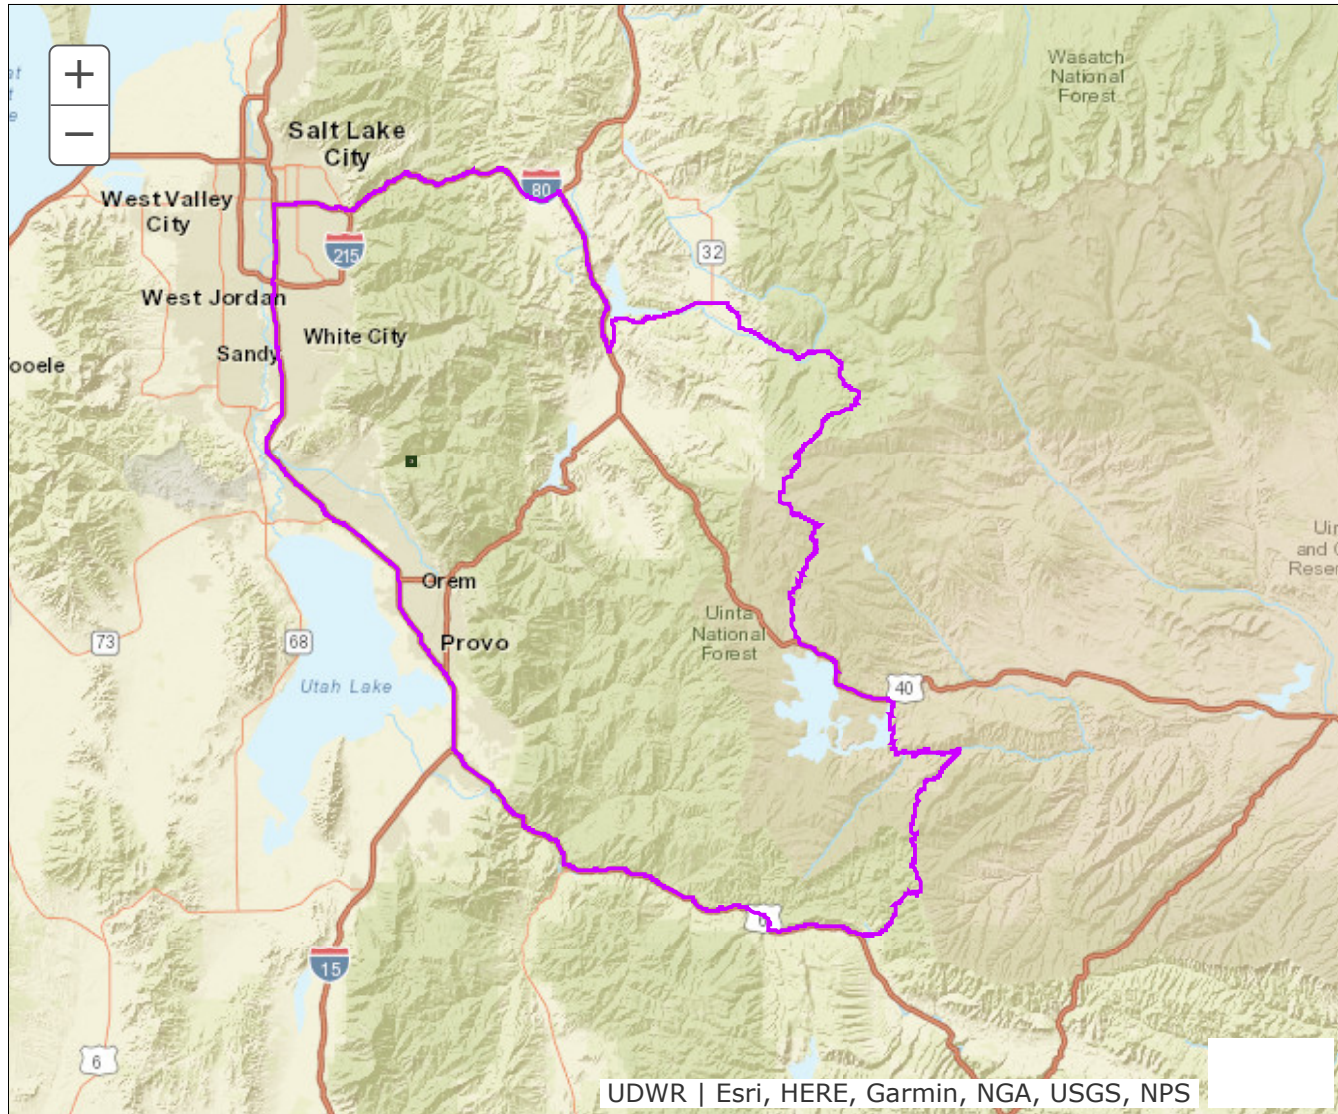

Updated Boundary: Duchesne and Wasatch counties—Boundary begins at US-40 and USFS road 082 (CO-OP Creek Road); north on USFS road 082 to USFS road 083; north on USFS road 083 to USFS road 054; northeast on USFS road 054 to USFS road 091; east on USFS road 091 to SR-35 at Wolf Creek Pass; east on SR-35 to county road #1 (Tabby Swale/Red Creek Road) near Hanna; west and south on this road to US-40 at Fruitland; west on US-40 to USFS road 082 (CO-OP Creek Road). Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Wasatch Mtns, West-Central

SPECIES Elk

Updated Boundary: Salt Lake, Summit, Utah and Wasatch counties—Boundary begins at I-80 and I-15 in Salt Lake City; east on I-80 to US-40; south on US-40 to SR-32; east on SR-32 to SR-35 at Francis; southeast on SR-35 to the USFS Road 054 (Mill Hollow road); southwest on this road to the USFS Road 083 (Lake Creek road); southeast on USFS Road 83 to USFS Road 82 (new Co-op Creek road); south on USFS Road 82 to US-40; east on US-40 to the USFS Road 090 (Soldier Creek Dam road); south on this road to the Soldier Creek Dam and the Strawberry River; southeast along this river to Beaver Creek; southwest along this creek to Big Beaver Spring and the USFS Road 081 (Reservation Ridge road); southeast on this road to the Right Fork of White River road; southwest on this road to US-6; northwest on US-6 to I-15; north on I-15 to I-80 in Salt Lake City. USGS 1:100,000 Maps: Duchesne, Nephi, Provo, Salt Lake City. Boundary questions? Call the Springville office, (801) 491-5678. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore,

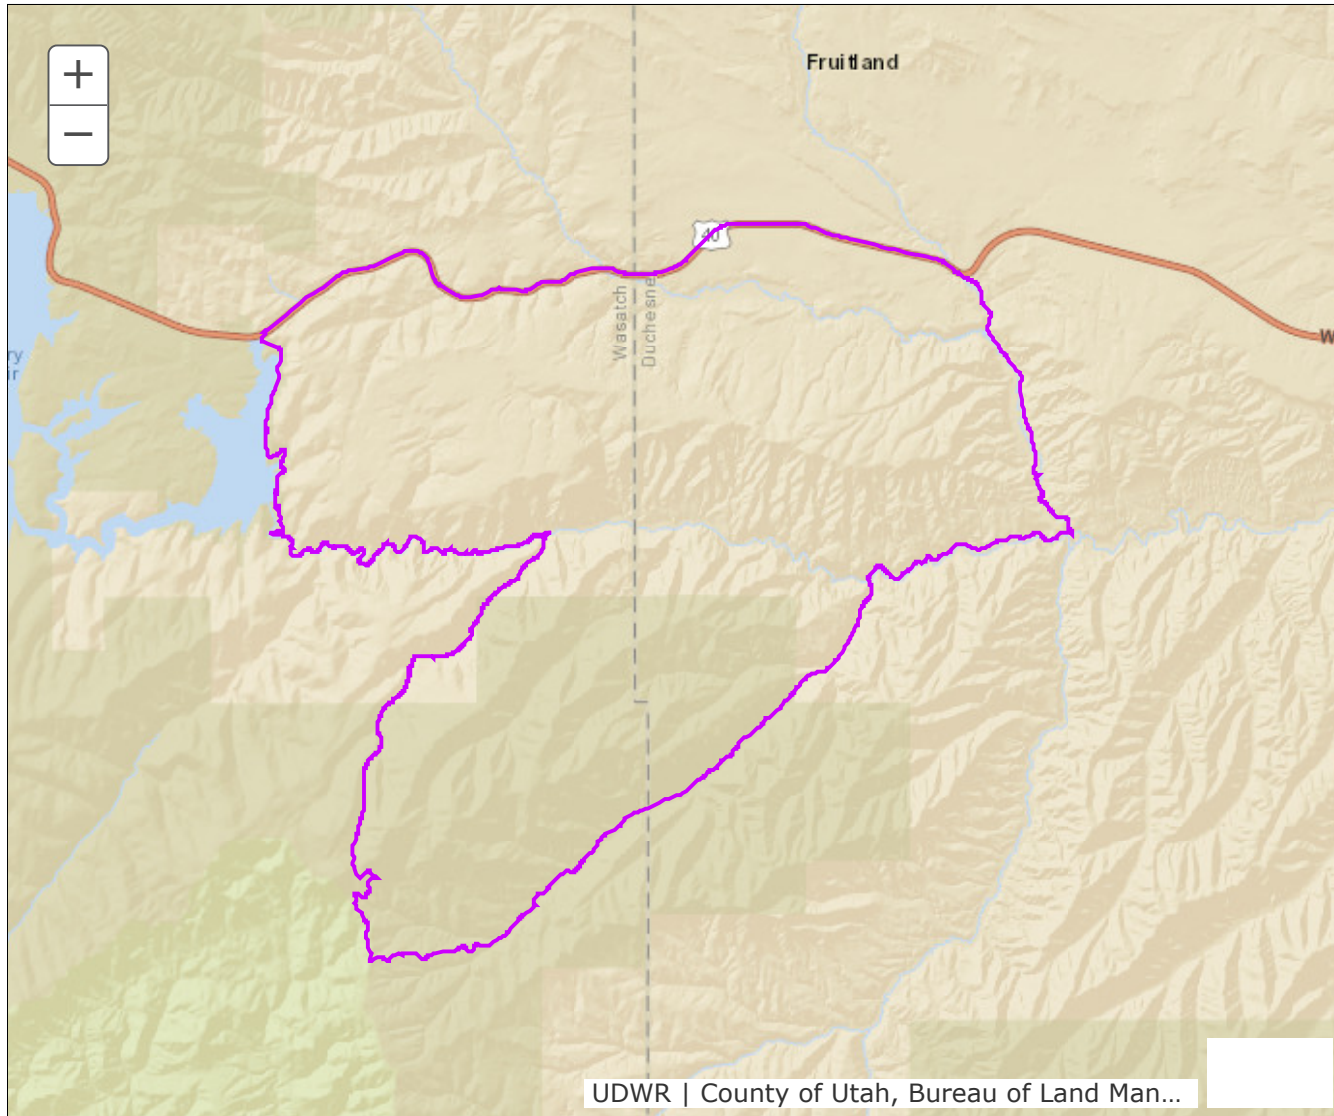

it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

BOUNDARY RECOMMENDATION

UNIT Wasatch Mtns, Wildcat/Timber Canyon

SPECIES Elk

Updated Boundary: Duchesne and Wasatch counties—Boundary begins at US-40 and USFS road 090 (Soldier Creek Dam road); south on the Soldier Creek Dam road to USFS road 481; south on USFS road 481 to USFS road 644; west then east on USFS road 644 to the Strawberry River; east along this river to Beaver Canyon; southwesterly along the bottom of this canyon to the Reservation Ridge road (USFS 10147); southerly on the Reservation Ridge Road to the Timber Canyon Road (USFS 10149); northeasterly on this road to the Strawberry River road; east on this road to the Red Creek road; north on this road to Hwy US-40; west on this road to the Soldier Creek Dam road. EXCLUDES ALL NATIVE AMERICAN TRUST LANDS WITHIN THIS BOUNDARY. Excludes all CWMUs. USGS 1:100,000 Maps: Duchesne, Provo. Boundary questions? Call Vernal office, 435-781-9453. - A hunting permit does not authorize the permit holder to hunt on Native American trust lands, CWMUs (unless you specifically have a permit for that CWMU) or on National Park lands. Furthermore, it is the responsibility of hunters to learn if hunting is allowed and what specific rules and regulations may apply on

National Monuments, National Wildlife Refuges, State Parks, UDWR Wildlife and Waterfowl Management areas, military installations and within the boundaries of cities, towns and municipalities. Written permission is required to hunt private lands.

MEMORANDUM

TO: Wildlife Board and Regional Advisory Committee Members
FROM: Darren DeBloois, Private Lands/Public Wildlife Coordinator
DATE: March 27, 2026
SUBJECT: **2026 Cooperative Wildlife Management Unit (CWMU) permit recommendations**

The following is a summary of the 2026 CWMU recommendations for antlerless permits/vouchers. There are three types of applications the DWR receives for CWMUs: new, renewal, and change applications.

- The DWR received antlerless 9 CWMU applications for 2026 and recommends approving all of them.
- The following table summarizes the permits we are recommending be approved by the Wildlife Board for 2026:

Species	Private	Public
Antlerless elk	32	172
Doe pronghorn	28	52
Antlerless deer	0	0
Cow Moose	2	4
Totals	62	228

MEMORANDUM

Date: March 26, 2026

To: Regional Advisory Council Members and Wildlife Board

From: Randy Oplinger, Assistant Chief, Native Aquatics

SUBJECT: Proposed Changes to R657-3c and R657-59

Since its discovery in Utah in the late 1990s, the invasive New Zealand Mud Snail (NZMS) has been classified as prohibited to protect fish and native spring snail populations. However, 25 years of data now show that NZMS have had no detectable impact on Utah's fish populations, though they remain a threat to imperiled native spring snails. There have been several Endangered Species Act listing petitions for native spring snail species. New Zealand mud snails have been identified in several listing petition reviews as a factor that may prompt the classification of native spring snails as either threatened or endangered species. The current prohibited status means that a variance from the Wildlife Board is required to stock privately owned fish ponds from hatcheries that have NZMS. The UDWR proposes amending Administrative Rules R657-3c and R657-59 to reclassify NZMS as controlled. This change will allow private fish ponds to be stocked by private hatcheries with NZMS with a certificate of registration. This expands the availability of fish for stocking onto private property and increases opportunities for private fish growers while maintaining necessary safeguards that will prevent the Federal listing of Utah's native spring snail species.

The UDWR is proposing the following changes to Administrative Rules R657-3c and R657-59

Rule R657-3c:

- Reclassify NZMS from prohibited to controlled

Rule R657-59a (Private Fish Ponds):

- No changes to stocking procedures if pond owners purchase fish from private aquaculture facilities that do not have New Zealand mud snails
- Establish opportunity for private pond owners to purchase fish from private aquaculture facilities that have New Zealand mud snails through a certificate of registration

- Increase clarity by adding a table (Table 1) that clarifies where COR's for Redear Sunfish will be approved in Utah. In short, they will only be approved in hydrologic units where they are allowed under various federal and multi-state stocking agreements
- Clarify that there is no grace period after a COR expires
- Clarify that a new COR is required when species are added to the COR (COR cannot be amended)
- Clarify that no COR is required to stock grass carp provided the other provisions of R657-59 are followed
- Expand the list of species that can be stocked in the Virgin River drainage to include black crappie, wiper, tiger trout, largemouth bass, triploid grass carp, and fertile rainbow trout (these additional species would require a COR).
- Made several minor administrative/technical updates to improve clarity

R657-59b (Short-Term Fishing Events):

- State that the New Zealand Mud Snail requirements proposed for R657-59a are applicable under R657-59b
- Made several minor administrative/technical updates to improve clarity

R657-59c (Aquaponics):

- State that the New Zealand Mud Snail requirements proposed for R657-59a are applicable under R657-59c
- Add black crappie, wiper, and tiger trout to the list of species that can be stocked to aquaponics facilities in the Virgin River drainage
- Made several minor administrative/technical updates to improve clarity

R657-59d (Institutional Aquaculture):

- State that the New Zealand Mud Snail requirements proposed for R657-59a are applicable under R657-59d
- Made several minor administrative/technical updates to improve clarity

R657-59e (Private Stocking):

- State that the New Zealand Mud Snail requirements proposed for R657-59a are applicable under R657-59e
- Made several minor administrative/technical updates to improve clarity

Table 1: A certificate of registration for redear sunfish may be approved in all hydrologic units within Utah except those identified in the table below.

R657. Natural Resources, Wildlife Resources.

R657-3c. Certification of Registration – Fish, Mollusks, and Crustaceans.

R657-3c-1. Purpose and Authority.

(1) Under Title 23, Wildlife Resources Code of Utah, this rule governs the collection, importation, possession, and propagation of aquatic animals in Utah.

R657-3c-2. Definitions.

(1) Terms used for purposes of this Rule are defined in Section ~~23-13-223a-1-101~~, Section R657-3a-2, and Subsection (2) through Subsection (10).

(2) "Aquaculture" means the husbandry, production, harvest, and use of aquatic organisms under controlled, artificial conditions.

(3) "Aquaculture facility" means any tank, canal, raceway, pond, off-stream reservoir, or other structure used for aquaculture as defined under Title 4, Chapter 37, the Aquaculture Act and the rules promulgated there under.

(4) "Aquatic animal" means a member of any species of fish, mollusk, or crustacean, including their eggs or sperm.

(5) "Baitfish" means aquatic animal species authorized for use as bait in Section R657-13-12.

(6) "Fee fishing facility" means a body of water used for holding or rearing fish to provide fishing for a fee or for pecuniary consideration or advantage as described in Title 4, Chapter 37, the Aquaculture Act.

(7) "Food fish" means aquatic animal species cultured or harvested from the wild for human consumption.

(8)(a) "Marine aquatic animal" means a member of any species of fish, mollusk, or crustacean, including their eggs and sperm, that spends its entire life cycle in a marine environment.

(b) "Marine aquatic animal" does not include:

(i) anadromous aquatic animal species;

(ii) species that temporarily or permanently reside in brackish water; and

(iii) species classified as invasive or nuisance by state or federal law.

(9)(a) "Ornamental aquatic animal species" means any species of fish, mollusk, or crustacean that is sold for display.

(b) "Ornamental aquatic animal species" does not mean:

(i) Sport fish;

(ii) Baitfish;

(iii) Aquatic animal species that are native to Utah;

(iv) Aquatic animals and marine aquatic animals prohibited for importation or possession under federal law; or

(v) Aquatic animals and marine aquatic animals listed as prohibited or controlled in Subsection R657-3c-5(1).

(10) "Sport fish" means aquatic animal species regulated for angling and harvest for recreation or sport from any state in the United States, excluding Peacock Bass (*Cichla ocellaris*).

R657-3c-5. Noncontrolled, Controlled, and Prohibited Species.

(1)(a) The noncontrolled, controlled, and prohibited aquatic animal species classification table entitled Table 3c-1, dated May 1, 2023 is hereby incorporated by reference.

(b) Table 3c-1 can be accessed in person or by contacting the Salt Lake division office located at 1594 West North Temple, Salt Lake City, Utah 84114, and on the division's Certificates of Registration webpage at <https://wildlife.utah.gov/licenses/certificates-of-registration.html>.

(2) A person may collect and possess live aquatic animals of controlled species if:

(a) They possess a valid certificate of registration;

(b) Successfully complete the Fish, Mollusk, and Crustacean education course;

(c) Satisfy the mandatory reporting requirements established in Section R657-3c-6; and

(d) The number of individuals of a species in a person's possession may not exceed the limits established under that person's certificate of registration.

(3) All native species and naturalized sportfish species are classified as controlled except those species that are classified as prohibited.

(4) Some species are classified as noncontrolled when stocked in a private fish pond, short-term fishing event, or aquaponics facility, as allowed in Rule R657-~~5959a~~.

(5) Triploid Grass Carp can be stocked as allowed in Rule R657-~~5959a~~.

(6)(a) Exemptions may be granted to educational, scientific, and commercial organizations.

(b) An individual or entity must acquire a certificate of registration before engaging in an educational, scientific, or commercial use activity involving the collection or possession of a controlled or prohibited species.

(i) A scientific use certificate of registration is valid for the time-period identified in the research proposal and approved by the division.

(ii) Educational use certificates of registration are valid for 3 years and authorize wildlife related instructional activities identified on the certificate of registration.

(iii) Commercial use certificates of registration are valid for 3 years and authorize commercial use activities identified on the certificate of registration.

R657-3c-9. Collection, Transportation, Possession and Propagation of Aquatic Animal Species.

(1) A person shall obtain a certificate of registration before collecting, transporting, possessing, or propagating any aquatic animal species or aquatic animal species parts classified as prohibited or controlled, except as otherwise provided in this rule, statute, or rules and orders of the Wildlife Board.

(2) A certificate of registration is not required to collect, transport, possess, or propagate any aquatic animal species classified as noncontrolled.

(3) Possessed live aquatic animals must be housed where:

(a) there is no risk that the aquatics animals can escape into a public waterway or waterbody; and

(b) there is no risk that water and waste discharged from the holding tank can enter a public waterway or waterbody.

(4) Possessed aquatic animal species cannot be released into the wild regardless of whether they are classified as noncontrolled, controlled, or prohibited.

R657-3c-11. Transportation of Aquatic Animal Species.

~~(1) A person shall obtain a certificate of registration before transporting any aquatic animal species or aquatic animal species parts classified as prohibited or controlled, except as otherwise provided in this rule, statute, or rules and orders of the Wildlife Board.~~

~~(2) A certificate of registration is not required to transport any aquatic animal species classified as nonecontrolled.~~

R657-3c-12. Possession of Aquatic Animal Species.

~~(1) A person shall obtain a certificate of registration before possessing any aquatic animal species or aquatic animal species parts classified as prohibited or controlled, except as otherwise provided in this rule, statute, or rules and orders of the Wildlife Board.~~

~~(2) A certificate of registration is not required to possess any aquatic animal species classified as nonecontrolled.~~

R657-3c-13. Propagation of Aquatic Animal Species.

~~(1) A person shall obtain a certificate of registration before propagating any aquatic animal species classified as prohibited or controlled, except as otherwise provided in this rule, statute, or rules and orders of the Wildlife Board.~~

~~(2) A certificate of registration is not required to propagate any aquatic animal species classified as nonecontrolled.~~

R657-3c-14. Brine Shrimp and Brine Shrimp Eggs.

(1) A certificate of registration is not required to collect, transport, or possess brine shrimp and brine shrimp eggs for personal use, provided:

(a) the brine shrimp and brine shrimp eggs are collected, transported, and possessed together with water in a container no larger than one gallon;

(b) no more than a one gallon container of brine shrimp and brine shrimp eggs, including water, is collected during any consecutive seven day period; and

(c) the brine shrimp or brine shrimp eggs following possession are not released live into the Great Salt Lake, Sevier River, or any of their tributary waters.

Table 3c-1

Except otherwise listed, all species are presumed prohibited. All species not listed will require an assessment before collection, importation, or possession will be authorized.

Noncontrolled Fishes, Mollusks, and Crustaceans		
Common Name	Scientific Classification	Comments
Any ornamental aquatic animal species except those classified as prohibited		
Any marine aquatic animal species except those classified as prohibited		

Controlled Fishes		
Common Name	Scientific Classification	Comments
Bear Lake Sculpin	<i>Cottus extensus</i>	
Bear Lake Whitefish	<i>Prosopium abyssicola</i>	
Black Crappie	<i>Pomoxis nigromaculatus</i>	
Bluegill	<i>Lepomis macrochirus</i>	
Bluehead Sucker	<i>Catostomus discobolus</i>	
Bonneville Cisco	<i>Prosopium gemmifer</i>	
Bonneville Whitefish	<i>Prosopium spilonotus</i>	
Brook Trout	<i>Salvelinus fontinalis</i>	
Brown Trout	<i>Salmo trutta</i>	
Bullhead (all species)	<i>Ameiurus sp</i>	
Channel Catfish	<i>Ictalurus punctatus</i>	
Common Carp	<i>Cyprinus carpio</i>	
Cutthroat Trout	<i>Oncorhynchus clarkii</i>	
Desert Sucker	<i>Catostomus clarkii</i>	
Fathead Minnow	<i>Pimephales promelas</i>	
Flannelmouth Sucker	<i>Catostomus latipinnis</i>	
Lake Trout	<i>Salvelinus namaycush</i>	
Largemouth Bass	<i>Micropterus salmoides</i>	
Least Chub	<i>Lotichthys phlegethontis</i>	
Longnose Dace	<i>Rhinichthys cataractae</i>	
Mottled Sculpin	<i>Cottus bairdii</i>	
Mountain Sucker	<i>Catostomus platyrhynchus</i>	
Mountain Whitefish	<i>Prosopium williamsoni</i>	
Northern Leatherside Chub	<i>Lepidomeda copei</i>	
Northern Pike	<i>Esox lucius</i>	
Paiute Sculpin	<i>Cottus beldingii</i>	
Rainbow Trout	<i>Oncorhynchus mykiss</i>	
Redside Shiner	<i>Richardsonius balteatus</i>	
Roundtail Chub	<i>Gila robusta</i>	
Smallmouth Bass	<i>Micropterus dolomieu</i>	
Southern Leatherside Chub	<i>Lepidomeda aliciae</i>	
Speckled Dace	<i>Rhinichthys osculus</i>	
Splake Trout	<i>Salvelinus namaycush x Salvelinus fontinalis</i>	
Striped Bass	<i>Morone saxatilis</i>	
Tiger Muskellunge	<i>Esox masquinongy x Esox lucius</i>	
Tiger Trout	<i>Salmo trutta x Salvelinus fontinalis</i>	
Utah Chub	<i>Gila atraria</i>	
Virgin Spinedace	<i>Lepidomeda mollispinis</i>	

Walleye	<i>Sander vitreus</i>	
Western Mosquitofish	<i>Gambusia affinis</i>	
White Bass	<i>Morone chrysops</i>	
White Crappie	<i>Pomoxis annularis</i>	
Wiper	<i>Morone saxatilis x Morone chrysops</i>	
Yellow Perch	<i>Perca flavescens</i>	

Prohibited Fishes		
Common Name	Scientific Classification	Comments
Alewife	<i>Alosa pseudoharengus</i>	
Asian Swamp Eel	<i>Monopterus albus</i>	
Bighead Carp	<i>Hypophthalmichthys nobilis</i>	
Black Carp	<i>Mylopharyngodon piceus</i>	
Bonytail	<i>Gila elegans</i>	
Bowfin	<i>Amia calva</i>	
Brook Stickleback	<i>Culaea inconstans</i>	
Burbot	<i>Lota lota</i>

Rudd	<i>Scardinius erythrophthalmus</i>	
Sand Shiner	<i>Notropis stramineus</i>	
Sea Lamprey	<i>Petromyzon marinus</i>	

Silver Carp	<i>Hypophthalmichthys molitrix</i>	
South American parasitic catfish	Family Cetopsidae and Family Trichomycteridae	All species
Tiger Fish	<i>Hydrocynus vittatus</i>	
Tench	<i>Tinca tinca</i>	
Tilapia	Genus <i>Coelotilapia</i> , Genus <i>Coptodon</i> , Genus <i>Heterotilapia</i> , Genus <i>Oreochromis</i> , and Genus <i>Sarotherodon</i>	All species
Virgin River Chub	<i>Gila seminuda</i>	
Walking Catfish	<i>Clarias batrachus</i>	
Woundfin	<i>Plagopterus argentissimus</i>	
Zander	<i>Sander lucioperca</i>	
All fish species that are not listed as noncontrolled, controlled, or prohibited are presumed prohibited		

Controlled Mollusks		
Common Name	Scientific Classification	Comments
Ambersnails	Genus <i>Oxiloma</i> , Genus <i>Catinella</i> and Genus <i>Succinea</i>	All species
Brown hive	<i>Euconulus fulvus</i>	
Collumns and Daggers	Genus <i>Columella</i> , Genus <i>Pupilla</i> and Genus <i>Pupoides</i>	All species
Creeping ancyloid	<i>Ferrissia rivularis</i>	
Desert tryonia	<i>Tryonia porrecta</i>	
Freshwater clams	Genus <i>Musculium</i> , Genus <i>Pisidium</i> , and Genus <i>Sphaerium</i>	All species
Gems	Genus <i>Hawaiiia</i> and Genus <i>Ogaridaiscus</i>	All species
Glass Snails	Genus <i>Glyphyalinia</i> and Genus <i>Nesovitrea</i>	All species
Glosses	Genus <i>Zonitoides</i>	All species
Green river Pebblesnail	<i>Fluminicola coloradensis</i>	
Mexican coil	<i>Helicodiscus eigenmanni</i>	
Mountain snails	Genus <i>Oreohelix</i>	All species
Mud Amnicola	<i>Amnicola limosus</i>	
<u>New Zealand Mud Snail</u>	<u><i>Potamopyrgus antipodarum</i></u>	
Physas	Genus <i>Aplexa</i> , Genus <i>Physa</i> and Genus <i>Physella</i>	All species
Rams-horns and Gyros	Genus <i>Gyraulus</i> , Genus <i>Helisoma</i> , Genus <i>Menetus</i> , Genus <i>Planorbella</i> and Genus <i>Promentus</i>	All species
Rocky mountain duskysnail	<i>Colligyrus greggi</i>	
Small Spot Disks	Genus <i>Disk</i>	All species

Snaggletooths and Vertigo	Genus <i>Gastrocopta</i> and Genus <i>Vertigo</i>	All species
Springsnails	Genus <i>Pyrgulopsis</i>	All species
Valvatas	Genus <i>Valvata</i>	All species
Western Glass-Snail	<i>Vitrina pellucida</i>	
Western pearlshell	<i>Margaritifera falcata</i>	
Floater	Genus <i>Anodonta</i>	All species
Pondsnails and Marshsnails	Genus <i>Galba</i> , Genus <i>Lymnaea</i> sp and Genus <i>Stagnicola</i>	All species
Spruce snail	<i>Microphysula ingersolli</i>	
Vallonias	Genus <i>Vallonia</i>	All species

Prohibited Mollusks		
Common Name	Scientific Classification	Comments
Asian Clam	<i>Corbicula fluminea</i>	
Channeled Apple Snail	<i>Pomacea canaliculata</i>	
Brown Garden Snail	<i>Cornu asperum</i>	
Cellar Glass-Snail	<i>Oxychilus cellarius</i>	
Chinese Mystery Snail	<i>Cipangopaludina chinensis</i>	
Decollate Snail	<i>Rumina decollata</i>	
Faucet Snail	<i>Bithynia tentaculata</i>	
Giant Floater	<i>Pyganodon grandis</i>	
Giant Gardenslug	<i>Limax maximus</i>	
Golden Mussel	<i>Limnoperna fortunei</i>	
Gray Fieldslug	<i>Deroceras reticulatum</i>	
<u>New Zealand Mud Snail</u>	<u><i>Potamopyrgus antipodarum</i></u>	
Paper Pondshell	<i>Lymnaea stagnalis</i>	
Quagga Mussel	<i>Dreissena rostriformis</i>	
Red Rim Melania	<i>Melanoides tuberculata</i>	
Southern Flatcoil	<i>Polygyra cereolus</i>	
Veined Rapa Whelk	<i>Rapana venosa</i>	
Zebra Mussel	<i>Dreissena polymorpha</i>	
All mollusk species that are not listed as noncontrolled, controlled, or prohibited are presumed prohibited		

Controlled Crustaceans		
Common Name	Scientific Classification	Comments
Brine Shrimp	Genus <i>Artemia</i>	All species
Northern (Virile) Crayfish	<i>Faxonius virilis</i>	
Pilose Crayfish	<i>Pacifastacus gambelii</i>	

Prohibited Crustaceans		
Common Name	Scientific Classification	Comments
Asian Shore Crab	<i>Hemigrapsus sanguineus</i>	
Chinese Mitten Crab	<i>Eriocheir sinensis</i>	
European Green Crab	<i>Carcinus maenas</i>	
Fishhook Water Flea	<i>Cercopagis pengoi</i>	
Killer Shrimp	<i>Dikerogammarus villosus</i>	
Marbled Crayfish	<i>Procambarus virginalis</i>	
Marron Crayfish	<i>Cherax tenuimanus</i>	
Redclaw Crayfish	<i>Cherax quadricarinatus</i>	
Rusty Crayfish	<i>Orconectes rusticus</i>	
Signal Crayfish	<i>Pacifastacus leniusculus</i>	
Spiny Water Flea	<i>Bythotrephes longimanus</i>	
Yabby Crayfish	<i>Cherax destructor</i>	
All crustacean species that are not listed as noncontrolled, controlled, or prohibited are presumed prohibited		

KEY: wildlife, animal protection, import restrictions, zoological animals

Date of Enactment or Last Substantive Amendment:

Notice of Continuation: New Rule

R657. Natural Resources, Wildlife Resources

R657-59a. Private Fish Ponds.

R657-59a-1. Purpose and Authority.

(1) Under the authority of Sections 23A-9-305 and 23A-9-202, this rule provides the standards and procedures for private fish ponds.

(2) Fee fishing facility and private aquaculture facility licensing is regulated by the Utah Department of Agriculture and Food under Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act, and Rule R58-17.

(3) A person operating a private fish pond must also comply with all requirements established by Title 4, the Utah Agricultural Code and all rules promulgated by the Utah Department of Agriculture and Food, including:

(a) requirements for the importation of aquaculture products into Utah; and

(b) requirements for fish health approval for aquaculture products.

(4) Any violation of, or failure to comply with Title 23A, the Wildlife Resources Code of Utah, this rule, or any specific requirement contained in a certificate of registration issued pursuant to this rule may be grounds for suspension of the certificate of registration or denial of future certificates of registration, as determined by the division.

R657-59a-2. Definitions.

(1) "Aquaculture" means the husbandry, production, harvest, and use of aquatic organisms undercontrolled, artificial conditions.

(2) "Aquaculture facility" means any facility used for the husbandry, production, harvest, and use of aquatic organisms under controlled, artificial conditions that holds a valid aquaculture facility license from the Utah Department of Agriculture and Food.

(3)(a) "Aquaculture product" means privately purchased, domestically produced aquatic organisms, or their gametes.

(b) "Aquaculture product" does not mean aquatic wildlife obtained from the wild, aquatic wildlife produced by the state or federally owned aquaculture facilities, or ornamental aquatic animal species.

(4) "Aquaponics facility" means a facility that combines fish and plant culture for a non-commercial purpose where:

(a) all water flowing into or through the facility is completely isolated from any other water source via a self-contained water transport system;

(b) all water and waste flowing from the facility is discharged into a permitted sewer or septic system or there is no risk that water and waste discharged from the facility can enter a public waterway or waterbody;

(c) the aquatic animals held within the facility are used for non-commercial purposes only;

(d) no aquatic animals or their gametes are transported from the facility alive; and

(e) the primary use of the facility is for food production and not for the general display of fish in aquaria.

(5) "Aquatic wildlife" for the purposes of this chapter means:

(a) fish, mollusk, or crustacean species that are spawned and hatched in public waters, state or federal aquaculture facilities, and;

(b) fish, mollusk, or crustacean species that escape a private fish pond into a public water.

(6) "Certified sterile aquaculture product" means any fish or gamete that originates from a health certified source, as described in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act and is incapable of reproduction due to triploidy or hybridization, and is confirmed as sterile using the protocol described in Sections R657-59-7 and Section R657-59a-5.

(7) "Division" means the Utah Division of Wildlife Resources.

(8) "FEMA" means Federal Emergency Management Administration.

(9) "HUC" or "Hydrologic Unit Code" means a cataloging system developed by the U.S. Geological Survey and the Natural Resource Conservation Service to identify watersheds in the United States.

(10) "Institutional aquaculture" means aquaculture engaged in by a school, college, university, or other educational program, or public agency other than the division.

(11) "Lake" means a naturally formed, perennial or intermittent, non-flowing waterbody that collects and keeps water in quantity for use.

(12) "Lot" means fish of the same species that are subject to a health inspection under the Aquatic Animal Health Inspection Policy in Subsection R58-17-2 (26), which establishes guidelines for lot designation for salmonid and non-salmonid fish.

(13) "Natural stream channel" means a body of water that maintains continuous, seasonal or potential flow, as determined by the division.

(14)(a) "Ornamental aquatic animal species" means any species of fish, mollusk, or crustacean that is cultured for display and then sold in the United States' aquarium industry for display.

(b) "Ornamental aquatic animal species" does not include:

(i) fresh water;

(A) sport fish - aquatic animal species regulated for angling or harvest for recreation or sport;

(B) baitfish - aquatic animal species authorized for use as bait in Section R657-13-12, or any other species used by anglers as bait in sporting fishing;

(C) food fish - aquatic animal species cultured or harvested from the wild for human consumption; or

- (D) native species; or
 - (ii) aquatic animals and marine aquatic animals prohibited for importation or possession by any state, federal, or local law; or
 - (iii) aquatic animals and marine aquatic animals listed as prohibited or controlled in Sections R657-3-22 and R657-3-23.
- (15) "Private fish pond" means a standing body of water or any fish culture system which:
- (a) is not located on a natural lake, natural flowing stream, or reservoir constructed on a natural stream channel;
 - (b) is contained entirely on privately owned land; and
 - (c) is used for holding or rearing fish for a private, non-commercial purpose.
- (16) "Purchase" means to buy, or otherwise acquire or obtain through barter, exchange, or trade for monetary consideration or advantage.
- (17) "Reservoir" means an artificially constructed, non-flowing waterbody that is used to collect and keep water in quantity for use built by damming a natural stream channel.
- (18) "Salmonid" means any fish belonging to the trout or salmon family.
- (19) "Short-term fishing event" means an event where:
- (a) privately acquired fish are held or confined for a period not to exceed ten days in a temporary event tank;
 - (b) for the purposes of providing a recreational opportunity; and
 - (c) no fee is charged as a requirement to fish.
- (20) "Sterile" means the inability to reproduce.

R657-59a-3. Aquaculture Facility Requirements

- (1) An aquaculture facility that possesses a valid license from the Utah Department of Agriculture and Food may stock aquatic wildlife into private fish ponds in Utah, provided:
- (a)(i) The purchaser of the aquatic wildlife possesses a valid private fish pond certificate of registration as issued by the division; or
 - (ii) the species being stocked meets the criteria where a certificate of registration is not required as described in Section R657-59a-5;
 - (b) Any triploid aquaculture product that are stocked originate from a lot that has been tested and meet the requirements specified in Subsection R657-59a-~~9-10~~(3); and
 - (c) The aquaculture facility provides the purchaser of any triploid fish a copy of the letter issued by the division certifying that the stocked fish originate from a lot that meets the requirements specified in Subsection R657-59a-~~9-10~~(3).
- (2) The division may collect aquatic wildlife from private fish ponds to verify that the species and ploidy meet the requirements of this rule.
- (3) (i) It is unlawful for an aquaculture facility to release aquatic wildlife that violates the terms of Rule R657-59a or other rules established under Title 23A, the Wildlife Resources Code of Utah, and the Wildlife Board.
- (ii) Violation of this rule may result in a violation of Sections 23A-5-305 and 4-37-601.

R657-59a-4. Certificate of Registration Not Required.

- (1) A certificate of registration is not required to receive and stock an aquaculture product in a private fish pond, provided:
- (a) the pond is not a natural lake, natural flowing stream, or reservoir constructed on a natural flowing stream;
 - (b) the private fish pond satisfies the screening requirements established in Section R657-59a-~~79~~;
 - (c) the species, sub-species, and sterility of the aquaculture product received is authorized for stocking in the area where the private fish pond is located consistent with the requirements in Section R657-59a-~~910~~;
 - (d) the aquaculture product is:
 - (i) delivered to the private fish pond by a licensed aquaculture facility as defined in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act; or
 - (ii) the owner, lessee, or operator of the private fish pond:
 - (A) possesses documentation from the aquaculture facility verifying the information itemized in Subsection R657-59a-~~67~~(4)(b) during transport; and
 - (B) assumes legal responsibility for directly transporting the fish from the aquaculture facility to the private fish pond;
 - (e) the owner, lessee, or operator of the private fish pond obtains from the aquaculture facility providing the aquaculture product a valid health approval number issued by the Utah Department of Agriculture and Food pursuant to Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act; and
 - (f) the owner or operator of the private fish pond provides the aquaculture facility a signed written statement that the pond and aquaculture product received are in compliance with this section.
- (2) A certificate of registration is required to receive and stock an aquaculture product in a private fish pond when the criteria described in Subsection (1) are not met.

R657-59a-5. Certified Sterile Aquaculture Product.

- (1) For the purposes of this rule, the following hybrid fish species are considered certified sterile aquaculture product:

- (a) Splake;
- (b) Tiger Muskellunge;
- (c) Tiger Trout; and
- (d) Wiper.

(2) ~~Tripl~~Triploid grass carp ~~is~~are only considered ~~a certified~~ sterile aquaculture product if documentation is submitted by an aquaculture facility to the division that demonstrates that each fish is tested individually and meets the standards of the U.S. Fish and Wildlife Service National Triploid Grass Carp Inspection and Certification Program. In addition, the same documentation must be provided by the aquaculture facility to customers who purchase triploid grass carp.

(3) All other species not specified in Subsections R657-59a-5 (1) and (2) may be considered certified sterile aquaculture product if they are triploid and the following procedures are followed:

(a) fish samples from each lot of triploid fish at an aquaculture facility are collected, prepared, and submitted to a certified laboratory by an independent veterinarian, certified fish health professional, or other professional approved by the division or Utah Department of Agriculture and Food;

(b) certified laboratories shall be limited to independent, professional laboratories capable of reliably testing fish sterility and approved by the division;

(c) sterility shall be determined by sampling and testing 60 fish from each lot using either flow cytometry, particle analysis, or karyotyping;

(d) at least 95% of the fish test triploid; and

(e) the professional laboratory submitted the testing results directly to the division and the division ~~issued~~will issue the aquaculture facility a letter verifying that the lot meets the criteria established in Subsections R657-59a-5-(3)(a) through (d). A copy of this letter must be provided to all customers who purchase triploid fish.

(4) An aquaculture facility that receives certified sterile aquaculture product from another aquaculture facility is not required to conduct additional sterility testing before stocking the aquaculture product, provided the division is given documentation demonstrating that the fish meet the requirements of Subsection R657-59a-5 (3) and the sterile fish are kept segregated from other fertile fish.

R657-59a-9. Species and Reproductive Capabilities of Aquaculture Product Authorized by Area for Stocking in Private Fish Ponds

(1) Aquaculture product may be stocked into a private fish pond without a certificate of registration provided the pond stocked with aquaculture product is outside the Virgin River drainage or the 100 year floodplain of the Colorado River and its tributaries; and the aquaculture product stocked belongs to one of the following species:

~~(a) In all drainages except the Virgin River drainage:~~

~~(b) (a) any species defined as certified sterile aquaculture product as established in Subsection R657-59a-5 (1); and~~

~~(b) (b) triploid individuals from the following species, provided the stocked aquaculture product is from a lot that meets the requirements specified in ~~Subsection~~Subsections R657-59a-5-(2), R657-59a-5(3) and R657-59a(4):~~

(i) Bluegill;

(ii) Black Crappie;

(iii) Yellow Perch;

(iv) Grass Carp;

~~(v) Brook Trout;~~

~~(vi) Brown Trout;~~

~~(vii) Lake Trout; and~~

~~(viii) Rainbow Trout.~~

(1) In the Virgin River Drainage, only Triploid Rainbow Trout may be stocked without a certificate of registration. Black Crappie, Wiper, Tiger Trout, Largemouth Bass, triploid Grass Carp, and fertile Rainbow Trout may be stocked if a certificate of registration is obtained from the division pursuant to Section R657-59a-12.

(2) Fertile rainbow trout and brown trout may be stocked into all waters without a certificate of registration except those identified in a table entitled Table 59-~~4~~2, dated August 14, 2023 is incorporated by reference. Table 59-~~4~~2 can be accessed in person or by contacting the Salt Lake division office located at 1594 West North Temple, Salt Lake City, Utah 84114, and on the division's Certificates of Registration webpage at <https://wildlife.utah.gov/licenses/certificates-of-registration.html>, copy currently available at: <https://docs.google.com/document/d/16KMMSp5pZnvZforuCdWwzF9tRdiEObqFW-mvTqAsWE/edit?usp=sharing>

~~(2)(a) (3) Redear sunfish may only be stocked with a certificate of registration into waters within the watersheds identified in a table entitled Table 59-2, dated (insert date) and is incorporated by reference. Table 5-9-2 can be accessed in person or by contacting the Salt Lake division office located at 1594 West North Temple, Salt Lake City, Utah 89414, and on the division's Certificates of Registration webpage at: heeps://wildlife.utah.gov/licenses/certificates-of-registration.html, copy currently available at: (insert link once generated).~~

~~(4) A certificate of registration must be obtained from the division pursuant to Section R657-59a-11 before stocking any private fish pond with any species or sterility of aquaculture product not specifically authorized in this Section.~~

~~(b)(i)~~

R657-59a-10. Stocking from Hatcheries with New Zealand Mud Snails.

~~(1) A certificate of registration application to stock triploid grass carp for control of aquatic weeds will be evaluated based upon:~~

~~(1) adequacy of screening must be obtained from the division before stocking any aquaculture product that originates from an aquaculture facility that is known to contain the grass carp; and New Zealand mud snails (*Potamopyrgus antipodarum*)~~

~~(2) potential for conflict with division management objectives or detrimental interactions with other species of fish or wildlife.~~

~~(ii) To import, transport, or stock live grass carp, each fish must be verified as being sterile triploid by the U.S. Fish and Wildlife Service.~~

~~(2) Provided all other provisions of this rule are met, an additional certificate of registration is not required to stock aquaculture products from facilities that are free from New Zealand mud snails.~~

R657-59a-1011. Fishing License and Transportation of Dead Aquaculture Product.

(1) A fishing license is not required to:

(a) take fish from a legally recognized private fish pond; or

(b) to transport dead aquaculture product from a private fish pond, provided that the person in possession of the dead aquaculture product can provide the name, address, and phone number of the owner of the private fish pond if requested by the division.

R657-59a-1412. Application for a Fish Stocking Certificate of Registration; Application Criteria; Amendment of Certificate of Registration.

(1) The following persons may apply for a certificate of registration for a private fish pond:

(a) The owner of the private fish pond;

(b) The president of a homeowners association, if the pond is on homeowners association property; or

(c) An individual who is a full-time employee of the private pond owner, who represents the pond owner or is a property manager.

(2)(a) A person may apply for a certificate of registration for a fish stocking activity by submitting an application with the required handling and inspection fee following the instructions provided at: <https://wildlife.utah.gov/private-ponds.html>

(b) The application may require up to 30 days for processing.

(c) The division may require a site inspection of the stocking location be performed to confirm compliance with the provisions found in this rule.

(d) The division may deny an application when:

(i) the application is incomplete, filled out incorrectly, or submitted without the appropriate fee;

(ii) receiving or stocking the aquaculture product or aquatic wildlife may:

(A) violate any federal, state or local law or any agreement between the state and another party;

(B) negatively impact native wildlife species listed by the division as sensitive or by the federal government as threatened or endangered;

(C) pose an identifiable adverse threat to other wildlife species or their habitat;

(D) pose an identifiable adverse impact to the division's game fish stocking regimes or wildlife management objectives; or

(iii) the applicant has violated Title 23A, the Wildlife Resources Code of Utah, Title R657, a guidebook of the Wildlife Board, a certificate of registration, an order of the Wildlife Board, or any other law related to the applicant's ability to responsibly carry out the stocking activity.

(3) A certificate of registration for a private fish pond is effective 5 years from the date of issuance as identified on the certificate of registration. Certificates of registration cannot be renewed after the expiration date identified on the certificate of registration has passed and a new certificate of registration must be granted after the expiration date. During the effective period of the certificate of registration, the certificate of registration holder may stock any of the aquaculture products approved by the certificate of registration at the locality identified on the certificate of registration so long as all stipulations under Rule R657-59a are adhered to, unless the certificate of registration is:

(a) amended by the division at the request of the certificate of registration holder. The division cannot amend certificates of registration to add additional species. The addition of species requires the issuance of a new certificate of registration. Amendments do not change the expiration date of a certificate of registration and the original expiration date will remain after an amendment;

(b) terminated or modified by the division pursuant to Section R657-59-13; or

(c) suspended by the division or a court pursuant to Section 23A-4-1106.

R657-59a-1213. Expiration and Termination of Certificates of Registration.

If a certificate of registration expires or the division suspends or terminates the certificate of registration, all live aquaculture products permitted under the certificate of registration shall be disposed of in a manner that complies with all federal, state, and local laws.

R657-59a-1314. Prohibited Activities.

(1) Live aquatic wildlife may not be collected from the wild and used in stocking activities unless authorized by the Wildlife Board and Fish Health Policy Board.

(2) A person may not release or transport any live aquaculture product received or held under this rule without prior written authorization of the division and the Fish Health Policy Board.

R657-59a-1415. Administrative Appeal Procedures.

(1) An aggrieved party to a final division action under this rule may file a request for agency action with the division under Rule R657-2.

(2) The Director or a designee appointed by the Director shall be the presiding officer for any adjudicative proceedings initiated under this rule.

R657-59b. Short-Term Fishing Events.

R657-59b-1. Purpose and Authority.

(1) Under the authority of Sections 23A-9-305 and 23A-9-203, this rule provides the standards and procedures for short-term fishing events.

(2) This rule does not regulate fee fishing or private aquaculture as provided in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act and Rule R58-17.

(3) A person operating a short-term fishing event must also comply with all requirements established by Title 4, the Utah Agricultural Code and all rules promulgated by the Utah Department of Agriculture and Food, including:

(a) requirements for the importation of aquaculture products into Utah; and

(b) requirements for fish health approval for aquaculture products.

(4) Any violation of, or failure to comply with, Title 23A, the Wildlife Resources Code of Utah, this rule, or any specific requirement contained in a certificate of registration issued pursuant to this rule may be grounds for suspension of the certificate or denial of future certificates, as determined by the division.

R657-59b-2. Definitions.

(1)(a) "Aquaculture product" means privately purchased, domestically produced aquatic organisms, or their gametes.

(b) "Aquaculture product" does not mean aquatic wildlife obtained from the wild, aquatic wildlife produced by the state or federally owned aquaculture facilities, or ornamental aquatic animal species.

(2) "Aquaponics facility" means a facility that combines fish and plant culture for a non-commercial purpose where:

(a) all water flowing into or through the facility is completely isolated from any other water source via a self-contained water transport system or there is no risk that water and waste discharged from the facility can enter a public waterway or waterbody;

(b) all water and waste flowing from the facility is discharged into a permitted sewer or septic system;

(c) the aquatic animals held within the facility are used for non-commercial purposes only;

(d) no aquatic animals or their gametes are transported from the facility alive; and

(e) the primary use of the facility is for food production and not for the general display of fish in aquaria.

(3)(a) "Event tank" means a tank, container, or vessel used to hold fish during a short-term fishing event.

(b) "Event tank" does not mean a tank, container, or vessel that is mounted to a vehicle and used to transport fish to a destination.

(4) "Institutional aquaculture" means aquaculture engaged in by a school, college, university, or other educational program, or public agency other than the division.

(5) "Lake" means a naturally formed, perennial or intermittent, non-flowing waterbody that collects and keeps water in quantity for use

(6) "Natural stream channel" means a body of water that maintains continuous, seasonal or potential flow, as determined by the division.

(7)(a) "Ornamental aquatic animal species" means any species of fish, mollusk, or crustacean that is cultured for display and then sold in the United States' aquarium industry for display.

(b) "Ornamental aquatic animal species" does not include:

(i) fresh water;

(A) sport fish - aquatic animal species regulated for angling or harvest for recreation or sport;

(B) baitfish - aquatic animal species authorized for use as bait in Section R657-13-12, or any other species used by anglers as bait in sporting fishing;

(C) food fish - aquatic animal species cultured or harvested from the wild for human consumption; or

(D) native species; or

(ii) aquatic animals and marine aquatic animals prohibited for importation or possession by any state, federal, or local law; or

(iii) aquatic animals and marine aquatic animals listed as prohibited or controlled in Sections R657-3-22 and R657-3-23.

(8) "Private fish pond" means a standing body of water or any fish culture system which:

(a) is not located on a natural lake, natural flowing stream, or reservoir constructed on a natural stream channel;

(b) is contained entirely on privately owned land; and

(c) is used for holding or rearing fish for a private, non-commercial purpose.

(9) "Reservoir" means an artificially constructed, non-flowing waterbody that is used to collect and keep water in quantity for use built by damming a natural stream channel.

(10) "Short-term fishing event" means any event where:

(a) privately acquired fish are held or confined for a period not to exceed ten days in a temporary event tank;

(b) for the purposes of providing a recreational opportunity; and

(c) no fee is charged as a requirement to fish.

R657-59b-3. Aquaculture Facility Requirements

(1) An aquaculture facility that possesses a valid license from the Utah Department of Agriculture and Food may stock aquatic wildlife for short-term fishing events in Utah, provided:

(a)(i) The purchaser of the aquatic wildlife possesses a valid short-term fishing event certificate of registration as issued by the division; or

(ii) the species being stocked meets the criteria where a certificate of registration is not required as described in Section R657-59a-4;

(b) Any triploid aquaculture product that are stocked originate from a lot that has been tested and meet the requirements specified in Subsection R657-59a-5 (3); and

(c) The aquaculture facility provides the purchaser of any triploid fish a copy of the letter issued by the division certifying that the stocked fish originated from a lot that meets the requirements specified in Subsection R657-59a-5(3); and

(d) Any aquaculture product that originates from an aquaculture facility that have New Zealand mud snails must be stocked in accordance to the procedures described in Subsection R657-59a-10.

(2) The division may collect aquatic wildlife at short-term fishing events to verify that the species and ploidy meet the requirements of Rule R657-59a

(3)(i) It is unlawful for an aquaculture facility to stock aquatic wildlife that violates the terms of Rule R657-59b or other rules established under Title 23A, the ~~Wildlife~~Wildlife Resources Code of Utah, and the Utah Wildlife Board.

(ii) Violation of this rule may result in a violation of Sections 23A-5-305 and 4-37-6.

KEY: wildlife, aquaculture, fish

Authorizing, and Implemented or Interpreted Law: 23A-9-305 and 23A-9-203

R657. Natural Resources, Wildlife Resources

R657-59c. Aquaponics.

R657-59c-1. Purpose and Authority.

(1) Under the authority of Sections 23A-9-305 and 23A-9-203, this rule subpart provides the standards and procedures for private fish stocking.

(2) This rule does not regulate fee fishing or private aquaculture as provided in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act, and Rule R58-17.

(3) A person engaging in private fish stocking must also comply with all requirements established by Title 4, the Utah Agricultural Code and all rules promulgated by the Utah Department of Agriculture and Food, including:

(a) requirements for the importation of aquaculture products into Utah; and

(b) requirements for fish health approval for aquaculture products.

(4) Any violation of, or failure to comply with, Title 23A, the Wildlife Resources Code of Utah, this rule, or any specific requirement contained in a certificate of registration issued pursuant to this rule may be grounds for suspension of the certificate or denial of future certificates, as determined by the division.

R657-59c-2. Definitions.

(1)(a) "Aquaculture product" means privately purchased, domestically produced aquatic organisms, or their gametes.

(b) "Aquaculture product" does not mean aquatic wildlife obtained from the wild, aquatic wildlife produced by the state or federally owned aquaculture facilities, or ornamental aquatic animal species.

(2) "Aquaponics facility" means a facility that combines fish and plant culture for a non-commercial purpose where:

(a) all water flowing into or through the facility is completely isolated from any other water source via a self-contained water transport system or there is no risk that water and waste discharged from the facility can enter a public waterway or waterbody;

(b) all water and waste flowing from the facility is discharged into a permitted sewer or septic system;

(c) the aquatic animals held within the facility are used for non-commercial purposes only;

(d) no aquatic animals or their gametes are transported from the facility alive; and

(e) the primary use of the facility is for food production and not for the general display of fish in aquaria.

(3) "Institutional aquaculture" means aquaculture engaged in by a school, college, university, or other educational program, or public agency other than the division.

(4) "Lake" means a naturally formed, perennial or intermittent, non-flowing waterbody that collects and keeps water in quantity for use

(5) "Natural stream channel" means a body of water that maintains continuous, seasonal or potential flow, as determined by the division.

(6) "Private fish pond" means a standing body of water or any fish culture system which:

(a) is not located on a natural lake, natural flowing stream, or reservoir constructed on a natural stream channel;

(b) is contained entirely on privately owned land; and

(c) is used for holding or rearing fish for a private, non-commercial purpose.

(7) "Reservoir" means an artificially constructed, non-flowing waterbody that is used to collect and keep water in quantity for use built by damming a natural stream channel.

(8) "Short-term fishing event" means an event where:

(a) privately acquired fish are held or confined for a period not to exceed ten days in a temporary event tank;

(b) for the purposes of providing a recreational opportunity; and

(c) no fee is charged as a requirement to fish.

R657-59c-3. Aquaculture Facility Requirements

(1) An aquaculture facility that possesses a valid license from the Utah Department of Agriculture and Food may stock aquatic wildlife into aquaponics facilities within Utah, provided:

(a)(i) The purchaser of the aquatic wildlife possesses a valid aquaponics facility certificate of registration as issued by the division; or

(ii) the species being stocked meets the criteria where a certificate of registration is not required as described in Section R657-59a-4;

(b) Any triploid aquaculture product that are stocked originate from a lot that has been tested and meet the requirements specified in Subsection R657-59a-5 (3); and

(c) The aquaculture facility provides the purchaser of any triploid fish a copy of the letter issued by the division certifying that the stocked fish originated from a lot that meets the requirements specified in Subsection R657-59a-5 (3); and

(d) Any aquaculture product that originates from an aquaculture facility that have New Zealand mud snails must be stocked in accordance to the procedures described in Subsection R657-59a-10.

(2) The division may collect aquatic wildlife from aquaponics facilities to verify that the species and ploidy meet the requirements of Rule R657-59a.

(3)(i) It is unlawful for an aquaculture facility to release aquatic wildlife that violates the terms of Rule R657-59c or other rules established under Title 23A, the Wildlife Resources Code of Utah, and the Utah Wildlife Board.

(ii) Violation of this rule may result in a violation of Sections 23A-5-305 and 4-37-6.

R657-59c-4. Certificate of Registration Not Required

(1) A certificate of registration is not required to stock an aquaculture product in an aquaponics facility, provided:
(a) the aquaculture product stocked are accompanied by a valid health approval number issued by the Utah Department of Agriculture and Food under Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act;

(b) The facility is located outside the 100 year floodplain of the Colorado River and its tributaries;

(c) In the Virgin River drainage, only the following species may be stocked:

(i) Largemouth Bass;

(ii) Bluegill; ~~and~~

(iii) Black Crappie;

(iv) Wiper;

(v) Tiger Trout; and

(vi) Rainbow Trout.

(d) In all other drainages, the following species may be stocked:

(i) bluegill;

(ii) hybrid bluegill (bluegill x green sunfish);

(iii) redear sunfish;

(iv) green sunfish;

(v) striped bass;

(vi) white bass;

(vii) hybrid striped bass or wiper (white bass x striped bass);

(viii) largemouth bass;

(ix) smallmouth bass;

(x) channel catfish;

(xi) yellow perch;

(xii) fathead minnow;

(xiii) black crappie;

(xiv) white crappie;

(xv) rainbow trout;

(xvi) cutthroat trout;

(xvii) brown trout;

(xviii) brook trout;

(xix) tiger trout;

(xx) walleye;

(xxi) white sturgeon; and

(xxii) any aquatic animal species classified as non-controlled for possession and importation under Section R657-3c-5.

(3) A certificate of registration must be obtained from the division under Section R657-59c-7 before stocking in any facility that does not meet the definition of an aquaponics facility in Subsection R657-59c-2 (2), or meet the criteria in Subsection R657-59c-4 (1).

R657-59c-7. Application for a Aquaponics Certificate of Registration; Application Criteria; Amendment of Certificate of Registration.

(1) The following persons may apply for a certificate of registration for an aquaponics facility:

(a) The owner of the aquaponics facility; and

(b) An individual who is a full-time employee of the aquaponics facility owner and represents the owner as a facility manager.

(2)(a) A person may apply to receive a certificate of registration for an aquaponics facility by submitting an application with the required handling and inspection fee following the instructions provided at: <https://wildlife.utah.gov/private-ponds.html>

(b) The application may require up to 30 days for processing.

(c) The division may require a site inspection of the stocking location be performed to confirm compliance with the provisions found in this rule.

(d) The division may deny an application where:

(i) the application is incomplete, filled out incorrectly, or submitted without the appropriate fee;

(ii) receiving or stocking the aquaculture product or aquatic wildlife may:

(A) violate any federal, state or local law or any agreement between the state and another party;

(B) negatively impact native wildlife species listed by the division as sensitive or by the federal government as threatened or endangered;

(C) pose an identifiable adverse threat to other wildlife species or their habitat;

(D) pose an identifiable adverse impact to the division's game fish stocking regimes or wildlife management objectives;

(iii) the applicant has violated Title 23A, the Wildlife Resources Code of Utah, Title R657, a guidebook of the Wildlife Board, a certificate of registration, an order of the Wildlife Board, or any other law related to the applicant's ability to responsibly carry out the stocking activity.

(3) A certificate of registration for an aquaponics facility may remain effective for up to 5 years from the date of issuance as identified on the certificate of registration. Certificates of registration cannot be renewed after the expiration date identified on the certificate of registration and a new certificate of registration must be granted after the expiration date. During the effective period of the issued certificate of registration, the certificate of registration holder may stock any of the aquaculture products approved on the certificate of registration at the locality identified on the certificate of registration as long as all stipulations under Rule R657-59c are adhered to, unless the certificate of registration is:

(a) amended by the division at the request of the certificate of registration holder. The division cannot amend certificates of registration to add additional species. The addition of species requires the issuance of a new certificate of registration;

(b) terminated or modified by the division pursuant to Section R657-59c-8; or

(c) suspended by the division or a court pursuant to Section 23-19-9.

Authorizing, and Implemented or Interpreted Law: 23A-9-305 and 23A-9-203

R657. Natural Resources, Wildlife Resources

R657-59d. Institutional Aquaculture.

R657-59d-1. Purpose and Authority.

(1) Under the authority of Sections 23A-9-305 and 23A-9-203, this rule provides the standards and procedures for institutional aquaculture.

(2) This rule does not regulate fee fishing or private aquaculture as provided in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act and Rule R58-17.

(3) A person engaging in institutional aquaculture must also comply with all requirements established by Title 4, the Utah Agricultural Code and all rules promulgated by the Utah Department of Agriculture and Food, including:

(a) requirements for the importation of aquaculture products into Utah; and

(b) requirements for fish health approval for aquaculture products.

(4) Any violation of, or failure to comply with, Title 23A, the Wildlife Resources Code of Utah, this rule, or any specific requirement contained in a certificate of registration issued pursuant to this rule may be grounds for suspension of the certificate or denial of future certificates, as determined by the division.

R657-59d-2. Definitions.

(1)(a) "Aquaculture product" means privately purchased, domestically produced aquatic organisms, or their gametes.

(b) "Aquaculture product" does not mean aquatic wildlife obtained from the wild, aquatic wildlife produced by the state or federally owned aquaculture facilities, or ornamental aquatic animal species.

(2) "Aquaponics facility" means a facility that combines fish and plant culture for a non-commercial purpose where:

(a) all water flowing into or through the facility is completely isolated from any other water source via a self-contained water transport system;

(b) all water and waste flowing from the facility is discharged into a permitted sewer or septic system or there is no risk that water and waste discharged from the facility can enter a public waterway or waterbody;

(c) the aquatic animals held within the facility are used for non-commercial purposes only;

(d) no aquatic animals or their gametes are transported from the facility alive; and

(e) the primary use of the facility is for food production and not for the general display of fish in aquaria.

(3) "Institutional aquaculture" means aquaculture engaged in by a school, college, university, or other educational program, or public agency other than the division.

(4) "Lake" means a naturally formed, perennial or intermittent, non-flowing waterbody that collects and keeps water in quantity for use

(5) "Natural stream channel" means a body of water that maintains continuous, seasonal or potential flow, as determined by the division.

(6) "Private fish pond" means a standing body of water or any fish culture system which:

(a) is not located on a natural lake, natural flowing stream, or reservoir constructed on a natural stream channel;

(b) is contained entirely on privately owned land; and

(c) is used for holding or rearing fish for a private, non-commercial purpose.

(7) "Reservoir" means an artificially constructed, non-flowing waterbody that is used to collect and keep water in quantity for use built by damming a natural stream channel.

(8) "Short-term fishing event" means any event where:

(a) privately acquired fish are held or confined for a period not to exceed ten days in a temporary event tank;

(b) for the purposes of providing a recreational opportunity; and

(c) no fee is charged as a requirement to fish.

R657-59d-3. Aquaculture Facility Requirements

(1) An aquaculture facility that possesses a valid license from the Utah Department of Agriculture and Food may stock aquatic wildlife into institutional aquaculture facilities within Utah, provided:

(a)(i) The purchaser of the aquatic wildlife possesses a valid institutional aquaculture facility Certificate of Registration as issued by the division; or

(ii) the species being stocked meets the criteria where a certificate of registration is not required as described in Section R657-59a-4;

(b) Any triploid aquaculture product that are stocked originate from a lot that has been tested and meet the requirements specified in Subsection R657-59a-5 (3); ~~and~~

(c) The aquaculture facility provides the purchaser of any triploid fish a copy of the letter issued by the division certifying that the stocked fish originated from a lot that meets the requirements specified in Subsection R657-59a-5 (3); ~~and~~

(d) Any aquaculture product that originate from an aquaculture facility that have New Zealand mud snails must be stocked in accordance to the procedures described in Subsection R657-59a-10.

(2) The division may collect aquatic wildlife from institutional aquaculture facilities to verify that the species and ploidy meet the requirements of Rule R657-59a.

(3)(i) It is unlawful for an aquaculture facility to release aquatic wildlife that violates the terms of Rule R657-59d or other rules established under Title 23A, the Wildlife Resources Code of Utah, and the Utah Wildlife Board.

(ii) Violation of this rule may result in a violation of Sections 23A-5-305 and 4-37-6.

R657-59d-7. Application for a Fish Stocking Certificate of Registration; Application Criteria; Amendment of Certificate of Registration.

(1) Only persons who are full-time employees of the institution of higher learning, school, or other educational program, or public agency seeking to engage in institutional aquaculture may apply for a certificate of registration.

(2)(a) A person may apply to receive a certificate of registration for an ~~aquaponies~~institutional aquaculture facility by submitting an application with the required handling and inspection fee following the instructions provided at: <https://wildlife.utah.gov/private-ponds.html>

(b) The application may require up to 30 days for processing.

(c) The division may require a site inspection of the stocking location be performed to confirm compliance with the provisions found in this rule.

(d) The division may deny an application where:

(i) the application is incomplete, filled out incorrectly, or submitted without the appropriate fee;

(ii) receiving or stocking the aquaculture product or aquatic wildlife may:

(A) violate any federal, state or local law or any agreement between the state and another party;

(B) negatively impact native wildlife species listed by the division as sensitive or by the federal government as threatened or endangered;

(C) pose an identifiable adverse threat to other wildlife species or their habitat;

(D) pose an identifiable adverse impact to the division's game fish stocking regimes or wildlife management objectives; or

(iii) the applicant has violated Title 23A, the Wildlife Resources Code of Utah, Title R657, a guidebook of the Wildlife Board, a certificate of registration, an order of the Wildlife Board, or any other law related to the applicant's ability to responsibly carry out the stocking activity.

(2) A certificate of registration for an institutional aquaculture facility may remain effective for up to 5 years from the date of issuance as identified on the certificate of registration, ~~unless~~. Certificates of registration cannot be renewed after the expiration date identified on the certificate of registration and a new certificate of registration must be granted after the expiration date. During the effective period of the issued certificate of registration, the certificate of registration holder may stock any of the aquaculture products approved on the certificate of registration at the locality identified on the certificate of registration as long as all stipulations under Rule R657-59d are adhered to, unless the certificate of registration is:

(a) amended by the division at the request of the certificate of registration holder. The division cannot amend certificates of registration to add additional species. The addition of species requires the issuance of a new certificate of registration;

(b) terminated or modified by the division pursuant to Section R657-59d-8; or

(c) suspended by the division or a court pursuant to Section 23-19-9.

KEY: wildlife, aquaculture, fish

Date of Last Change: November 21, 2023

Authorizing, and Implemented or Interpreted Law: 23A-9-305 and 23A-9-203

R657. Natural Resources, Wildlife Resources

R657-59e. Stocking into Natural Lakes, Natural Flowing Streams, or Reservoirs on Natural Stream Channels.

R657-59e-1. Purpose and Authority.

(1) Under the authority of Sections 23A-9-305 and 23A-9-203, this rule provides the standards and procedures for the stocking of fish into natural lakes, natural flowing streams, and reservoirs built on natural stream channels.

(2) This rule does not regulate fee fishing or private aquaculture as provided in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act and Rule R58-17.

(3) A person operating a private fish pond must also comply with all requirements established by Title 4, the Utah Agricultural Code and all rules promulgated by the Utah Department of Agriculture and Food, including:

(a) requirements for the importation of aquaculture products into Utah; and

(b) requirements for fish health approval for aquaculture products.

(4) Any violation of, or failure to comply with, Title 23A, the Wildlife Resources Code of Utah, this rule, or any specific requirement contained in a certificate of registration issued pursuant to this rule may be grounds for suspension of the certificate of registration or denial of future certificates of registration, as determined by the division.

R657-59e-2. Definitions.

(1) "Aquaculture" means the husbandry, production, harvest, and use of aquatic organisms under controlled, artificial conditions.

(2) "Aquaculture facility" means any facility used for the husbandry, production, harvest, and use of aquatic organisms under controlled, artificial conditions that holds a valid aquaculture facility license from the Utah Department of Agriculture and Food.

(3)(a) "Aquaculture product" means privately purchased, domestically produced aquatic organisms, or their gametes.

(b) "Aquaculture product" does not mean aquatic wildlife obtained from the wild, aquatic wildlife produced by the state or federally owned aquaculture facilities, or ornamental aquatic animal species.

(4) "Aquaponics facility" means a facility that combines fish and plant culture for a non-commercial purpose where:

(a) all water flowing into or through the facility is completely isolated from any other water source via a self-contained water transport system;

(b) all water and waste flowing from the facility is discharged into a permitted sewer or septic system or there is no risk that water and waste discharged from the facility can enter a public waterway or waterbody;

(c) the aquatic animals held within the facility are used for non-commercial purposes only;

(d) no aquatic animals or their gametes are transported from the facility alive; and

(e) the primary use of the facility is for food production and not for the general display of fish in aquaria.

(5) "Aquatic wildlife" for the purposes of this chapter are:

(a) fish, mollusk, or crustacean species that are spawned and hatched in public waters, state or federal aquaculture facilities; and

(b) fish, mollusk, or crustacean species that escape a private fish pond into a public water.

(6) "Certified sterile aquaculture product" means any fish or gamete that originates from a health certified source, as described in Title 4, Utah Agricultural Code, Chapter 37, Aquaculture Act and is incapable of reproduction due to triploidy or hybridization, and is confirmed as sterile using the protocol described in Section R657-59a-5.

(7) "Division" means the Utah Division of Wildlife Resources.

(8) "Fee fishing facility" means a body of water used for holding or rearing fish for providing fishing for a fee or for pecuniary consideration or advantage.

(9) "FEMA" means Federal Emergency Management Administration.

(10) "HUC" or "Hydrologic Unit Code" means a cataloging system developed by the US Geological Survey and the Natural Resource Conservation Service to identify watersheds in the United States.

(11) "Institutional aquaculture" means aquaculture engaged in by a school, college, university, or other educational program, or public agency other than the division.

(12) "Lake" means an naturally formed, perennial or intermittent, non-flowing waterbody that collects and keeps water in quantity for use

(13) "Lot" means fish of the same species that are subject to a health inspection under the Aquatic Animal Health Inspection Policy in Subsection R58-17-2 (26), which establishes guidelines for lot designation for salmonid and non-salmonid fish.

(14) "Natural stream channel" means a body of water that maintains continuous, seasonal or potential flow, as determined by the division.

(15)(a) "Ornamental aquatic animal species" means any species of fish, mollusk, or crustacean that is cultured for display and then sold in the United States' aquarium industry for display.

(b) "Ornamental aquatic animal species" does not include:

(i) fresh water;

(A) sport fish - aquatic animal species regulated for angling or harvest for recreation or sport;

- (B) baitfish - aquatic animal species authorized for use as bait in Subsection R657-13-12, or any other species used by anglers as bait in sporting fishing;
- (C) food fish - aquatic animal species cultured or harvested from the wild for human consumption; or
- (D) native species; or
- (ii) aquatic animals and marine aquatic animals prohibited for importation or possession by any state, federal, or local law; or
- (iii) aquatic animals and marine aquatic animals listed as prohibited or controlled in Sections R657-3-22 and R657-3-23.
- (16) "Private fish pond" means a standing body of water or any fish culture system which:
 - (a) is not located on a natural lake, natural flowing stream, or reservoir constructed on a natural stream channel;
 - (b) is contained entirely on privately owned land; and
 - (c) is used for holding or rearing fish for a private, non-commercial purpose.
- (17)(a) "Private stocking" means an authorized release of privately owned live fish into waters of the state that are not eligible as a private fish pond, aquaculture facility, or fee fishing facility.
- (18) "Purchase" means to buy, or otherwise acquire or obtain through barter, exchange, or trade for monetary consideration or advantage.
- (19) "Reservoir" means an artificially constructed, non-flowing waterbody that is used to collect and keep water in quantity for use built by damming a natural stream channel.
- (20) "Salmonid" means any fish belonging to the trout or salmon family.
- (21) "Short-term fishing event" means any event where:
 - (a) privately acquired fish are held or confined for a period not to exceed ten days in a temporary event tank;
 - (b) for the purposes of providing a recreational opportunity; and
 - (c) no fee is charged as a requirement to fish.
- (22) "Sterile" means the inability to reproduce.

R657-59e-3. Aquaculture Facility Requirements

- (1) An aquaculture facility that possesses a valid license from the Utah Department of Agriculture and Food may stock aquatic wildlife into natural lakes, natural flowing streams, or reservoirs on natural stream channels within Utah, provided:
 - (a)(i) The purchaser of the aquatic wildlife possesses a valid certificate or registration to stock in natural lakes, natural flowing streams, or reservoirs on natural stream channels; or
 - (ii) the species being stocked meets the criteria where a certificate of registration is not required as described in Section R657-59a-4;
 - (b) Any triploid aquaculture product that are stocked originate from a lot that has been tested and meet the requirements specified in Subsection R657-59a-5 (3); ~~and~~
 - (c) The aquaculture facility provides the purchaser of any triploid fish a copy of the letter issued by the division certifying that the stocked fish originated from a lot that meets the requirements specified in Subsection R657-59a-5 (3); ~~and~~ and
 - (d) Any aquaculture product that originate from an aquaculture facility that have New Zealand mud snails must be stocked in accordance to the procedures described in Subsection R657-59a-10.
- (2) The division may collect aquatic wildlife from natural lakes, natural flowing streams, or reservoirs on natural stream channels to verify that the species and ploidy stocked meet the requirements of Rule R657-59a.
- (3)(i) It is unlawful for an aquaculture facility to release aquatic wildlife that violates the terms of Rule R657-59e or other rules established under Title 23A, the Wildlife Resources Code of Utah, and the Utah Wildlife Board.
- (ii) Violation of this rule may result in a violation of Sections 23A-5-305 and 4-37-6.

R657-59e-10. Application for a Fish Stocking Certificate of Registration; Application Criteria; Amendment of Certificate of Registration.

- (1) The following persons may apply for a certificate of registration for a private fish pond:
 - (a) The owner of the private fish pond;
 - (b) The president of a homeowners association, if the pond is on homeowners association property; or
 - (c) An individual who is a full-time employee of the private pond owner, who represents the pond owner as a property manager.
- (2)(a) A person may apply to receive a certificate of registration for a fish stocking activity by submitting an application with the required handling and inspection fee following the instructions provided at: <https://wildlife.utah.gov/private-ponds.html>
- (b) The application may require up to 30 days for processing.
- (c) The division may require a site inspection of the stocking location be performed to confirm compliance with the provisions found in this rule.
- (d) The division may deny an application where:
 - (i) the application is incomplete, filled out incorrectly, or submitted without the appropriate fee;
 - (ii) receiving or stocking the aquaculture product or aquatic wildlife may:
 - (A) violate any federal, state or local law or any agreement between the state and another party;

(B) negatively impact native wildlife species listed by the division as sensitive or by the federal government as threatened or endangered;

(C) pose an identifiable adverse threat to other wildlife species or their habitat;

(D) pose an identifiable adverse impact to the division's game fish stocking regimes or wildlife management objectives; or

(iii) the applicant has violated Title 23A, the Wildlife Resources Code of Utah, Title R657, a guidebook of the Wildlife Board, a certificate of registration, an order of the Wildlife Board, or any other law that relates to the applicant's ability to responsibly carry out the stocking activity.

(3) A certificate of registration for a private stocking event ~~may remain~~ effective ~~for 5 years from the length~~ ~~date of time~~ ~~issuance as~~ identified on the certificate of registration. Certificates of registration cannot be renewed after the expiration date identified on the certificate of registration and a new certificate of registration must be granted after the expiration date. During the effective period of the issued certificate of registration, the certificate of registration holder may stock any of the aquaculture products approved by the certificate of registration at the locality identified on the certificate of registration so long as all stipulations under Rule R657-59e are adhered to, unless the certificate of registration is:

(a) amended by the division at the request of the certificate of registration holder. The division cannot amend certificates of registration to add additional species. The addition of species requires the issuance of a new certificate of registration;

(b) terminated or modified by the division pursuant to Section R657-59-10; or

(c) suspended by the division or a court pursuant to Section 23A-4-1106.
